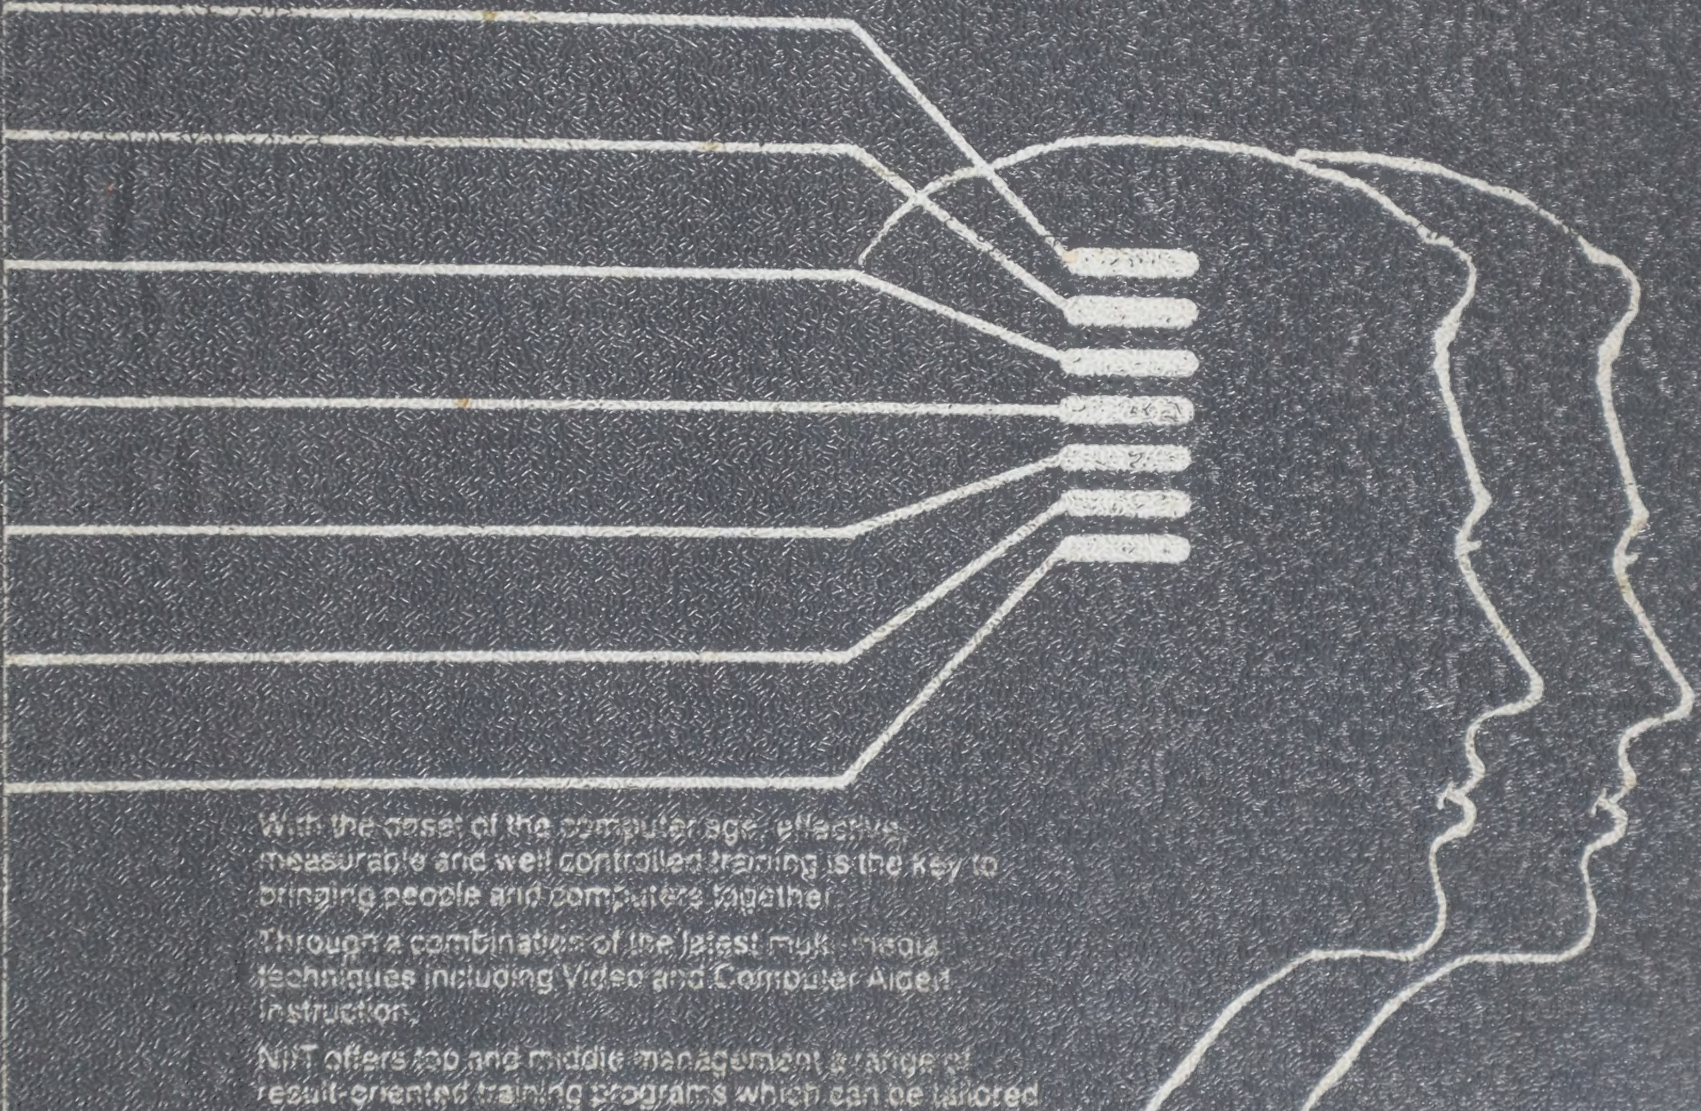
Bringing people
and computers together



With the onset of the computer age, effective, measurable and well controlled training is the key to bringing people and computers together.

Through a combination of the latest multi-media techniques including Video and Computer Aided Instruction.

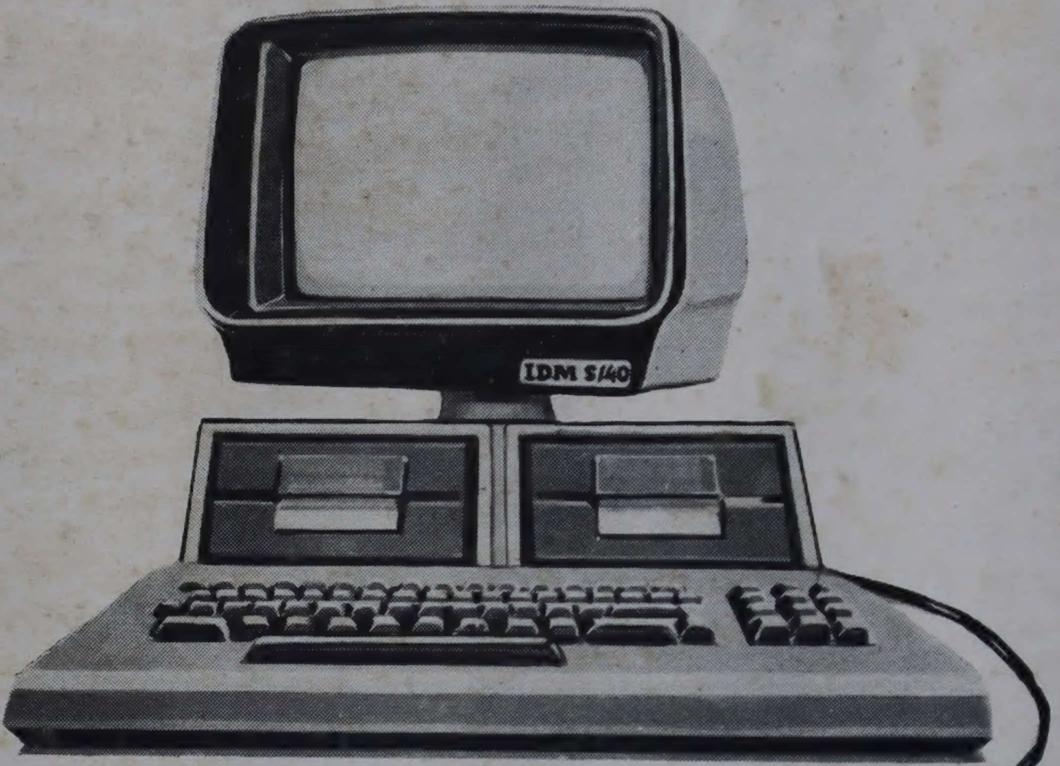
NIIT offers top and middle management a range of result-oriented training programs which can be tailored to a company's requirement and conducted in-company.

NIIT also offers short-and medium-term classroom programs, seminars and workshops designed and conducted by internationally eminent experts. To impart necessary skills required by professionals at all levels in the fast changing field of Information Technology.

National Institute of Information Technology
DELHI BOMBAY MADRAS BANGALORE

NIIT

Introducing the S/40 Desk Top Computer. To know how good it is, take a look at its roots.



When someone announces a new computer, the best thing to do is to take a good look at who's doing the announcing.

Check their background
Check their facilities.
Check their experience.
Check their philosophy.

In fact, this is exactly what companies like Asian Paints, Sandoz, Blow Plast and many others did before placing orders for their large computer systems.

And, they selected IDM.

IDM.

The Company with the experience, know-how and a national customer support network, to back the range of computers it makes and markets.

In other words, the company that's commited to making computers work for you.

This is the company that's now introducing a new Desk Top Computer

The IDM S/40

- ☐ An independent, feature packed, single user system.
- ☐ Can be linked to a larger system.
- ☐ Human engineered with a Swivel & Tilt screen to suit your convenience.
- ☐ Has a variety of applications software for you to use the system effectively.
- ☐ Can be used very effectively as a Word Processor.

For small organisations. For Branches and Depots of large organisations. For Professionals like Lawyers, Doctors, Consultants and Accountants. For Chief Executives who need up-to-date information at their fingertips.

In short, never has a computer offered so much, to so many, for so little.

For more details please contact your nearest IDM office at Bombay, Tel: 2026020; Delhi, Tel: 279611; Calcutta, Tel: 444841; Madras, Tel: 812381; Ahmedabad, Tel: 450886; Bangalore, Tel: 579595; or write to:

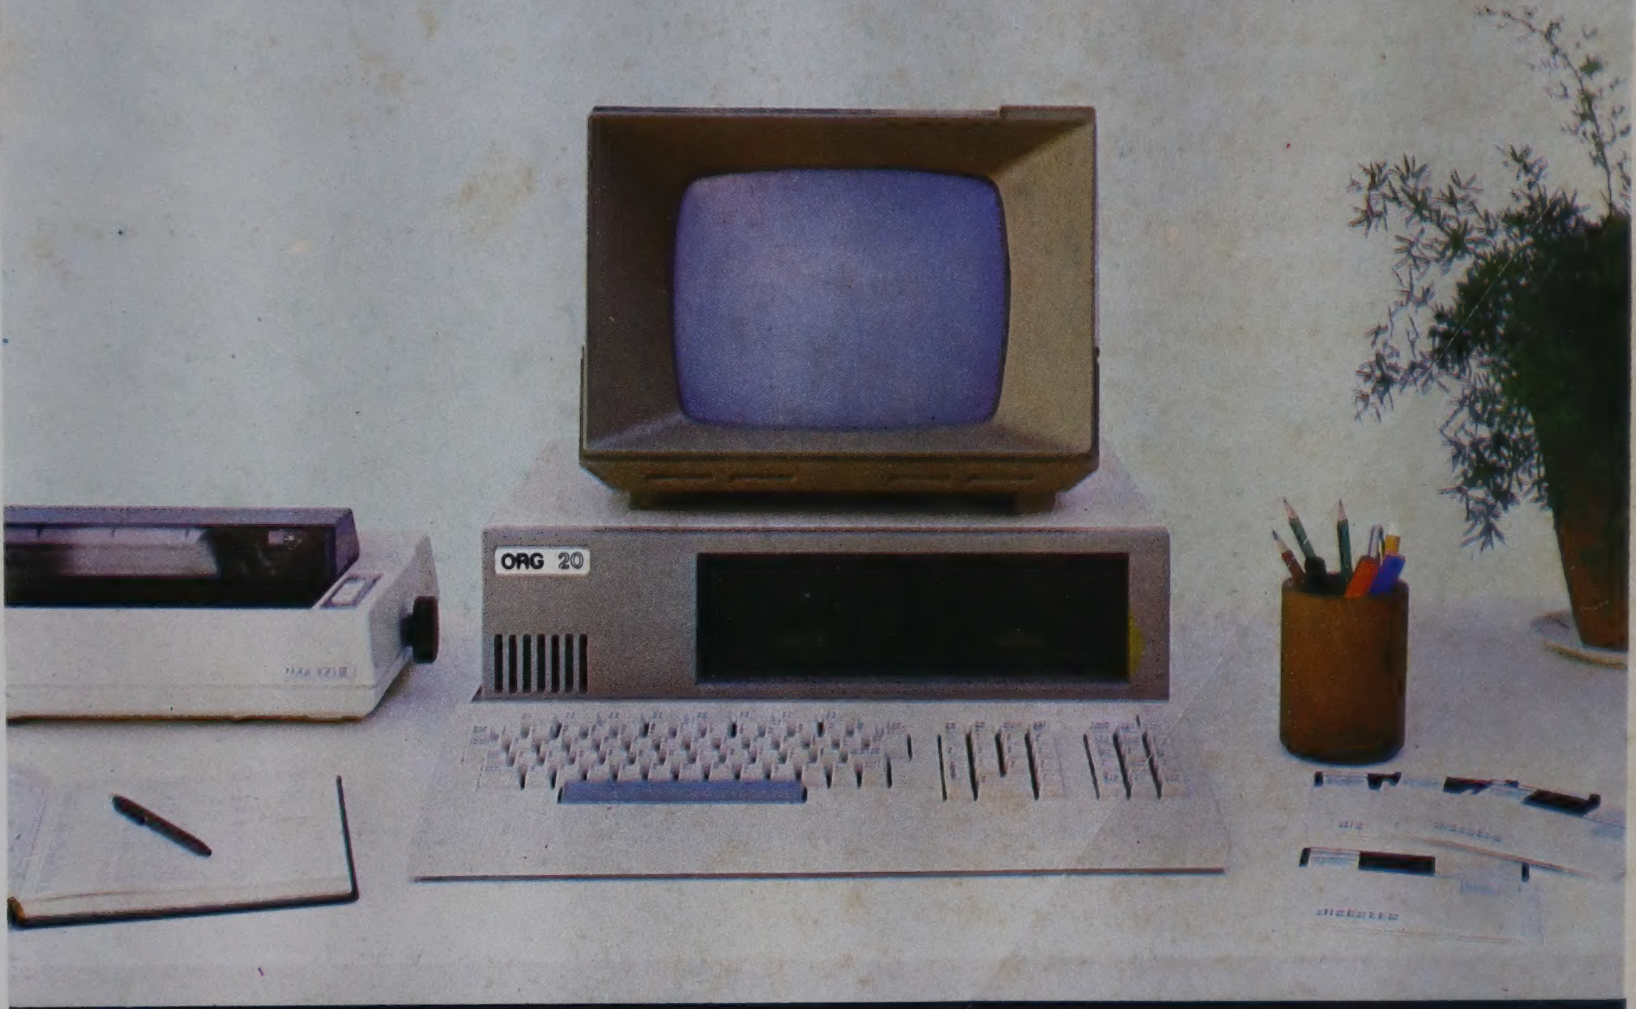
INTERNATIONAL DATA MANAGEMENT PVT. LTD.,
Safed Pool, Sir M. Vasanji Road.
Bombay 400 072

IDM

Anyone can sell you a computer.
We give you solutions.

ORG 20

For Your Office



The ORG 20 is a compact, easy to learn and easy to use office computer, to help make your business more productive and assist you to manage it more efficiently.

It offers big system benefits and advanced design features that add to the rewards and enjoyment of having your own office computer, at a cost your business can easily afford.

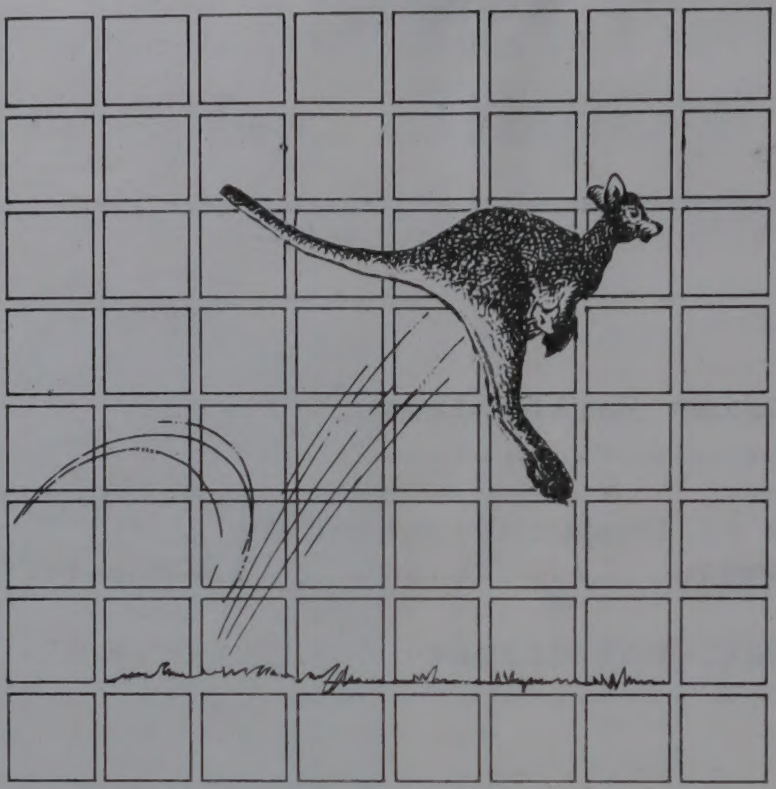
SHOULD A COMPUTER BE LEFT BEHIND WHEN BUSINESS GROWS BY LEAPS AND BOUNDS?



Times are changing.
Business is booming.

And it is important that your business machine keeps pace with your growing business.

While buying a computer, always think of its expandability.

Think of the future.

The USHA-EAGLE Series. Upgradability at a down-to-earth price.

The USHA-EAGLE incorporates unique features of upgradability.

With a main memory of 64 KB, it can grow from one 5¼, 390 KB floppy drive to two 5¼, 780 KB floppy drives.

Committed in revolutionising state-of-the-art technology for over fifty years.

Usha Microprocess Controls Ltd., a part of the Ram Krishan Kulwant Rai Group, is a name synonymous with the electronic and technological revolution in India.

For over fifty years, the RKKR Group's ceaseless innovations have kept pace with lightning technological advancements all over the country.

Its collaborations with leading international giants such as Marconi and General Electric of the United Kingdom have resulted in the most sophisticated selenium and silicon rectifiers, thyristors, diodes and India's most advanced thyristor based diodes.

Over 50,000 Eagle computers at work all over the world is a testimony in itself.

The only Desk-top series in India with a 10 megabyte Winchester.

The USHA-EAGLE is the only computer series with a 5¼, Winchester disk drive with 10 MB capacity.

Additional capacities of upto 50 MB are available in the series as options

Indeed, there's a lot more you need to know as to why the USHA-EAGLE is your "no option" computer.

An all India network with regional offices at Bangalore, Bombay, Calcutta and Madras are placed at your disposal.

Preface

We are pleased to present to you The Computer Directory of India, 1984 edition.

The computer industry, since our last edition, has continued to grow at a very rapid pace. The growth has been in all spheres: more computer companies, more installations, more supporting services.

The new Computer Policy recently announced is expected to remove several of the irritants and impediments that had crept into the method of regulating the industry. The decision to liberalize imports on a rational basis as also the steps to promote the indigeneous manufacturing are in right direction as these promise to help the country leap-frog into the mainstream of international technology. The use of computers in homes too appears a possibility now. All this would certainly lead to a further surge in the growth of this industry.

A Wider Coverage

The 1984 edition has a much wider coverage than the 1983 edition. The number of entries too have significantly increased. Four new sections have been added:

- Who's Who in the Computer Industry
- Relevant Government Policies
- Data Preparation Services
- Recruitment Agencies

How this Directory was compiled

Ever since our last edition was published, our team of researchers started locating, researching, and contacting new companies in the computer business and new computer installations. New organisations were also located through newspapers advertisements, correspondence, visits etc.

Questionnaires were sent to all such organisations. In case where efforts failed to achieve the return of the questionnaire, entries were taken as they existed in our last edition. Corrections and updations to the existing entries were also carried out.

Readers' Suggestions: Hard Bound, Lower Price...

Several suggestions received from the readers have been incorporated. Most of these related to making this edition in a hard bound format and reducing its price.

A very large numbers of readers also found the earlier edition bulky. To accomodate the enormous growth in entries and yet keep the number of pages down was a probelm, a solution to which has been found by going dual column in this edition.

Suggestions to do away with the Glossary of Computer Terms as also with the update service have also been carried out in this edition.

Arrangement

The Directory is divided into 18 sections. An "Introduction to Sections" describes the extent and nature of coverage of information in each section.

Annual Edition

With the second edition coming out in 1984, our plans to make the Directory an annual feature are fullfilled. The 1985 edition would be released in December 1985.

Advertisers

We would like to thank the several organisations who have advertised in this Directory. If you would like to advertise in the next edition, please write to us.

A Word of Apology

This edition went into final stages in May 1984 and was scheduled to go to press in June 1984. However, due to some unforeseen and unavoidable circumstances, the schedules were badly affected. We are fortunate to have tide over all these problems and are pleased to present to you this Directory, though belatedly. To compensate, we continued the work of additions/updating until November 1984 and as such though late, you are now getting a latest, current directory. We are grateful to you for bearing with us.

We Need Your Help

The Computer Industry is growing at a very rapid rate. To keep pace with this change, we are strengthening our research and editorial staff. You would appreciate that compiling data on an industry such as computers - (where changes are frequent, many organisations still prefer to be secretive and, as said earlier, where the growth is phenomenal) is an enormous job.

It is likely that some organisations have been omitted. It is also likely that information about some organisations needs corrections/updation.

We shall appreciate your co-operation and contributions, enabling us to serve you better.

Information should be sent to:

HOW TO STAY ON TOP OF THE INFORMATION EXPLOSION!

PCS TELLS YOU HOW IT CAN PROCESS LARGE VOLUME OF DATA ACCURATELY, EFFICIENTLY

AND FAST.

The information explosion has become a fact. Everyday, data is multiplying at an incredible rate. In a sea of rising labour cost, slow output and unproductive paper shuffling, PCS provides a life boat—a bold new concept in data processing for large, medium or small companies.

At PCS we use computer technology to provide fast answers and faster solutions to your data processing needs. It gives you instant information of customers' various requirements in no time instead of weeks.

PCS expertise helps even in maintaining more than 2 million master records for an All-India Organisation, every month. A complex and not-so-easy task as you can very well understand.

PCS can undertake your complete data processing needs, right from the input and output design to form printing, system design, software development, data processing and data preparation work on a turn-key basis, from concept to commissioning.

at **PCS** we don't sell computers, we put them to use for you.

COMPUTERS IN INDIAN MARKETPLACE

by

VINAY RAI
Managing Director, Usha Microprocess Controls Ltd.

If anything has, after the industrial revolution of the eighteen hundreds, so drastically changed the life style and the manner in which man goes about his business it is the advent of computers and along with it, its information systems and mass communications.

In the developed world today it has permeated into all walks of a man's life, whether it is at office or at home. Computers in the business office environment are used for faster communications, airlines and railway bookings, accounts, process, environment & pollution control, automation in industries, automobiles and whatever else one can think of. At home it is used for children's education, information access, telephone directories and household accounts. In the coming future it would be used for total communications with each other.

We in the developing world cannot keep our eyes closed to this phenomenal change taking place all around us. The computers and everything else that goes with it have become a hard reality. No longer, is it a question of whether it displaces labour or not. The question is as irrelevant as asking whether the advent of motor cars, railroad or planes replaced labour.

To a new man a computer is - God knows what- something unfriendly-something for replacement- something that will put him out of a job. But as he learns more about a computer, he will find that this is not true. A computer is only a working tool for a craftsman. For instance, to a carpenter if you give him a good electric machine, he will make furniture faster and better but it certainly does not mean that the carpenter is not required. Through a computer system you are only increasing the information levels- improving information systems, efficiency and productivity but you are not replacing man. Take the magazine world for instance. In the old days there were only one or two magazines. Now there are dozens of them. Does it mean that one has replaced the other? On the contrary, the readership has been increasing. Man's need for information- his thirst for information- keeps increasing by leaps and bounds. The computer industry is a good tool to give man more information- faster and more efficiently. As long as there is thirst in man for more and better information, there will always be a need for computers. The electronics industry- the information systems industry- is the largest employer in the United States. If computers were to replace people, how could the electronics industry be employing the maximum number of people? The answer is simple. A computer is only as good as the amount of data you feed into it. One has, therefore, to employ people not only in the manufacture, production and distribution of computers but also for gathering data and analysing the data which the computer throws up. This need opens up vast new areas both in terms of employment and productivity.

The other day I had a discussion with the head of a big bank. I told him" You don't need to convince the trade union leaders about the computer. You just buy a system that costs, say, twenty thousand rupees and you give it to them. Let them play with it for sometime. They will come back to you and say 'if you don't have computers, there will be a strike..'' It is like a calculator ten years ago. Today you don't ask whether a calculator is necessary or not. You just accept it as a part of life. Computer is that much a better calculator- it is a total information system. So I say, don't fight the unions. Just give them a few computers to play with. They will come back and fight for you.

For a developing country like ours it is in our interest to accept and adapt to the new changes and to devise the best ways and means to benefit from the new revolutionary technologies. If we ignore it, we will find ourselves relatively speaking back in the stone age. Our competitive edge in low labour costs is already being wiped out and unless we adapt our systems to computerisation we will find world markets for our products evaporate fast.

We could not shut our eyes to the advent of nuclear technology and satellite communication. How then can we shut our eyes to computerisation?

Computerisation can help save precious fuel and energy. It can help clear up better our polluted environment and bring in better living conditions for even the man of the street because overall efficiency, productivity and clean environment will benefit all.

In the farm sector' computerisation and better information and analytic systems can help increase farm output dramatically. Control of seed quality, soil tests and analysis can all be done far better with computerisation. Railways ticketing and banking which somehow touches all of us can be so easily streamlined with the installation of computers.

The world today has come closer together and with it the need for communications and transfer of information has increased tremondously. Also businesses have become more efficient and productive. Computers have a great role to play in this regard. In the developing world especially, the need for computers is far greater since we have to grow very rapidly if we have to catch up with developments that have taken place in the rest of the world. The need for computers is, therefore, well established. How far we can find our own practical uses for them depends entirely on our own people and their ability.

We in India have among us the best software engineers in the world and I am sure that with a little effort we can quickly take a mastery over this new technology.

I am confident that our people will meet the challenge of the computer age and harness its potential for the betterment of our people.

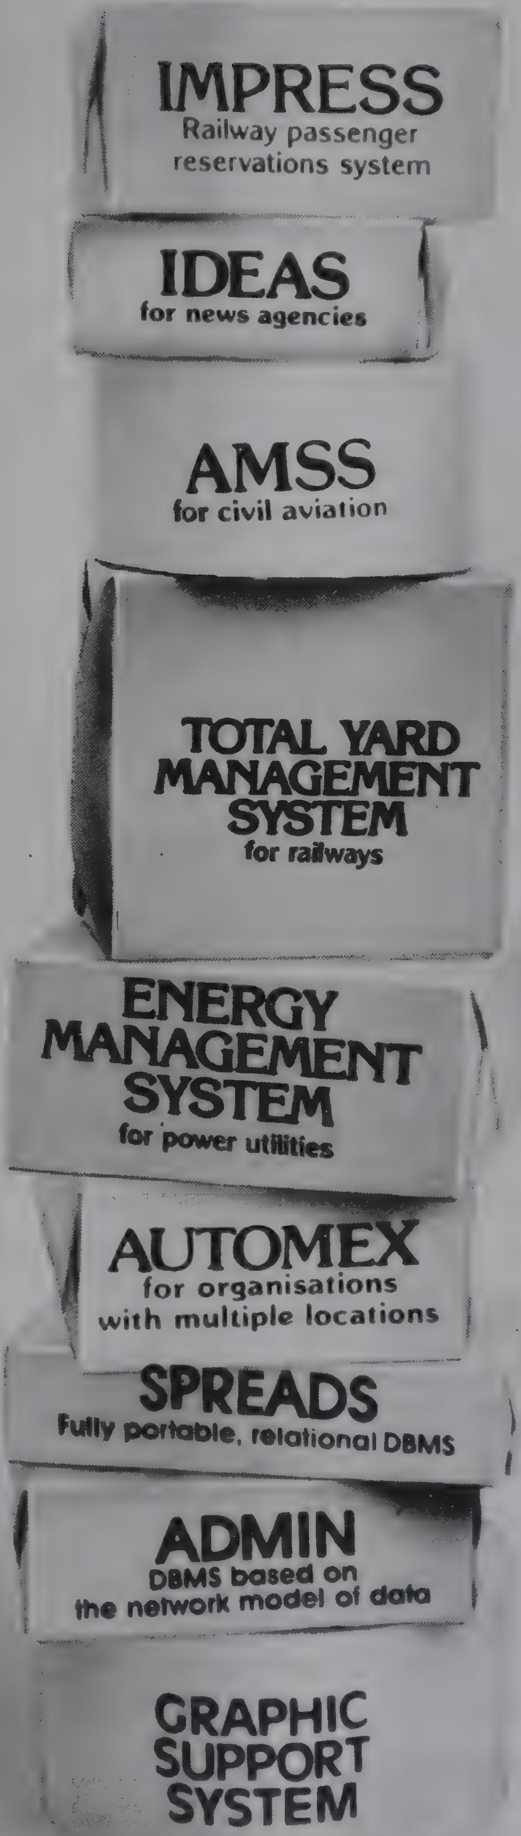
COMPUTERS - INDIAN INDUSTRY SCENARIO

Even though production of computers commenced indigenously in the year 1971, however, the two leading multinational giants - IBM of US and ICL of UK continued dominating the Indian market untill 1977. Electronics Corporation of India Ltd. (ECIL) was the first company to introduce indigenous computer models in India sometime in 1971 and by 1980 the company had brought out about 120 small computers. In the year 1978, the Government realised the need to increase computer production and in the process accorded its approval to ICIM (International Computers Indian Manufacture Ltd) to manufacture the ICL-2904 series in collaboration with ICL of UK.

However, imports continued rising steadily (Rs.8.75 crores in 1976 to Rs.28 crores in 1982). In order to expand the industry, the DoE (Department of Electronics) announced an industrial & technical policy on mini & micro computers. As many as 140 companies were granted licences and a little over half of them have now been manufacturing computers & its relevant components. The overall production of the industry increased from worth Rs. 10 crores in 1976 to Rs. 60 crores in 1982-83. The fact, however, remains that the indigenised computers are being produced only by a few of these companies; while most of the other companies buy technology and equipment initially from abroad and over a certain time period they indigenise it. The remaining companies develop hardware and purchase software.

Records reveal that nearly 5000 computer systems are being produced in India every year. However, production at home being insufficient, imports are still on. Under the Government's existing policy, non-resident Indians are eligible to import computers worth Rs. 5 lakhs subject to the condition that such computers were purchased at least a year back before being imported. According to some estimates, apart from non-resident imported computers, about 300 computers were imported during 1983. These were assembled here and were sold without providing for sufficient support in terms of maintenance and aftersale service.

Measure a software company by its packages and you'll find no one can top CMC.



IMPRESS
Railway passenger reservations system
IDEAS
for news agencies
AMSS
for civil aviation
TOTAL YARD MANAGEMENT SYSTEM
for railways
ENERGY MANAGEMENT SYSTEM
for power utilities
AUTOMEX
for organisations with multiple locations
SPREADS
Fully portable, relational DBMS
ADMIN
DBMS based on the network model of data
GRAPHIC SUPPORT SYSTEM

Here are some of CMC's major software packages. And the number's growing all the time.

Special Application Packages

IMPRESS : An on-line, user-friendly multi-train passenger reservation system, to be installed for the Northern Railway. This is the biggest turnkey project undertaken by any computer company using Indian software.

ENERGY MANAGEMENT SYSTEM : A real-time, portable system for power utilities.

TYMS : A self-contained portable on-line processing system for railway marshalling yards and terminals.

Data Base Management Systems

SPREADS : India's first, fully portable relational DBMS.

ADMIN : A data base management system based on the network model.

Communication Systems

IDEAS : An information Dissemination, Editing and Switching System for news agencies. Currently being installed at 4 centres of the Press Trust of India (PTI).

AMSS : Automatic Message Switching System for civil aviation, designed in conformity to AFTN standards. Soon to be installed for the Directorate General of Civil Aviation.

AUTOMEX : Automatic Message Switching System for banks and other large organisations with multiple locations.

Graphic Support System

GRAPHIC KERNEL SYSTEM : Support software developed according to the recently established ISO standard on 2–dimensional graphics.

An impressive list, isn't it? Now you know where to go if you need specialised software. CMC will custom-design it especially for you.

No one designs software the way we do.

CMC
(A Government of India Enterprise)
World Trade Centre,
2nd floor, Cuffe Parade,
Colaba,
Bombay-400 005.
Phone : 219181.

There has been increasing competition in the industry in recent past and it has resulted in reducing the prices of computers substantially. However, the computers are still high priced at least three times the price of similar equipment sold abroad. The reasons being - import duty on components and lower volume of production.

Inspite of all this, the computer market is headed for a rapid growth in future. Several organisations in the Government, Public and Private sectors are expected to go in for computerisation in the very near future. Besides, three large networks are coming up. They are NICNET - to be set up by the National Informatics Centre (NIC) to serve the Central and State Governments; INDONET - being set up by the Computer Maintenance Corporation to serve the public sector, service sector and the commercial sectors and EDUNET - at the initial stage of being designed, is proposed to serve the education and training sector.

Although computers are being installed/manufactured in the country, however, their indigenous content is quite low. Peripherals-input, out-put and memory devices of computers are the most important and vital parts of computer assembly. Producing these components means needle point precision and a high degree of technological sophistication. It is estimated that about 20% peripherals requirement of Indian overall computer installations, is imported.

However, some Indian firms are considering manufacture of peripherals keeping in view the introduction of small computers in recent years. In fact, just a few years back, a public sector company - BEL successfully designed and developed some peripherals including alphanumeric, display panel, printer, clotmatrix etc. but could not produce them on a commercial scale because of the low demand volume within the country so as to justify the economy involved in their manufacturing. Industry sources indicate the market for peripherals to the tune of over Rs. 21.5 crores in 1983.

Peripherals, in fact, play such an important role in computer installation, it can be said that once these are indigenously available, making an indigenous computer will not be difficult.

Considering the expensive tooling involved in manufacturing of peripherals, it is imperative that India should either export peripherals or limit indigenisation to the extent where its manufacturing is economical. In view of comparatively low-cost-labour available in India, the overall production cost of peripherals could be at par with that abroad; as a large part of the cost involves labour activities, such as wiring, soldering and assembly.

Peripherals business is not an easy one, it entails risks also. For example - whereas at one time, the industry preferred 8 inch drives, there are indications of the industry opting for 5 1/4 inch drives. The Government, however, is appreciative of the difficulties and have exempt the manufacturers of peripherals from Section 21 & 22 of the MRTP Act, besides granting liberal foreign collaborations in the field.

**A single — source supply for

Government's Role in Computerisation in India

by

DR. N. SESHAGIRI

Additional Secretary Computer Development Division Department of Electronics.
Government of India.

Computer, an important tool for productivity improvisation, finds its place in the entire gamut of our acivities, be it an office, industrial unit, commercial organisation, training institute, defence or space exploration. With the advent of cheaper, smaller and powerful computers, time is not far away when it will be as essential as any other commodity in life. Personal computers are already becoming popular at homes. With its acceptance as a catalyst for faster growth of economy, no country can afford to lag behind in its applications. No longer considered to be a deterrent to employment, it brings a transformation of work culture in the existing manpower making their services more useful.

The first computer in the world was Electronic Numerical Integrator and Calculator (ENIAC) developed in 1946. It used electronic tubes and is called first generation computer. Then came the second generation computer using transistors, third generation computer using ICs and fourth generation computer using large scale integrated circuits. The fifth generation computer has also been developed abroad, which is not a traditional computer but an intelligent machine capable of inference and reasoning through massive amounts of knowledge and data.

In India computerisation started with the installaton of HEC-2M computer system at Indian Statistical Institute (ISI), Calcutta in the year 1955 imported from UK. ISI also acquired a Soviet built computer URAL-1 as gift in 1958. The first indigenous computer was designed in 1964 by ISI, Calcutta and Jadavpur University, Calcutta. The decade 1955-64 was an introductory phase for computers in India. By the end of this period there were 16 computers out of which 10 were supplied by IBM. During the period 1965-72, computerisation in India speeded up, with the installation of 170 computer systems, 75% of which were supplied by IBM. During this period private companies also realised the potential of computer and about 45% of the computers were acquired by them, while in the begining only public sector units and educatinal and R & D organisations acquired computers. During the year 1972 the Committee on Automation, Ministry of Labour and Rehabilitation put up restrictions on computerisation and this stagnated the import of computers in India. However, this gave impetus to ECIL, Hyderabad to capture indigenous market, and during the period 1973-78 ECIL installed 94 computer systems. Government gave massive financial assistance to ECIL, Hyderabad for the development of TDC-12, TDC-316 and TDC-332 systems to establish a sound base for indigenous computers.

In the sixties, the Department of Statistics, Government of India used to coordinate the work relating to acquisition of computers. It was only in 1975, Department of Electronics was made the primary agency of Government for evaluation and approval of all electronic data processing equipment with a view to ensure full coordination between indigenous development of technology, local production capabilities, rational usage of computers in relation to national needs and bearing in mind the necessity to avoid unnecessary labour displacement and computer import and maintenance. This led to the rationalisation of acquisition of computers in the country. DOE formulated clear guidelines and procedures for acquisition of computers. It also evaluated the application of computers in various sectors of economy and regions of the country and judically planned the introduction of computerisation in India keeping in view the national priorities and needs. Government efforts have been directed to provide the country with contemporary technology and techniques in this fast emerging area of computerisation. This is a continuous process and some of the major efforts made are discussed here.

Computer Network for Government

Improvisation of productivity has resulted in Governmental operations through streamlining of information base, systems analysis of the organisational structure, quantitative studies feeding the planning process and in general evolving an effective management information system for each ministry/department with exchange of information between ministries/departments in purview. The catalyst for this has been National Informatics Centre (NIC) concept conceived in 1973 and nucleated in 1975 with minimum basic infrastructure mainly to develop methodologies for implementing a governmental information system and to demonstrate to the government departments the benefits that accrue from computerisation. This was followed by the commissioning of NIC Network (NICNET) in 1977. This was a phase of innovation penetrating through barriers of conservatism in Governmental organisations.

Presently, NIC has become a name of national and international repute with a series of successes and scoring a proud record of first by developing a distributed and decentralised informatics and computer network for Government Management Information System (MIS), a network for Asiad '82 and network for the Non-Aligned Summit of 1983. More than 200 technical personnel are serving over 40 ministries/departments of the Government of India and their associated organisations through a computer network of more than 20 minicomputer-based remote stations and more than 100 interactive terminals converging on to a host system Cyber 170/730 with Array Processors, which is presently the biggest computer in India procured through a substantial grant from the United Nations Development Programme. So far more than 150 databases have been created for various user organisations. The most important function of NIC is to put to use the growing technology of computer networking to enable efficient exchange of information between the ministries/ departments of the Government as well as between them and the public. With emphasis on appropriate computerisation, NIC has emerged as an agent of beneficial transition in the Government introducing computerisation in areas conducive to the efficient discharge of responsibilities by the ministries/ departments and their associated organisations. The impact of NIC on the productivity in governmental functioning is being increasingly realised by various ministries/departments. Principally, this impact arises from the following methodologies adopted by NIC: (i) interactive MIS, (ii) processing at the data sources, (iii) standardisation in coding and formats, (iv) correlatory data bases, (v) spreading the effects of innovation and (vi) NIC as agent of transformation of work culture. Enhancement of productivity in information processing has been made possible by pooling of hardware, software, specialists/experts, dissemination service, training and experience.

NIC has acquired computer aided design package 'SESAM' from Norway for structural engineering design. Necessary training has been imparted to the users and the package is now fully operational.

The first phase of NIC is drawing to a close peaking, as it were, in the Asiad 82 computer network with its 34 terminal of NICNET spanning the 17 stadia in Delhi. Asiad experiment gave NIC the knowhow and showhow for online networking under stringent requirements of response time. NIC gave complete computerised information support to the Asiad 82 ranging from construction monitoring to results information. Again for the Seventh Non-Aligned Meet (NAM), 1983, document processing relating to various sessions and discussions was carried out by NIC supplementing the conventional system. An electronics mail system was provided to the media personnel to assist them in seeking interviews with Heads of Delegations. Added to this was the successful experiment linking NICNET at Delhi to a minicomputer HP 1000 at Ahmedabad via the APPLE Satellite. This experiment paved the way for launching NIC into the second phase for the design of larger inter-city network for NICNET connecting computers in 16 state capitals. The Inter-state extension of NICNET is necessary because a number of sectors like agriculture, health, education, etc. are state subjects. NIC has already been assisting states of Madhya Pradesh, Gujarat and Andhra Pradesh in developing their governmental information systems. The regional cells of NIC at Bombay, Madras and Calcutta will also be connected to the NICNET during the second phase.

Ei

Abstracts of every important article published in every engineering discipline...

Last Month, Last Year or as far back as 1884.

Every month ENGINEERING INFORMATION INC., USA abstracts over 9000 articles from over 3500 journals, reports, conference proceedings, and other sources in any of 20 languages. All these abstracts are published in the EI MONTHLY. Cumulation of Monthlies is available at the end of the year.

ENGINEERING INFORMATION also provides two specialized services–Energy Abstracts and Bioengineering Abstracts.

In the third phase, NICNET will be extended to district level linkages. It is proposed to have floppy based teleprinters and microcomputers in each of the districts of 22 States and 9 Union Territories of India.

Commercial Computer Network

INDONET has been proposed as the first commercial computer network incorporating an integrated information management and distributed data processing facility spanning the entire country. It is a step towards revolutionising data processing in India. Under the project, Computer Maintenance Corporation (CMC), the implementing agency, is setting up a computer network with five computer nodes at Bombay, Delhi, Calcutta, Madras and Hyderabad accessible from all parts of the country. Geographically dispersed and operationally divergent organisations will now be able to avail of distributed data processing facilities. It will provide local computing facilities to small and medium scale sectors, highly specialised software in areas of engineering design, structural analysis and management sciences which can be shared by professional orgaisations, and sophisticated diversified systems for developing software for export.

Regional Promotion of computerisation

It has been government's endeavour to provide benefits of computerisation to all nooks and corners in India which has been achieved by providing regional facilities to meet the computing requirements of various sectors whether they be government, industry, education or commerce in different regions of the country. The Regional Computer Centres set up to achieve these objectives are not only for providing computing facilities to the organisations located in the region but also to spread the culture of computerisation by conducting advanced computer courses, seminars and workshops. Another catalyst to promote computerisation has been to provide technical consultancy in the area of business, engineering design, optimisation techniques and development of software packages. The first Regional Computer Centre was set up at Jadavpur University, Calcutta for the eastern region. It houses B-6738 computer system and is in operation since 1977. The second centre to serve the northern region has been located at Chandigarh and it has DEC 2050 computer system commissioned in the year 1979.

Development of Advanced Software and Computing Techniques

The revolution in the applications of computer are attributed more to the development of software and computing techniques rather than to the developments in the hardware. The government recognised this aspect well in time and set up National Centre for Software Development and Computing Techniques (NCSDCT) at TIFR, Bombay in 1974 to contribute to the growth of computer technology and computational practices in India. The facilities at this centre include a large DEC 1077 (dual processor) computer system with a good interactive computing capability and asynchronous and synchronous communication processing capability. It also has a PDP 11/40 based vector General interactive graphics facility. Recently it has installed a new computer system DEC-2020 at Air India Building, Bombay. It has been playing a role which is restricted neither to that of a software house nor to that of a computer science department but has sought to promote technological innovation through examples and instructions. With assistance from DOE, it has been working on the development of software tools and techniques and also on the realisation of specific systems in three major task environments of immediate national relevance. These are: (i) software engineering which envisages the development of large-scale system software like language processor and operating systems, (ii) computer networking involving development of software for computer-to-computer communication and (iii) the development of graphics oriented computer aided design. The excellent software development environment that has been created by the Centre has been made available to over a thousand institutions. A few examples relating to this are: development of a multiprocessor system using TDC-316 computers, remote computing facility centred on TDC-316 computer linked to DEC-10 system, distributed computer network linking Bombay, Delhi, Ahmedabad and Madras via satellite, computer graphics in engineering design, NCSDCT's DECNET Mail System and text composition packages. It has played the role of a change agent promoting the adoption of relevant high technology practices in the area of software design and development. Its strengths are in the areas of software engineering, computer networks, computer graphics, data base management systems, compilers, operating systems and computer assisted text processing and documentation processing. The one year part-time course in software technology at the PG level has been playing a valuable role in manpower development.

THE ONLY COMPLETE SYSTEMS SOLUTIONS IN THE 16-BIT CLASS.

PCS offers you access to the world's best in computer technology, to help your entire organization become more productive.

Unrivalled in virtually every category of comparison, the PCS family of information systems offer users a complete range of hard-working, state-of-the-art software capabilities - backed by high-powered 16-bit computers - to maximise system availability, performance and throughput.

Why do we say that PCS offers the only truly complete systems solutions in the 16-bit class? Here are some of our reasons.

Software resources:

The PCS family and its Advanced Operating System support a full library of software that can significantly enhance efficiency and productivity for users and programmers alike. The combination of this powerful operating system and its supported software utilities and aids make up the most far-reaching and versatile software team in the 16-bit class.

System performance:

On the hardware side, PCS system performance is unparalled in the mini computer world. Independent CPU and I/O buses, communications front-end processors, faster memory and a wide range of high-speed peripherals combine to make the PCS family of information systems true leaders in every sense.

System availability:

The sophisticated design and fewer components in PCS machines mean greater reliability and greater reliability means fewer maintenance worries. These features add up to less down-time, fewer repairs and reduce MTTR (Mean Time to Repair) The Result: greater system availability to both programmers and users, putting the full power of the PCS family's processing speed and performance at your fingertips.

There's more:

Benchmarks show PCS Systems to be at the top of the 16-bit mini computer spectrum, in both scientific and commercial comparisons.

PCS also offers an unmatched upgrade path, ensuring total upward compatibility of software, beginning right from the desktop PCS-100 all the way up to the powerful, near-main frame PCS.1001.

And still more:

If everything we've described so far isn't enough, the PCS family offers you advanced micro-programmed architecture, a full line of applications packages to fit virtually every need, an impressive array of ANSI standard compilers, comprehensive Office Automation software ..... the list goes on and on.

If you are looking for complete system solutions to help raise productivity in your company, we want to hear from you -

PCS

PATNI COMPUTER SYSTEMS (P) LTD.

The introduction of computer applications for industrial design and process control has already begun in India in a brisk way and faster development of this area has been recognised as a priority to improvise efficiency in industries and increase their output. Already a programme on computer aided design (CAD) has been initiated with UNDP assistance, under which four CAD centres at IIT, Kanpur for mechanical and civil engineering and development of fluid system; Jadavpur University, Calcutta for heavy engineering applications and real-time control system applications: Indian Institute of Science, Bangalore for electronics and semiconductor circuit design and IIT, Bombay for chemical and metallurgical engineering are being established. The programme, besides nucleation of this activity, will promote this area among industries in a big way by conducting workshops, demonstrations and training.

On the above lines, another programme on computer aided management (CAM) has been initiated to improvise the efficiency in management in various sectors of our economy by introducing innovative computer based techniques. Establishment of four national CAM centres has been undertaken at IIM, Ahmedabad, Calcutta and Bangalore and ASCI, Hyderabad for carrying out R & D and imparting training on CAM techniques as applicable to the Indian environment.

Computerisation in Indian Languages

India a divergent country with different languages spoken in different regions needs computers capable of communicating in these languages so that benefits of computerisation can reach to all levels and types of users. Awareness of this area of work was created among computer scientists and industries by the symposium on linguistic implications of computer based information systems, organised by Department of Electronics in 1978. A number of technology development projects sponsored in this area on development of input/output devices for Devanagari, front end system for computerised text processing and photocomposition for Bengali, Assamese & Manipuri languages, bit slice based display controller for Kannada scripts, integrated Devanagari computer terminal, system hardware capable of wordprocessing in Indian languages etc. have established necessary technical infrastructure for realising computers capable of working in Indian languages. Already some of these efforts have fructified and a Devangari computer is now available in the market. A complete spectrum of work being done in this area was exhibited at the Third World Hindi Sammelan, 1983. A special cell, functioning in DOE, has been keenly promoting the work in this area by organising seminars, workshops, demonstrations and sponsoring technology development projects. To over-see the progress made in the area, a high level committee under the Chairmanship of Secretary, DOE and Chief Secretaries of Hindi Speaking States as its members has been set-up.

Promotion of Sectoral Applications

Continuous evaluation and judicial planning of computerisation in various sectors of Indian economy has resulted in the acquisition of computers incorporating contemporary techniques and trends in specialised areas of applications. As a consequence, a large number of exercises carried out for development and promotion of large scale application of computers have enabled the Government in the introduction of computerisation in the following sectors of our economy: railway, education, oil, power, steel, defence, meteorology and civil aviation.

System Engineering and Maintenance

A one-point total computer support in the country is provided by the Computer Maintenance Corporation (CMC), a public sector unit of DOE set up in 1975. The gamut of services provided by CMC include hardware maintenance, site preparation, installation and commissioning of systems, computer centres, systems consultancy, software development, system integration and enhancement, education and training programmes, indigenisation and R&D facilities. It is one of the few companies in the world to provide maintenance support to computer systems supplied by more than 20 manufacturers. It is having about 800 contracts for maintenance. Besides in India, it has a growing demand for consultancy services in other countries like USA, UK, Singapore and countries in the Gulf and Middle East. Its system engineering capability has been demonstrated with the successful integration of a general purpose, medium range computer system Integra 1001. Country's system engineering capability is further demonstrated with the CMC undertaking the UNDP project INTERACT. This project involves the design, development and systems engineering of dedicated real-time computer based systems for development-oriented applications such as electric power system management, railway freight operations and satellite image processing for meteorology applications. The development of an Information, Dissemination, Editing and Switching system with archiving facilities for news agencies is another laudable work carried out by CMC and NCSDCT.

Computer Manpower Development

A comprehensive computer manpower development programme initiated on the basis of findings of the panel on computer manpower development set up in 1980 to study the requirement of computer manpower at various levels in the country, is expected to make available trained manpower with the same speed with which computerisation is progressing in the country. Already programmes have been initiated for teachers training at four IITs, Master of Computer Applications(MCA) at 14 centres, one year Post B.Sc. Diploma in Computer Applications (DCA) at 28 centres and 18-month Post Polytechnic DCA at 16 centres. Computer courses are also being introduced at Industrial Training Institutes. Training for Hindi computers has also attracted Government's attention.

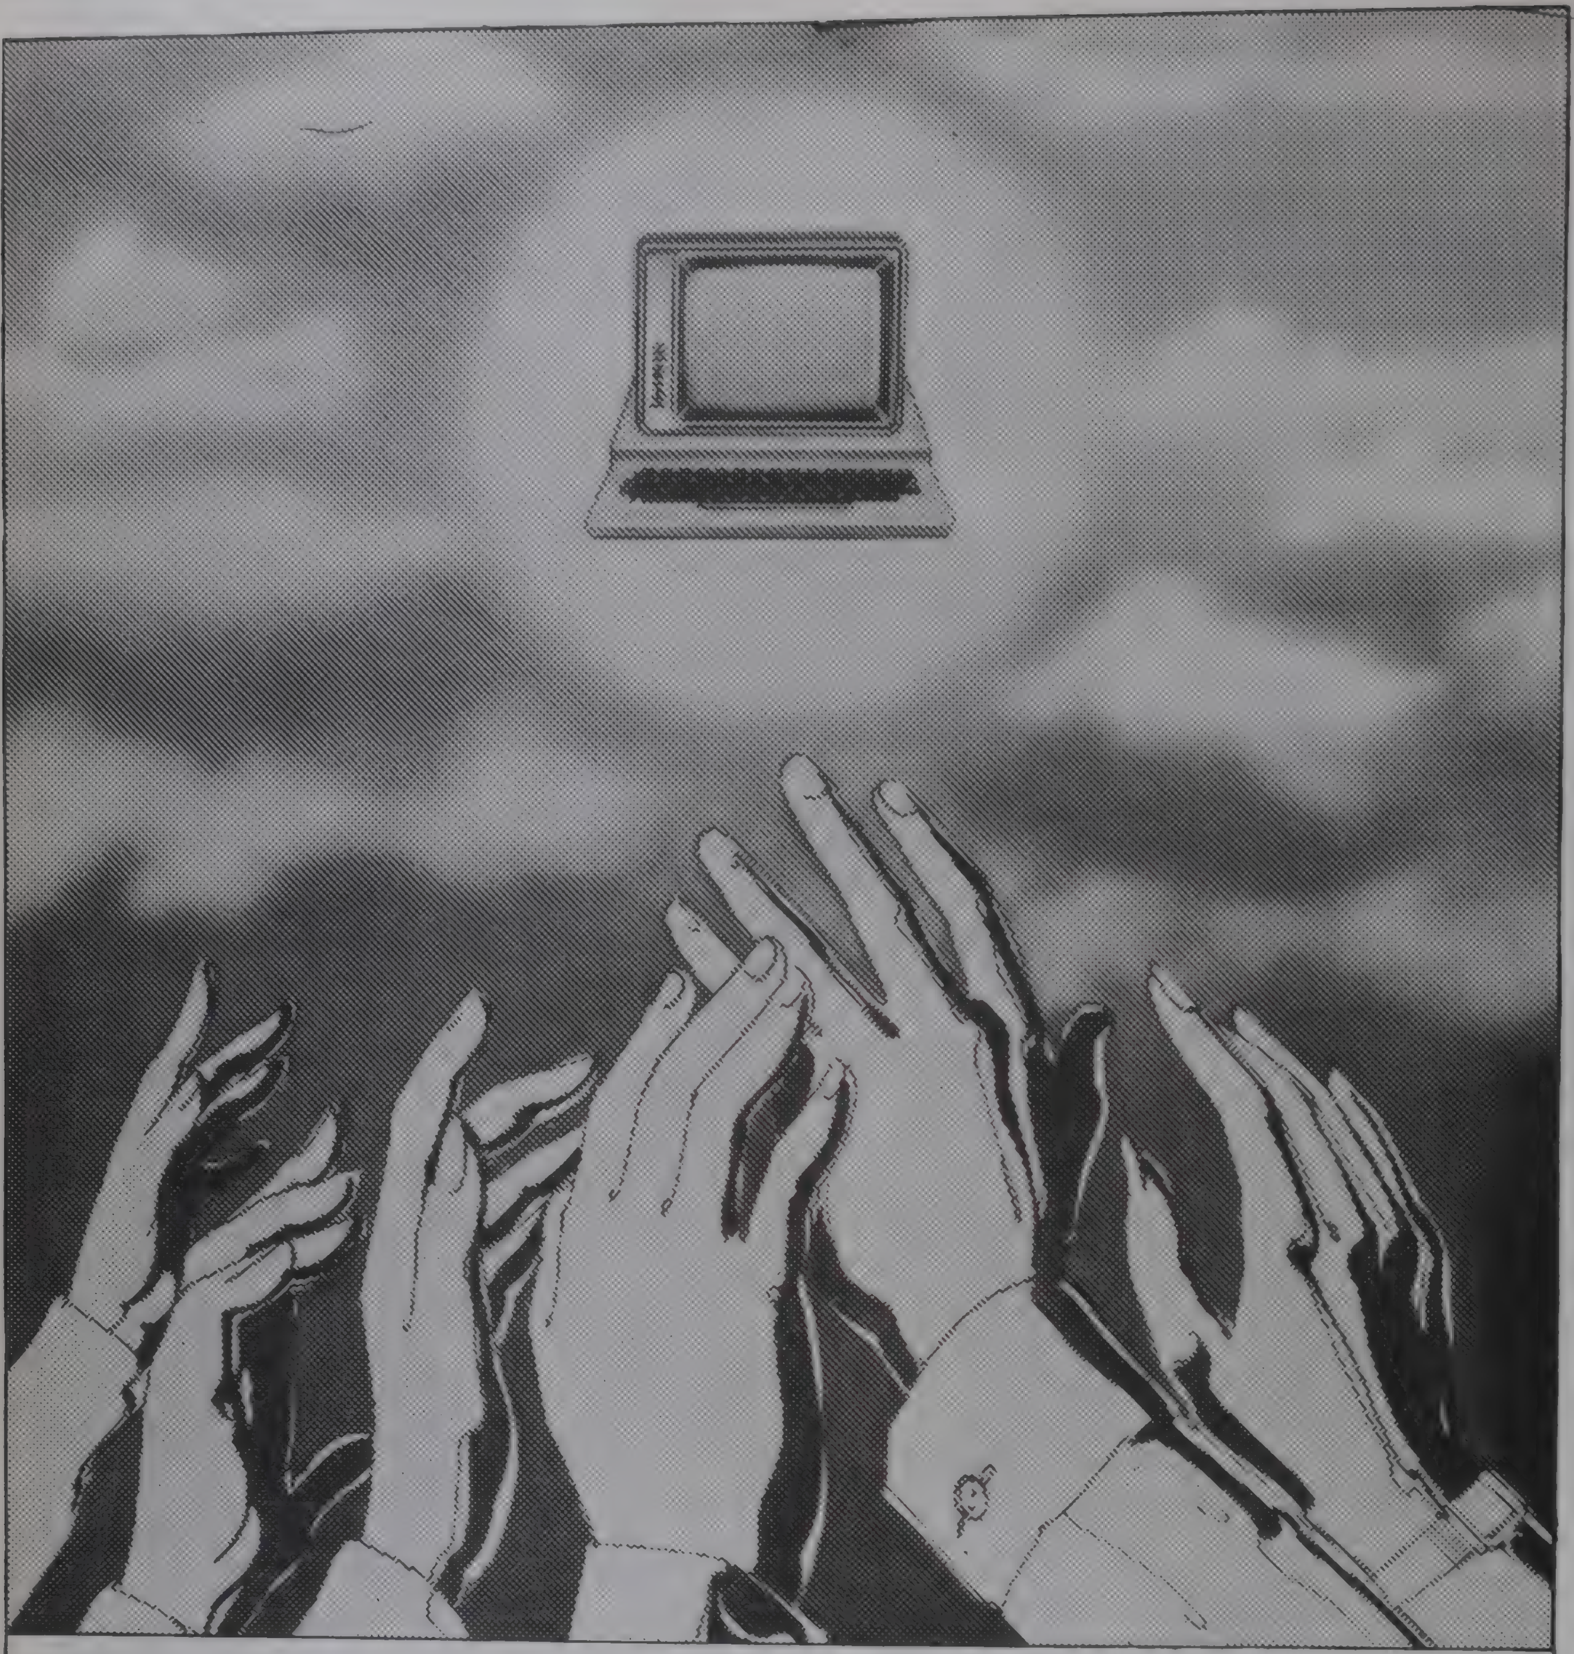
One of the most significant programmes being launched by the Government is the Computer Literacy and Studies in Schools(CLASS) which is integral and critical to the country's future development. Under a pilot project, computers are being introduced in 250 schools which would enable the school children to understand and use computers to appreciate their potential and limitations and to banish the mystery surrounding their use.

Future Trends

Pace of computerisation has already been set in India and it will not remain unaffected by the revolution taking place in computer applications in developed countries. Whereas recent trend of applications has been for production planning and analysis, financial monitoring, inventory control and maintenance, personnel, data acquisition, training, simulation, numerical control, data processing and R&D; computers are now being acquired for specialised applications such as computer aided design and manufacturing. The other area being promoted for large application of computers are: telematics, videotext, printing, reprography, switching technology, remote sensing, oil exploration, meteorology and climatology, data communication and information systems. Promotion of computerisation in Indian languages will be another area for advancement. The emphasis on computer aided instructions will be further strengthened. Computer networks which offer economies of scale in hardware, software and manpower resources will be increasingly employed both by the private and government organisations. DOE is projecting ambitious programmes in the Seventh Five Year Plan for promotion of computer networks in the country. Proposed network enhancement of existing networks include the following: (i) NICNET- expansion to state and district level, (ii) INDONET - commercial network for the entire country, (iii) RAILNET- computer network for Railways (iv) OILNET- computer network for oil sector, (v) EDUNET - computer network for educational institutions, (vi) BANKNET- computer network for banking applications and electronic fund transfer, (vii) TRANSNET - computer network for transport sector, (viii) POLICENET- computer network for police, already being implemented by Directorate of Police and (ix) COALNET - computer network for coal

1983 Edition Available

THE COMPUTER DIRECTORY OF INDIA
Copies of the 1983 Edition of The Computer Directory of India are available from the publishers Constellate Consultants (P) Ltd, 505 Vishal Bhavan, 95 Nehru Place, New Delhi-110019 (Phone 6417015) at a reduced price of Rs. 150.00



A country cannot progress as long as computers cost a fortune.

Who can argue against the many benefits a computer can bring?

And who can deny the sad fact that the computer has been a handy tool to only the giants of Indian industry and commerce?

And who can deny the fact that India's small entrepreneurs, professionals and even students could have helped to lift our country to a higher level of excellence if only they also had access to the many advantages of the computer?

It is for these very reasons that Eiko Computers was born last year.

And what is why we introduced the Eiko-1 — India's first home computer for under Rs. 10,000 — with software designed to enhance a child's knowledge of various subjects ranging from mathematics to art.

With low-price as our motto, we also have business computer systems that start at prices as low as Rs. 51,000.

And a word processor that costs only Rs. 22,000.

We at Eiko Computers do believe that if the many benefits of computerisation are available to more and more people —

Then more and more will be achieved in every field of national endeavour.

Computers–The National Effort

by

DR. P.P. GUPTA
Ex Secretary Department of Electronics
Government of India.

It would be my objective and I think I can do no better than share my thoughts with you on the development and the direction in which the computer industry is moving in our country. I would also perhaps review the progress over the last two years. We must take stock of the situation to see what we have done and also recognise what still remains to be done.

Let us review the situation of R&D in our country. I mentioned in 1982 that the Technology Development Council has provided about 10 crores of rupees for various R&D projects. This has led to the development of some indigenous computers and certain basic technologies. However, I think we must recognise that this amount of effort is not enough. The effort is distributed between some of our educational institutions, IITs, Universities, a few public sector companies and research laboratories and insitutes like TIFR. The ALVEY Committee has proposed a 5-year integraed R&D programme of 350 million Pounds to develop Information Technology in the U.K. Also the EEC Commission have approved a one-billion dollar programme on development of Information Technology called ESPIRIT. The elements of this programme are:

1. Software factory,
2. Man-machine interfaces,
3. Artificial intelligent and expert systems, and
4. VLSI and CAD for VLSI.

Many of us may be aware of the fifth-generation computer technology programmes of Japan. Japan has produced super computer; China, I am told, has developed a machine which operates at 10 million operations per second; the capability of United States is well known. We are miles behind in this area. The Department of Electronics sponsored a National Workshop on Excellence in Electronics in March, 1983. Papers were presented on computer development and computer software at this Workshop. The Workshop recommended that a major effort and a new centre should be set up in computer R&D, in architecture and hardware design. I am happy to say that the Government of India is considering this proposal very seriously. It is expected that a final decision on this would be made very soon and a centre for research and development in computer architecture and related areas would be set up by the Government, hopefully within the next 18 months. The centre should also provide an opportunity for linkages with other similar activities elsewhere in Japan, the UK, the USA and elsewhere. I wish to emphasise that we need to have national programmes. The Government, the public and the private sector, the educational institutions, laboratories, every one has to participate to ensure that this country achieves its rightful place in the development of computer technology in our country.

In Japan, the investment in R&D is of the order of 2% of their GNP. However, of this, 75% is borne by private industry. Compared to that, in our country the investment in R&D by the private sector is perhaps one tenth. It is of interest to note that out of 50 companies who are supposed to manufacture mini/micro systems without foreign collaboration and with local design capabilities, only about 25 are registered with the Department of Science & Technology as R&D centres. Also, out of these 25, very few, say 5, have invested significantly in R&D. It is amazing that our manufacturers can develop, design and manufacture computers without R&D capabilities! I would like to suggest to examine very closely and very early how this investment in R&D can be stepped up. I have raised this question in other forums, when I am discussing electronics, in general, and suggested that perhaps a co-operative industry effort in R&D in electronics must be launched. Perhaps something similar needs to be done in the area of computer technology.

I would next talk a little about manufacturing. A variety of equipment is being made in the country. Although about 150 industrial approvals have been issued; however, only about 50 have gone into production. Production in 1983 was of the order of Rs. 75 crores. This is creditable and companies who are doing this with real indigenous effort deserve our congratulations. What is sad, however, is that almost all the production is of office type equipment. There is hardly any production relating to process control, data acquisition systems or those applications which are for meaningful purposes. Local equipment costs 3 to 4 times as much as equipment overseas. I know I will be blamed that this is due to the duty structure. However, any costing will show that while the various duties do play a role, this is not necessarily the only factor which contributes to the high cost!

I must also mention that in August 1983, alongwith other reductions in import and excise duties on electronic items, significant reductions and benefits were given to the computer industry also. The import duty on components and on the parts used for manufacture of peripherals was reduced from 158% to 75%; and on computer peripherals which are needed for our mini computer industry, reduced from 136% to 75%; and on sub-assemblies, from 158% to 100%. The duty on computer systems to be imported was reduced from 185% to 135% - perhaps not enough but not insignificant to encourage the usage of computers in the country. All this should mean a significant reduction in the prices of computer systems in our country, and I hope that this reduction in duties is being passed on to the users.

I would also like to stress that it is necessary if we are to build up a healthy viable industry that ultimately the components and parts are made locally. It is necessary, therefore, that we select and strandardise on some items which can be made in large numbers. This, in fact, is the thrust of the mini-micro policy as enunciated in 1979. I quote -

"The major objective in the development of mini computer/micro processor industry would be on setting up of system engineering companies which are not necessarily engaged in manufacture of CPUs and peripherals. To facilitate programmes for the systems engineering of mini computers, industrial capacity for the production of a standardised range of peripherals and CPUs would be built up on an OEM basis so that there is free indigenous availability at reasonable prices of the basic building blocks for micro-computer / micro-processor based systems. In this regard peripheral units, semi-conductor elements involved in CPUs and consumables would be standardised to the maximum possible extent and licensed / approved companies would need to configure their systems around these standard building blocks. Until indigenously produced peripherals and CPUs are available, efforts would be made to import certain preferred components, CPUs and peripherals on stock and sale basis to obtain price advantages".

Some of this has been implemented but some remains to be done. It is true that today we do not have indigenous production of a standardised range of peripherals and of CPUs as mentioned in this policy. It is our endeavour to do this in the near future so that a wide range of special purpose systems based on these units would become available in the country, and the systems which are now made available primarily for data processing purposes, based on imported components, imported PCBs, imported peripherals, give way to such systems.

The first step in this direction for the larger mainframes ~~has been taken~~. We floated a tender for technology transfer for manufacture of mainframes. Responses to this tender have been received and are now under evaluation. We received responses from Control Data Corporation, BULL, Data General, Computer Technology, and Nixdorf. An Evaluation and Negotiating Committee has been set up which is now in the very final stages of negotiations with the short-listed companies, and hopefully by mid-April agreements would be signed and operations will start. I may, however, inform that it is proposed that a new public sector corporation be set up to manufacture computers under this technology collaboration. We hope systems from this manufacturing capability would become available within the next 12 to 15 months. It would thus resolve one of the very major problems which we have been facing, that of availability of medium to large sized computers.

I mentioned in 1982 that we will review our procedures and policies for import of computers. We have been doing this and certainly for systems costing below Rs.5 lakhs, procedures have been streamlined so that clearances are given quite rapidly. There may be an occasional delay here or there. However, for the larger mainframes there is still some delay. But there again the procedure has been streamlined and further revision is under consideration. Import clearances for about 80 systems were given during financial years 1981-82 and 1982-83. Of course, once systems become available locally, the need for import would be minimised and only very large systems would then need to be imported.

Looking at peripheral manufacture, some activity has started in the manufacture of floppy discs, matrix printers, and VDU terminals. I must admit that although we exempted computer peripherals and computer media from MRTP considerations, there has not been the growth we expected. It would now, therefore, be necessary for the

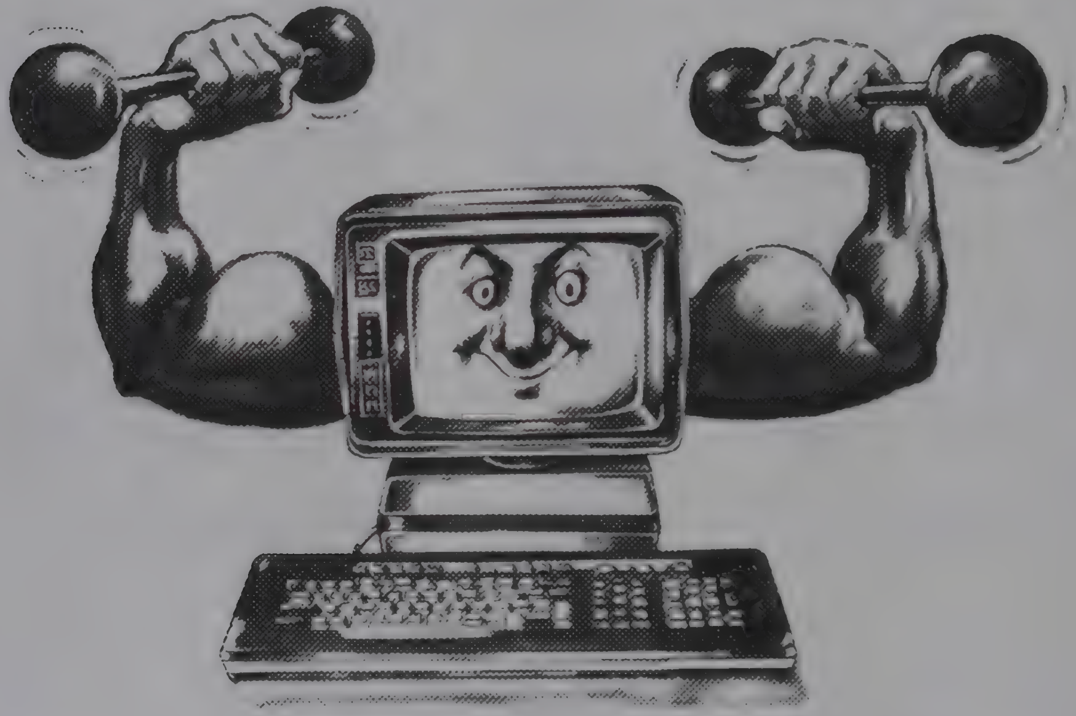
50 INSTALLATIONS AND 75 ORDERS LATER WHY IS THE ICIM 101 STILL FLEXING ITS MUSCLES?



ICIM 101 has an impressive track record to show in the most demanding work situations. Every aspect of ICIM 101 has already been proven in business applications: insurance, banking, manufacturing, distribution, retailing and many more.

But why is the ICIM 101 still flexing its muscles?

Because you need additional computer power to keep pace with the growing information needs of your organisation.

ICIM 101, the proven performer, is now loaded with new features.

The new enhanced processor allows faster execution of jobs. And now it has a 1.2 megabyte memory. Added to this is the new disc controller, supporting up to 3 high-speed disc channels for a faster throughput of jobs. The ICIM 101 can now handle mutiple line printers with speeds up to 600 lpm. Networking of 101s gives you distributed data processing. Remote terminals and printers give you instant information at your desk. And finally, the 101 can now support up to 200 terminals.

Remember, the ICIM 101 you have is upgradeable to accommodate the new features.

Besides, the ICIM gives you a lot more than just a computer. You get proven capability, ready software support and after-sales service that's as conscientious as it's prompt. In short, you get the backing of India's largest computer company.

ICIM
International Computers
Indian Manufacture
Limited

ICIM 101. THE MINI THAT GIVES YOU MORE.

Rediffusion/IC/2499a

Department of Electronics itself to take active steps to see what can be done for manufacture of peripherals and media on a large scale. There is a problem here of economies of scale. It is necessary to have meaningful indigenisation so that a large production base is set up which may also export some production. We should also, at the same time, increase the demand and the usage in the country and I am confident and do hope that this will be so. The Department of Electronics has set up a Committee, chaired by Col. G.K. Rao, who has wide experience in this field, to study this issue in its entirety and we hope to have their recommendations soon. You must have all heard of the target of a Rs. 10,000 crore output in the electronics sector by 1990, an ambitious and challenging goal for which a national effort is essential. We expect computers and control instrumentation to contribute 2,000 to 2,500 crores to this.

Let us look at some other activities. We keep talking of software export but unfortunately no major break-through has as yet taken place. It is estimated, based on figures we have, at Rs.10 crores in 1982 and Rs.13 crores in 1983. Not a very creditable performance by any measure! Obviously something more is required than imported computers! To study the problem in all its facets and complexity, we have constituted a committee under the chairmanship of Shri F.C. Kohli, our past-President and with representation from industry - both public and private and various Government agencies. I hope they will make some recommendations which will indicate what needs to be done.

To meet data communication needs of the country in a limited manner and also to provide a facility for software export, the Government of India has decided to set up INDONET which would be implemented by CMC. This would be a computer network providing data communication facilities. Final stages of evaluation of the equipment are under progress now and hopefully it is expected that by the end of this year, we would have the computer systems installed, providing an opportunity to computer users in the country to be able to use these facilities.

I must also mention INTERACT - a project of the Department of Electronics, funded jointly by the UN Financing System for Science & Technology, the TCDC component from the Government of India and CMC. This is a step in the direction for local software development. INTERACT is a project which focuses attention on the fact that in most systems today software and manpower costs are high and the hardware costs are low. A very important feature of this project is the concept of TCDC, i.e., Technical Cooperation in Developing Countries. Co-professionals and trainees from many countries are participating in this.

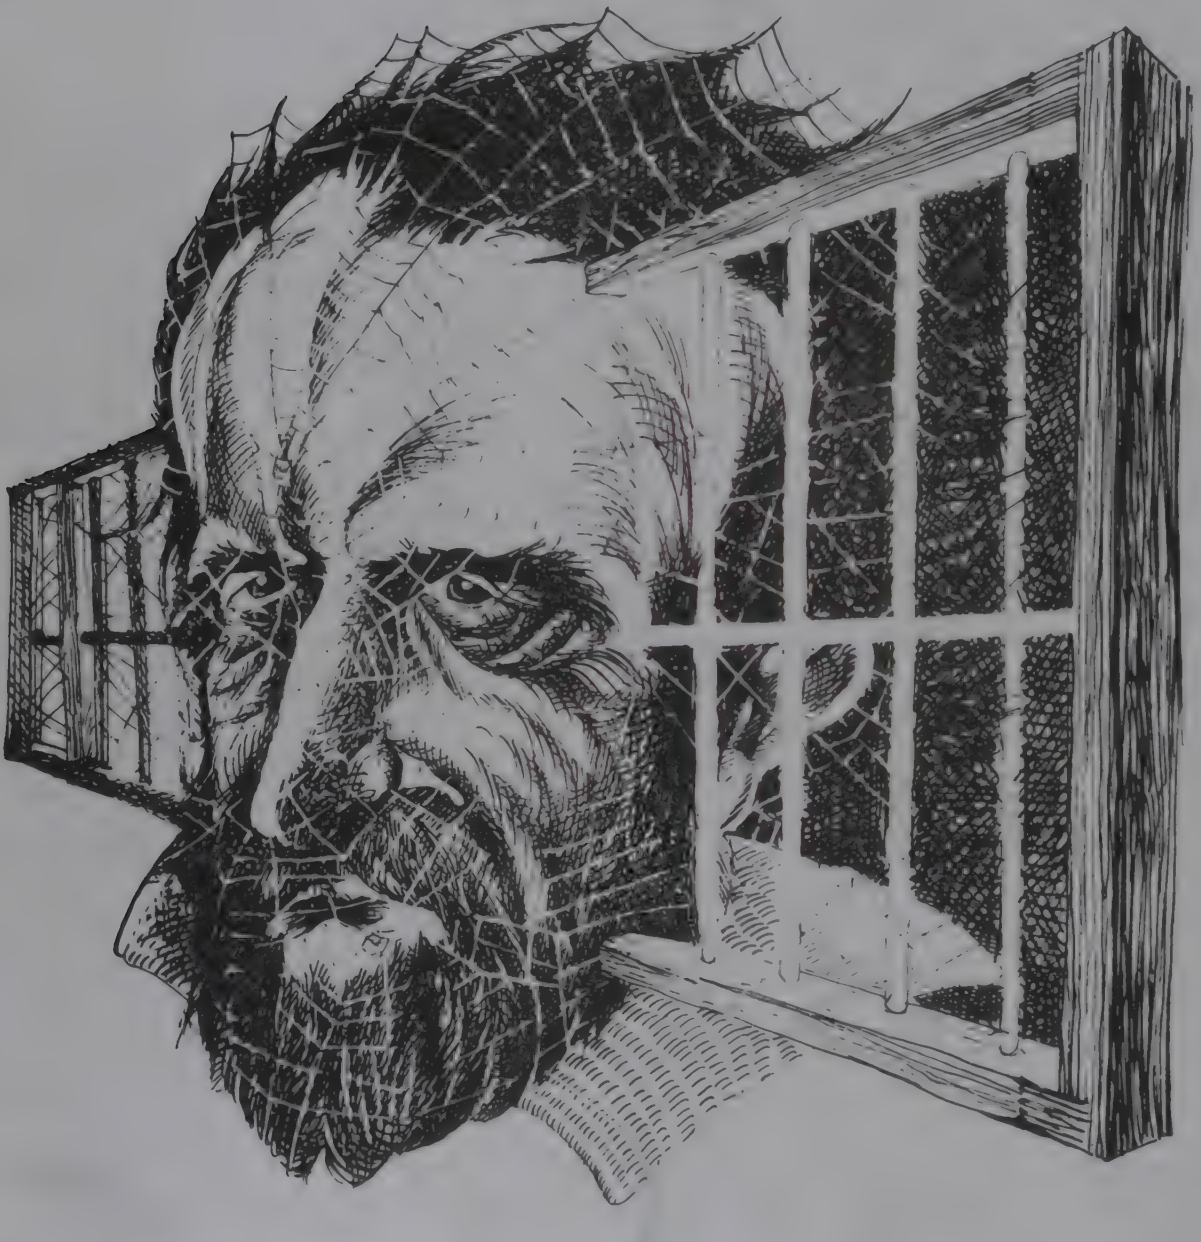
I must also mention that the National Informatics Centre (NIC) has developed a network in Delhi, called NICNET, which consists of about 15 mini-computers and twenty remote interactive terminals and provides an information system to about 60 Government Ministries/Departments. Special purpose computer networks were also developed by NIC for IX-Asian Games and VII Non-Aligned Meet, held in Delhi. These networks have shown indigenous capability to design, develop transaction-oriented networks and communication software expertise in networking applications.

We are still importing large chunks of software although some progress has been made in the last few years. We now have indigenous electronic mail, message switching telemetery, tele-supervisory data acquisition and railway reservation systems etc. However, much more needs to be done.

The Department of Electronics is also keenly concerned about the audio-visual media of education. The number of illiterates in our country today is higher than that at independence. 64% of this country is illiterate - there is more illiteracy in women than men and certainly more in rural areas than in the urban areas. We have about 500,000 primary schools. Of these 1/3rd are single-teacher schools. It, therefore, is a problem of national importance and critical to our development.

The Government of India is sponsoring a programme for covering 70% of the population by TV by end-1984. We are thinking of an integrated programme with a hierarchical structure of television at the first state, next Video Cassette Recorder/Player and Laser Disc Players and finally computers for computer-aided instructions. At the first level TV which has a captive audience with no interaction next the VCP or the laser disc where you have a choice of programmes and also which may give more visual exposition, for example, geography lesson, and ultimately computers and computer aided instructions where interaction between the pupil and the teacher can be there. These media thus offer a unique opportunity to our teachers to help them educate our citizens of tommorrow. While the manufacturing industry can provide the hardware, I am sure the importance of software for this activity is laso enormous. Software has to be relevant to our conditions, for subjects which we teach, subjects which are important to us. One major problem also is the language. As this programme is mainly directed to schools, much of teaching may need to be in our regional languages. There is thus a challenge for software development, perhaps a little different from computer software, which can be very meaningful. These are social obligations which our professionals and our industry in all its facets - users, manufacturers, must undertake, to be able to play a due role in the development of the country.

Three hundred years ago, the Establishment turned its back on the genius of Galileo.



Regd.Office: Kerala State Electronics Development Corporation,
Keltron House, Vellayambalam, Trivandrum 695 001.

Today, people are making the very same mistake. With the computer chip.

Now, Keltron is about to create a whole new generation of machines and equipment built around the computer chip... the brave new world of cybernetics.

The computer chip is the core of every computer system you see around you.

But, the true potential of this chip goes far beyond computer systems as we know them ... VDU, CPU, printer. And this potential has not yet been explored in India.

Quite like a Galileo dumped in an unimaginative environment.

As a result, the computer chip in India has hardly gone beyond routine commercial functions — accounting, inventory, word processing. A handful of specialized programmes. A few scientific functions and personal applications ... in short, the capabilities of desk-top computers and mini computers.

Keltron is about to change all this.

For the first time in India, Keltron is freeing the chip from the confines of conventional computer systems. And bringing computerisation to areas where it never existed. In business and industry. In research and education. In transportation, medicine, communications, defence. In daily life.

Computerised point of sale terminals and cash registers for departmental stores, banks, insurance companies and post offices.

Computerised ticket issuing and reservation terminals for railways and road transport.

Card attendance systems that computerise wage calculations.

Factory automation systems.

Computerised traffic management systems.

Computerised temperature scanners, sequence of events recorders and data loggers for nuclear and thermal power plants.

Programmable controllers for steel mills, cement plants and other process industries.

Computerised data acquisition systems for large plants.

Distributed control systems for power plants and process industries.

View data and tele-text systems for mass communications ...

The list is infinite.

What we are talking about is not new applications on existing computers. But a whole new world where equipment, machines and everyday functions are themselves computerised ... designed and built around the amazing computer chip.

KELTRON CYBERNETICS

Not just computer hardware... a brave new world!

Trikaya.KC.3.84

Ten years from now, computer literacy will be as important as the three R's. Anybody who grows up in the world tomorrow, not knowing computers, not understanding computers, not being able to use them, will be lost and that country which does not prepare its citizens to be fully familiar and conversant with computers, their technology and their applications would not be able to keep its place in the industrial hierarchy in the comity of nations. Computer literacy can no longer be the subject of idle debate, of routine deliberations, of making a choice. It is the imperative of the information technology revolution which is, silently perhaps, but most certainly, sweeping the world. No country, no race, no individual will remain unaffected by it. It will not be possible for any country to opt out of it. The revolution will change the market place - both in terms of products and the mode of utilisation of these products. It will change the way people interact with each other; change the quality of decision making, based as it would be no immediately interrogable, comprehensive information bases. Also the nature of an individual's role in this process would change most dramatically. Markets for traditional products will gradually give way to information technology products. Industries which do not incorporate the new technology into its products will soon become uncompetitive and non-viable. It has been estimated that the information technology world market in 1990 will be over Rs. 200,000 crores per annum - and this may grow with an ever accelerating pace. We are today the 10th largest industrial nation in the world. What will be our share of this large market in 1990? Can we even sustain our 10th position if we do not create, today, the wherewithal necessary to exploit the potential of information technology which, includes computers and communication technology? Let us not even for a moment delude ourseleves - the information technology revolution, in its scope, in its impact is at the very least comparable to the industrial revolution which transformed nations, altered the resource and power relationships among nations, concentracted wealth and well-being in those nations which were quick to perceive the implications of the industrial revolution and geared themselves to benefit from it. Nations rich in natural resources which until then were favourably placed were very rapidly reduced to the status of suppliers of raw materials and relegated to the euphemistic description of 'developing countries'. Their strength in manpower became their burden. We are now faced with another revolution; we cannot afford to 'miss the bus'. The position which has been pains taking by retrieved in the last several decades which has made the country the 10th largest industrial nation, is again at stake unless we quickly learn to exploit information technology to our benefit. There is one significant difference however, from the industrial revolution - this new revolution is knowledge based, it is manpower intensive; it turns the burden of industrial revolution - the excess manpower- into an asset for expansion. We are, in some sense, ideally suited to benefit from these developments, provided, we quickly organise ourseleves to equip our people with necessary abilities and skills. The dimensions of the problem is such that skill generations at the tertiary level in our universities and colleges, is not going to suffice. This needs to be taken to the broader larger base of our schools. Our schools childern need to be taught to understand computers, to use them, to appreciate their potential as well as limitations and most of all not to fear them. The mystery with which computers are perceived today must be exposed. Myths regarding their being too complex or requiring super skills need to be exploded. Computers should be used as a tool like another, albeit a very versatile and powerful one. If a child can pick up a telephone and use it, why can't he use a computer with equal facility and assurance? If he can't, our educational system will have failed him; it will not have given him the skills he needs to survive in the world of tomorrow.

Realising this, and in the firm belief that computer literacy has to be an integral part of every child's education, the Department of Electronics, with the full cooperation of the Ministry of Education on a national scale, is launching ' CLASS' - a programme for Computer Literacy and Studies in Schools.

For the financial year 1984-85, a pilot project has been formulated which will introduce computers into at least 250 schools. There has been some fear that these would be the elitist schools. I wish to clarify that the schools are being selected out of both Government and non-Government schools and would give maximum coverage in terms of geographical distribution, the types of educational pattern, and the types of students etc. The programme consists of a total package of providing a computing system which consists of a small microcomputer together with a video display unit, a printer, an audio cassette or floppy drive, a VCP, a range of application software, courseware and audio-visual software, together with arranging training of teachers, supplying educational material and setting up a system for generating educational software and information resource for schools. The task is not easy. A lot of preparatory effort is necessary - and a great deal of care has to be exercised since we are dealing after all with the most precious resource - our childern.

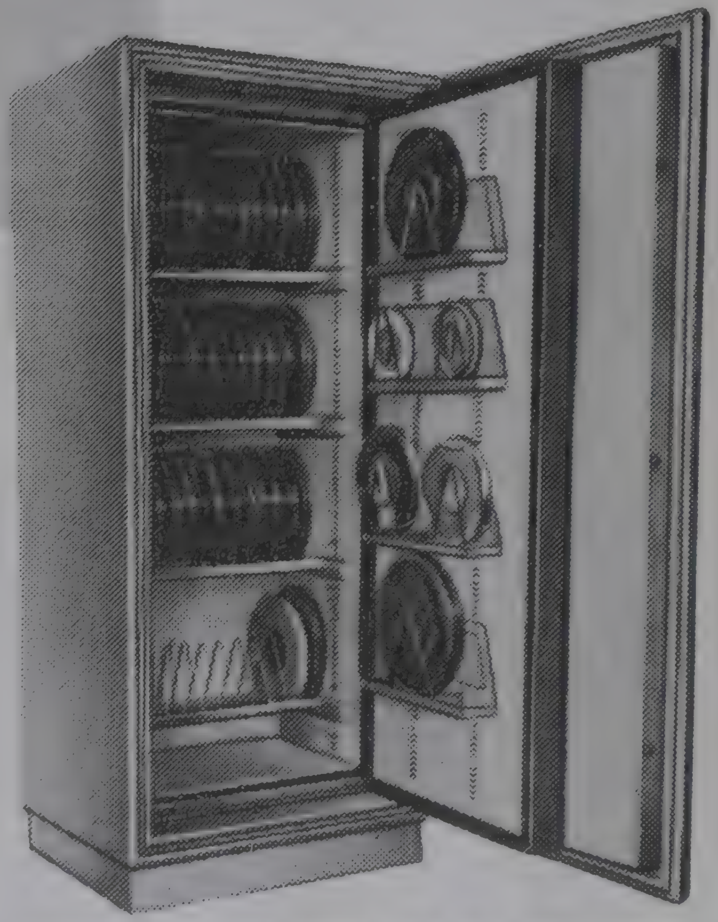
Let me take this opportunity to emphasise that a whole new approach to education and to software has to be developed to utilise computers in a meaningful manner; teaching programming is not necessarily the best route to computer literacy; software must not attempt to merely reinforce "practice and drill'; it must be an

The one peripheral every EDP Manager would like to hang his jacket on doesn't come from any computer manufacturer.

As the EDP Manager, you are guarding a storehouse of information computed by costly computer systems using costly software programming. How well are the precious data guarded?

The super sensitive computer tapes. Manufacturers recommend that floppy disks are stored at temperatures less than 51°C. Because, the electro-magnetic characteristics of computer tapes start to alter at a temperature of 66°C. The signals recorded on the tapes get distorted or begin to fade out. Even a small fluctuation in temperature, or a small fire in a waste-paper basket near an ordinary cabinet, can play havoc with costly data stored on computer tapes. **No steel cupboard or other data storage cabinet is designed to resist fire!** There were no fire-protection data cabinets available in the country till Steelage & Chubb put their reputed fire-resistance technology to computer data storage.

DATAGUARD, the one peripheral no computer manufacturer sells! The DATAGUARD is backed by CHUBB international technology for fire-resisting safes and computer data storage cabinets. It has a pleasing exterior and blends beautifully with other peripherals and the interior of your EDP room.



DATAGUARD

Chubb-Steelage fire protection computer data cabinet.

Dattaram-SA97B/83

'aid' which increases the effectiveness of the teachers; it must not be a source of passive information but one which encourages learning through discovery. All this is easier said than done but the objective is nevertheless extremely valid.

The British Government has insitituted such a programme which is being managed by the Department of Information Technology under the Ministry of Trade and Industry in Britain. Packages have been developed of educational software, of teaching materials, teachers' training courses and related materials and also a system of management, information sharing and generating CAI software though the practising teacher. While in many countries computers are being introduced in schools, Britain is perhaps the only country where this is being taken up in a comprehensive way involving a total integrated nationally managed project. Keeping this in view, we have signed an agreement, a working arrangement, with the UK Government to try and get maximum help from them. This cooperation consists of exchanging experience, studying their system, of getting their software and other aids which are of value and use to our country. What is most imporatant is that these are then adopted and adapted for our country. These are mainly to get started quickly and to lay down a level of familiarity with similar developments among our teachers so that an effective programme based on our environment and ethos is developed by our own people. If, and I am sure, this pilot project would be successful, we would like to introduce this programme in a major way in the 7th Plan in about 200,000 schools. That would be a very challenging national programme.

There has been some unnecessary controversy and fears have been expressed that this programme will be based on imports. On the contrary a programme like this will give a tremendous boost to the industry in terms of the market it will generate for micro-computers and related products in our country. No sector other than school education perhaps has a comparable market potential for computers and related products. The requirement by 1990 could well run into millions of systems. Such a large market cannot be built around import, nor shall we allow it to be so. This demand has to be met through indigenous effort; the hardware and the software for the national programme will have to be developed within our country. The objective would be to produce the hardware at a price of between Rs. 10,000 - 15,000 per package. Also we need to have I/O devices in our regional languages. We are aware of the effort needed and are working out various measures to ensure that indigenous industry will be ready in time to meet all the requirements.

I would now like to talk of a few other activities relating to electronics which although not of immediate concern are of interest and significance to the growth of the computer industry in its totality.

This year the Semiconductors Complex Limited in Chandigarh has gone into production. The first LSI circuit, a pulse dialler, has been produced and tested satisfactorily. This is a significant achievement. A collaboration signed with the AMI is noe being implemented to produce 5 micron and 3 micron LSI/VLSI circuits with CMOS and NMOS technology. I know some adverse remarks have been made that the chips from SCL will be three to four times the cost of imported chips. This, of course, is not correct and the objective is to make available chips at landed prices.

SCL has also signed a collaboration with Rockwell to manufacture The Rockwell-6502 microprocessors and associated peripheral/interface chips. It is expected that these would go into production by the end of this year. The availability locally of a microprocessor will give a tremendous boost to the electronics industry, particularly the computer related applications. SCL will continue its activities to produce other microprocessors.

LSI/VLSI remains a major area of technological growth in our country. It is necessary that we catch up with technology in this area. To ensure that, the Department of Electronics had set up an LSI/VLSI Task Force. The Task Force has now submitted the major parts of its recommendations. We are proposing various R&D projects to ensure that we have state-of-the-art technology. As per the LSI/VLSi Task Force recommendations we are aiming to set up facilities for one micron technology by 1990.

Alongwith the process technology, what is most important is that we are able to design LSI/VLSI circuits to our specifications and to out requirements. Some design centres are operating today. However, to enable significant growth in this area and to enable people from small industries, scientists, entrepreneurs, innovators, to be able to operate in this area, we are setting up a chain of LSI/VLSI design centres all over the country. The first of these will be set up in Bangalore within the next few months. This will be run like a centre where anybody can use the facilities and SCL will implement a silicon foundry concept to enable circuits so designed to be processed and produced at SCL.

We have an increasing use of microprocessors in various aspects of our daily life. While "CLASS" (Computers in school programme) will be one such programme, I think there is tremendous scope for use of electronics and microprocessors in agriculture and in medicine. 75% of our people still live in villages and 75% of our GNP is still from agriculture.

It is necessary, therefore, that facilities are provided for microprocessor applications development. There are certain facilities at some of our educational institutions and some corporations. To augment these, we are proposing to set up a chain of "MAD" - Microprocessors Applications Development centres. The objective is to set up an atmosphere, an environment where basic facilities are provided like components, chips, microprocessor development systems etc. so that people - young people, young engineers, young scientists, professionals can let their innovative, inventive and even way-out ideas grow and design systems, develop them and make prototypes. We hope this will in turn lead to considerable growth in the production of microprocessor based systems.

Another project of DOE, not directly connected with computers but which may be of interest, as it also helps the growth of the computer industry, is the setting up of the National Silicon Facility which should produce silicon, ultrapure poly silicon which is necessary to produce the wafers which are needed at SCL and other semiconductors industries and are required also in a large quantities for our solar photovoltatic programme.

There is also a programme to set up a National Centre for R&D for Digital Electronics Switching. This will provide an opportunity for us to work in the frontiers of technology. We signed a collaboration with the French Company - CIT Alcatel to manufacture digital electronic switching system and two factories are being set up by ITI, one at Gonda and one at Bangalore, for making 500,000 lines each. This in itself is a major step because we are leaping strowger and cross-bar systems to digital electronics switching, missing the intermediate step of anologue switching. However, it is necessary that in all such areas we adopt and develop technology ourselves so that we are not dependent forever on the next generation of technology from foreign source. It is with this objective in mind that the centre is being set up. Electronic switching, is highly computer-oriented and much of it is software based. This centre will ultimately design the ISDN - Integrated Services Digital Network - which is the final step in an integrated network for voice and non-voice services like data, telex, teletext, fascimile and other services leading to telematics etc. It is thus of vital interest to the computer community.

In the area of communications, there is already a communication network based on land lines, microwave and satellite which is capable of supporting the requirements of the computer community for data transmission and computer networking. We should now actively plan for establishing PDN - Public Data Networks - in our country. I would like to mention that the Department of Electronics is committed to introducing computers and communications, data communications, computer networking in a major way. Computer-based communications systems can significantly help in breaking some of the communication bottlenecks we face in our country today. The store-and-forward telegraph services, computer-based messaging systems, in a general way and certainly in specific areas can be of great help to the country. Satellite-based data communication systems are also of great interest.

Regarding manpower development our programmes are progressing well. The Teachers Training Programme has been started at 5 centres, the MCA programme at 11 centres with 30 students per centre. 3 more would be added during 1984/85. 16 institutions would start the one-year post B.Sc. Diploma in Computer Application (DCA). Another 12 have been identified also, who would commence courses later. In addition, the following programmes are expected to start in 1984:-

1. 1 1/2 year post-Polytechnic DCA programme for system analysis-cum-programmes — At 10 centres

2. Console Operater-cum-Programmer Assistant

   At 20 ITI's

3. Data Preparation

4. Instruction training at the Advanced Training Institutes for electronics and process instrumentation at Hyderabad and Dehradun.

I do strongly feel that this is one area which has to be looked upon as one of national endeavour. CSI and industry, in particular, both manufacturing and the user community must play a very major role in this. the industry should run apprenticeship courses, and support special training programmes at our educational institutions.

Another aspect to which very little attention has been paid so far is the continuing education need of people employed in computer industry. Formal educational institutions will not be in a position in the foreseeable future to meet the continuing education requirements of industry. Their work is cut-out generating formal manpower; their teacher resource is already insufficient even to meet present work-load. Furthermore, the nature of continuing education programmes is fundamentally different. The programmes have to be available in-house, readily and so structured as to allow learning at individual's own pace. The answer lies is using pre-recorded audio-visual programmes. This is an ideal role for CSI to provide such services as

NTIS

NATIONAL TECHNICAL INFORMATION SERVICE

NTIS is the world's largest bank for scientific, technical and engineering information. The present collection exceeds 1.2 million reports; with over 80000 new reports entering the NTIS system every year and made publicly available.

NTIS is the central source for the public sale of U.S. government sponsored research, development and engineering reports and other analyses prepared by national and local government agencies, their contractors or grantees.
Many non-U.S. organisations also contribute their reports to NTIS.

The massive NTIS data base surely has several reports which will help you in your work.

Write to us about your areas of interest and we will tell you how NTIS can be of use to you.

Managing Dealers in India

Phone: 6417015 Cable: DECISIVE

the members of CSI are the best qualified for such a purpose without being constrained by a formal structure.

There was also a suggestion about standardisation of courses. NSTPC has not taken off the ground. Perhaps it is necessary to get NSTPC recognised as a qualification and persuade employers to look upon it as a certificate of proficiency at least in programming. With the plethora of institutions offering courses in computers, it will be almost impossible for the Department of Electronics or any other body to monitor course and teaching standards; we can only monitor the final product!

There is also a strong concern about maintenance, after-sales support, prices - particularly of peripherals - and other matters relating to indigenous production. I think these are problems which the CSI should debate. It should take this up and perhaps should set up some sub-committees which can look at these aspects. CSI is a unique Society in that it has membership representing all interests and it should be possible for the users and the manufacturers to get together under the auspices of CSI to resolve many of these problems and work together in a healthy manner. The Computer Society has the benefit of being a total Society. It represents the users, the academics, the research workers, the manufacturers and others interested in this area. It thus can represent a total view point to the Government for such activities and can come up with considered recommendations. It can be something like a consumer guide and a watchdog for its own members' interests. I think there is a significant role for Computer Society here to look after the interests of the computer users, particularly now when a very large number of manufacturers are producing mini and micro computers in this country. We get representations from the manufacturers but hardly any from the users, and surely the ultimate objective of any policy or any procedure is the benefit the users.

To conclude, I would appeal to work together - the Department of Electronics, other Government Departments, the Computer Society of India, the computer professionals, the manufacturers, the users, the research people, the teachers in our Universities to build a healthy, viable, self-reliant, indigenous computer industry which serves a meaningful role in the development of our country and I am sure that given this commitment, given this objective, given this zeal, we can achieve it.

PAR

. . . THE ONE, SINGLE ANSWER TO YOUR EDP REQUIREMENTS . . .

SYSTEM SOFTWARE, DESIGN, DEVELOPMENT & IMPLEMENTATION

There has always been an on-going effort at PAR . . . Be it MICRO, MINI or MAIN FRAME having different operating systems, PARS' team have excelled in Designing, Developing & Implementing variety of applications.

HARDWARE SELECTION

Why worry yourself about which computer you want to choose? PAR's specialists who have studied and conducted feasibility analysis for many clients, will help you in hardware selection too.

EDUCATION & TRAINING

PAR imparts meaningful knowledge to the users with special emphasis on system design and EDP requirements through practical training.

MICRO COMPUTER SERVICE

PAR is recognised by many computer manufacturers as a Data Centre to assist end-user in software development, implementation and operation. Keeping with times, PAR has made substantial investment in Micro-Computers

MEDIA & CODE CONVERSION FACILITIES

PAR is a fore-runner in offering facilities of a Media & Code conversion to the users requirements using EBCDIC, ASCII & ICL codes.

LOW COST SOFTWARE "OFF-THE-SHELF"

For the Cost conscious, PAR offers Multi-feature, Menu Driven, Self Implementing, well documented, Standardized commercial packages in COBOL that can be offered "OFF-THE-SHELF".

SOFTWARE EXPORT

Software development for the International Market has been and is entertained by PAR's strong infra-structure. Our associates are Abacus Software Group Inc. in U.S.A. Middle East Computer Services in Bahrain & Mazda Electronics in Singapore

DATA CENTRE SERVICES

We offer computer time at reasonable rates. We own . . .

Introduction to Sections

Section I
COMPUTER SYSTEMS & PERIPHERALS SUPPLIERS

Computers
Manufacturers, importers and distributors of computers as well as organisations proposing to get into manufacturing of computers.

Computer Peripherals
Manufacturers, importers and distributors of computer peripherals as well as organisations proposing to get into manufacturing of computer peripherals.

Other Products
Organisations manufacturing, importing, and/or distributing following products:

- Microcomputers/Microprocessor-based Systems
- Data Acquisition Systems & Data Loggers
- Microprocessor Development Systems, Computer/-Microprocessor Trainers/Designers, Single Board Microcomputers
- EPROM/PROM/GANG Programmers & Erasers
- Cabinets for CPU etc.

Maintenance Companies
Organisations providing computer maintenance services, excluding computer manufacturers. (All computer manufacturers provide maintenance services to their respective installations.)

Section II
TECHNICAL DETAILS OF SYSTEMS

Computer Systems
Details of computers manufactured in India. Over 100 systems

have been covered. Only major hardware and software features of the systems have been provided. Manufacturer-Model and Model-Manufacturer indexes have been given.

Data Entry/Preparation Machines
Almost all systems permit direct data entry facility on terminals. As such DDE systems have not been covered separately. Technical details of only off-line data entry/preparation machines and data transfer machines have, therefore, been provided.

Section III
COMPUTER MEDIA, STATIONERY AND RELATED ITEMS

Organisations which manufacture, import or distribute the following computer-related items:

* Computer Media
* Magnetic Tape Equipment
* Computer Stationery
* Machinery for Computer Stationery
* Storage and Filing System for Computer Stationery and Media
* Computer Printer Ribbons
* Re-inking of Computer Printer Ribbons

Section IV
COMPUTER ROOM REQUIREMENTS

Manufacturers, importers and suppliers of:

* Room Requirements
  - Airconditioning, Ventillation and Dehumidification Systems
  - Air Conditioning Saving System
  - Carpets
  - Floorings
  - False Ceilings
  - Venetian Blinds
  - Fire Control & Protection Systems
* Office Equipment
  - Photocopiers
  - Audio-visual Equipment
  - Typewriters
  - Duplicating Machines
  - Paper Shredding Machines
  - Filing Systems
  - Office Furniture
* Room Preparation Agencies

Section V
POWER SYSTEMS

Manufacturers, importers and distributers of:

* Computer Power Supplies/Systems

NE PLUS ULTRA

WE bring you some of the latest in Microprocessor technology, Designed and Developed entirely by our own Engineers with Indigenously available Know How.

Our systems are configured with growth oriented Architecture and a superbly optimised high speed circuitry that lends itself to upward integration as few other systems in our country do.

The systems software is so aptly mated with the hardware, that it produces a man machine dialogue that, few people find difficult to use. It's also capable of being hooked into a network at a later date to meet your growing inter departmental needs.

Naturally these systems have to be backed up by a dynamic support group of maintenance and software specialists. We'll let our clientele tell you about that.

Our products range from simple business machine used in the clearing sections of banks, to a complete series of computer systems to suit the needs of small or medium sized business houses, whether involved in manufacturing or trading activities.

We would like to hear from you, so contact us

Section VI
COMPUTER INSTALLATIONS

Organisations with a computer/s installations

Both, Indian and foreign computers installed have been covered. Though substantially larger than the first edition, this section is still not fully comprehensive as a couple of manufacturers are even now not forthcoming with the lists of their installations. A considerable amount of effort has gone into collection of data through other sources. In some cases, details of the computer model installed are not known. However, as these organsiations do have a computer installation, they have been covered here.

Some organisations have computer installations at more than one location. Wherever known, the details of the computer models against each location has been indicated. In other cases, all computer models owned by the organisation have been listed against its first address.

Installation Index
This index is arranged computer manufacturer-wise. The first part deals with Indian computers while the second relates to foreign computers installed in India. Against each manufacturer's name, the serial number(s) of the main entry have been indicated.

Citywise Index
The citywise index has been arranged statewise. Within each state, the cities are listed alphabetically. Against each city, the serial number(s) of the main entry have been indicated.

Segmentwise index
Using broad segments, all computer installations have been suitably indexed.

Section VII
CONSULTANCY, SOFTWARE AND DATA PROCESSING SERVICES

Organisations providing the following services:

- * Consultancy in the area of:
    - Feasibility Studies
    - Systems Design
    - System Acquisition
    - Installation Management
    - Turnkey EDP Projects
- * Systems Software Development
- * Application Software Development
- * Software Products

SYSTEMS & COMPUTER SERVICES

O P G Computer Aided Design Pvt. Ltd. (O P G C A D) offers comprehensive consultancy Services in the fields of Engineering, Management, Computer, Commercial and other related systems and maintains a hard core of specialists in various disciplines trained in India and abroad. OPGCAD has an in-house ORG-80 Computer System and is also using IBM 370, PDP-11 and EC-1022 Systems. At OPGCAD, the following facilities are available:-

* COMPUTER TIME-on rental basis
* SOFTWARE PACKEGES-for various applications
* CONSULTANCY-in Systems development & programming
* BULK DATA PREPARATION-on magnetic tape
* TRAINING-in Systems and programming
* MISCELLANEOUS SERVICES

APPLICATION SOFTWARE

ENGINEERING SOFTWARE

- Civil
- Electrical
- Mechanical
- Instrumentation
- Environmental
- Hydraulics

BUSINESS APPLICATIONS

- Payroll, Financial and Cost Accounting
- Stores Accounting
- Billig/Invoicing and Credit Control
- Sales Analysis
- Share Accounting
- Fixed Deposit Accounting

PROJECT MANAGEMENT

- PERT/CPM
- Production Planning
- Linear Programming
- Human Resources Analysis

SYSTEM STUDIES

- Power Systems
- Optimisation Studies
- System Simulation and Modelling
- Statistical Applications

MANAGEMENT SYSTEMS

- Information Systems
- Maintenance
- Inventory Control
- Production Control

- * Software Export
- * Software Import
- * Data Processing
- * Word Processing

All computer manufacturers undertake system and application software development and also provide most of the services listed above. Moreover, the services rendered by most computer manufacturers are restricted to their own clients/potential clients. However, such computer manufacturers who offer some specialized services like software export have been covered in this section.

Computer and languages of expertise have been indicated. Also covered are areas of specialization.

Section VIII
DATA PREPARATION SERVICES

Organisations providing data preparation services. Besides computer facilities, specific data preparation equipment available with the organisations has been indicated.

Section IX
RECRUITMENT AGENCIES

Organisations involved in the recruitment/selection of manpower, specifically computer manpower.

Section X
TEACHING & TRAINING INSTITUTIONS

Organisations providing eductaion and training in the area of conputers.

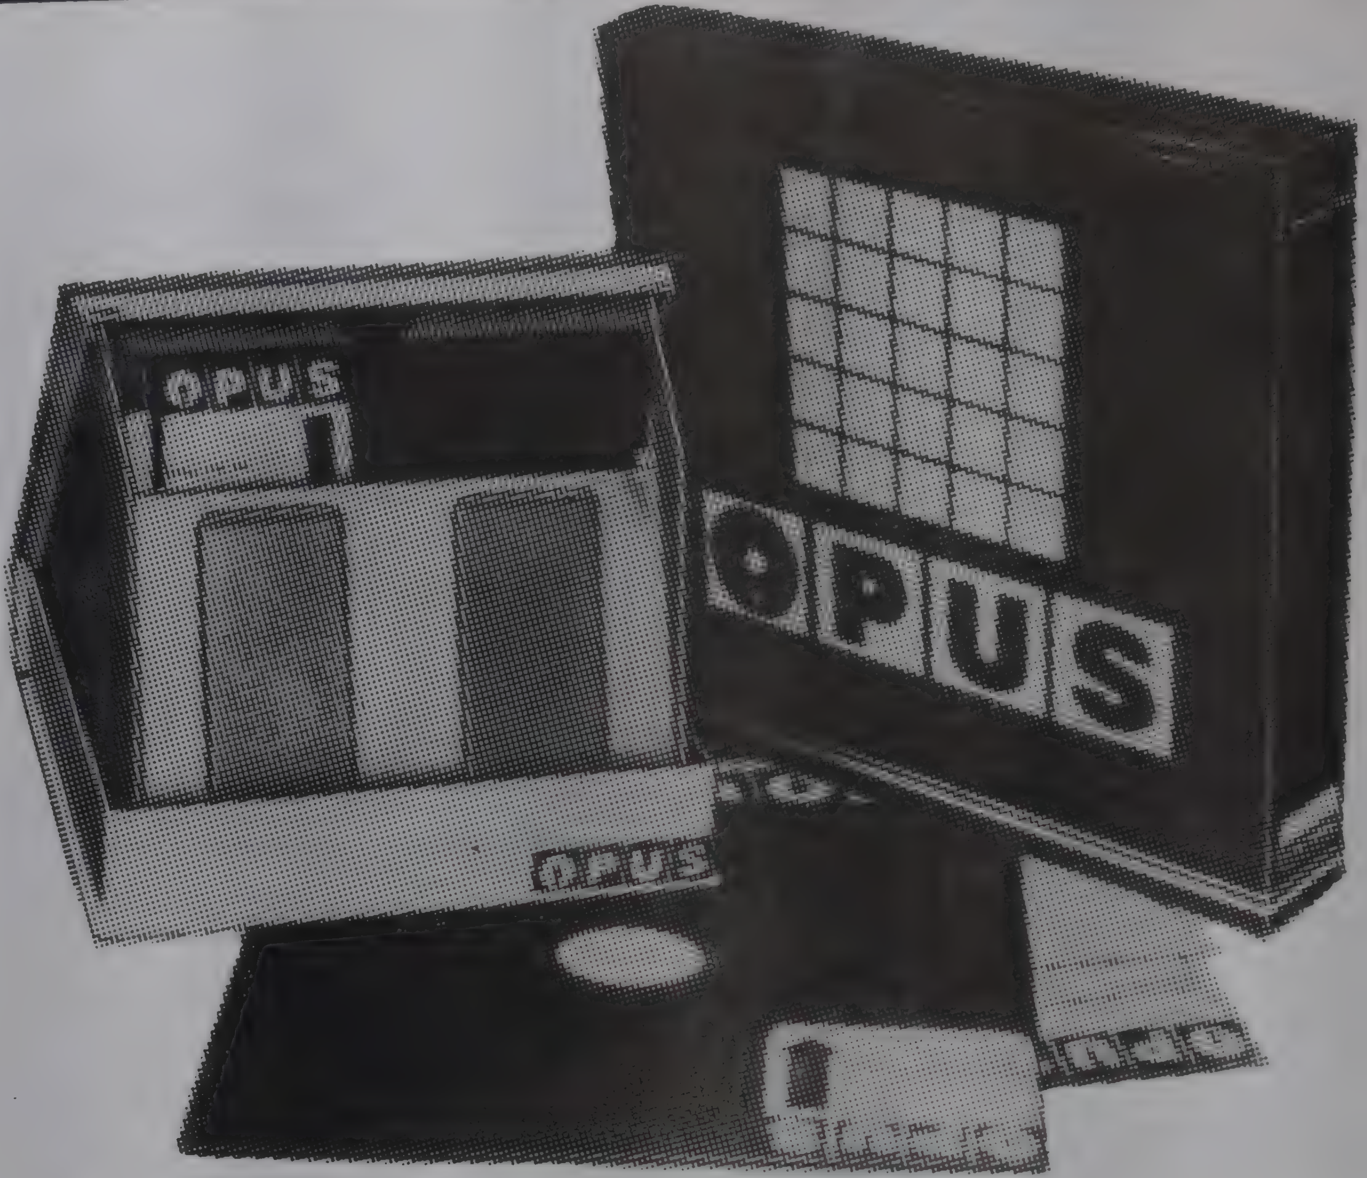
The following types of organisations have been covered

- * Universities
- * Colleges
- * Private Institutions
- * Societies and Associations

All computer manufacturers offer training facilities to their respective installations. These training courses are tailor-made to the computers offered by them. As almost all computer manufactueres provide this facility, they have not been covered in this section. The details of courses offered by computer manufacturers can be obtained directly from them. However, this section does cover such manufactuerers who offer courses to the general public.

The courses offered are arranged in the following order:

- Full Time Courses



*   OPUS diskettes
*   Printer Ribbons

- Purchase convenience through mail ordering
- Attractive prices
- Fast delivery
- Proven superior quality
- Accepted both by Govt. and private organisations

FUTURE
SYSTEMS

FUTURE SYSTEMS PVT. LTD.
D-26, Green Park
New Delhi-110 016

Write for our price catalogue today

- Part Time Courses
- Correspondence Courses
- Workshops & Seminars
- Other Specialised Courses

For each course, the information is provided in the following order:

- Name of Course
- Duration
- Eligibility Requirements

Section XI
COMPUTER & ELECTRONICS MAGAZINES

Indian publishers of magazines and journals on computers and electronics. Information on periodicity, features, subscription rates etc. has been provided.

Section XII
COMPUTER BOOKS & JOURNALS SUPPLIERS

Organisations which publish, import or distribute books, journals and other information items related to computers.

Section XIII
COMPUTER SOCIETIES & ASSOCIATIONS

Societies and Associations in the area of computers and information science. Detailed information has been provided on the objectives and membership eligibility requirements. In the case of the Computer Society of India, a prime society in this field, addresses of regional, divisional and chapter representatives have also been provided.

Section XIV
COMPUTER USER GROUPS

Computer users groups ie owners of installations of the same type, forming groups for mutual benefit. Information on objectives, eligibility requirements etc. about each of them has been provided.

Section XV
LEASING & FINANCE COMPANIES

The leasing industry is a recent phenomenon in the country. Several companies are also now offering computer leasing services. This section covers most of these companies. Some financing companies have also been included.

Section XVI
RELATED GOVERNMENT AGENCIES

Government bodies concerned with the control, development, assistance and monitoring of the computer industry in India. Special emphasis has been laid on the National Informatics Centre of the Electronics Commission as it is doing a pioneering job in the design and development of computer-based information systems.

Almost all the States have a corporation charged with the responsibility for development of the electronic industry in their respective regions. The computer industry is also under the purview of these corporations and hence they have been covered here.

In addition, this section covers Electronics Standards, Test & Development Centres as these organisations/centres also assist the computer industry.

Section XVII
GOVERNMENT POLICIES

Government policies with regard to the manufacture, import and export of computer systems and software. Relevant Customs notifications regarding Import Duty have also been included. Also covered are some relevant abstracts from the current import policy.

For further details/clarifications, readers are advised to contact the Electronics Commission.

Section XVIII
WHO'S WHO IN COMPUTER INDUSTRY

A brief profile of some of the computer professionals in the country.

The persons have been listed alphabetically, by their surname. The information on each person has been presented in the following order

Part I
- Surname, followed by first and middle name
- Age
- Current Title/Designation
- Name of the Organisation
- Address
- Phone Number

Part II
- Educational Qualifications, including Computer Courses

Part III
- Areas of Specialisation

THE BUFFETING OF TALL STRUCTURES BY STRONG WINDS,
WINDLOAD PROGRAM

CALCOMP PREVIEW SYSTEM
Developed by Defence Communications Engineering Center

ROAD DESIGN SYSTEM
Developed by Forest Service, Fort Collins

Environmental Pollution & Control

UNAMAP : USER'S NETWORK FOR APPLIED MODELLING OF AIR
POLLUTION

Developed by Environmental Protection Agency. Contains 21 air quality simulation models. These models input emission and meteorological data to calculate projected air pollutant concentrations. UNAMAP contains state-of-the-art dispersion research algorithms supported by the US Environmental Protection Agency

MESOSCALE AIR QUALITY SIMULATION MODEL
Developed by Environmental Protection Agency

A MATHEMATICAL MODEL OF ELECTROSTATIC PRECIPITATION
Developed by Industrial Environmental Research Lab

ARPAC-2 AIR POLLUTION DISPERSION MODEL
Developed by Environmental Protection Agency

AIRPORT VICINITY AIR POLLUTION MODEL COMPUTER SOURCE CODE
Developed by Federal Aviation Administration

WASTEWATER TREATMENT PLANT COST ESTIMATING PROGRAM
Developed by Environmental Protection Agency

AIR QUALITY IMPLEMENTATION PLANNING PROGRAM (IIP)
Developed by TRW Systems Group

PHOTOCHEMICAL AIR QUALITY SIMULATION MODEL
Developed by National Environmental Research Center

APRAC - 2 AIR POLLUTION DISPERSION MODEL
Developed by Environmental Protection Agency

Hospital Management

'CLINIC' SIMULATION MODEL
Developed by Massachussets University

FINANCIAL PLANNING MODEL FOR HEALTH MAINTENANCE ORGANISATIONS
Developed by Massachussets University

'PLAN': A COMPUTER MODEL FOR PLANNING LOCATIONS, CAPACITIES AND SCHEDULES OF OUTPATIENT FACILITIES
Developed by Massachussets University

HOSPITAL MANAGEMENT SYSTEM
Developed by Michigan University

THE NURSING HOME SIMULATION MODEL
Developed by National Centre for Health Services Research

ADTECH-IMPACT OF ADMINISTRATIVE TECHNOLOGY ON ACUTE BED NEED
Developed by National Centre for Health Services Research

AUTOMATED PROBLEM-ORIENTED MEDICAL INFORMATION SYSTEM (PROMIS)
Developed by Vermont University

EMERGENCY SYSTEM SIMULATOR
Developed by National Center for Health Services Research

EVALUATION OF FINDINGS FROM NURSE PRACTITIONER AND PHYSICIAN ASSISTANT STUDIES: PE AGGREGATE DATA FILE AND RELATED SOFTWARE.
Developed by System Sciences

Municipal Systems

- UTILITY BILLING SYSTEM

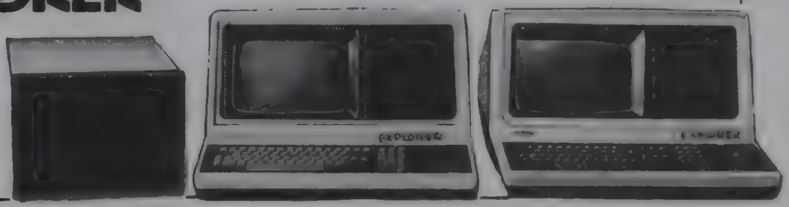
Sunray family of dedicated systems bring EASE* into offices and institutions

The 32 bit Super-micro

Incorporating dual Motorola 68000 Processors and the UNOS Operating System (superset of UNIX), with unrivalled features for diverse use in R & D Institutions (graphics, floating point and array procesors) BUSINESS (COBOL, Unify—a powerful multiuser relational data base) and educational establishments (Engineering Software, CAD). Upto 64 Terminals are supported along with a wide variety of peripherals such as Disk Drives of 300 MB, Tape Drives, A to D Converters, Digitizers, Graphics Terminals and more. A full complement of languages —FORTRAN 77, PASCAL, COBOL, 'C', and BASIC are available. Packages for Production Planning and Control, Inventory and Hotel Management are available.

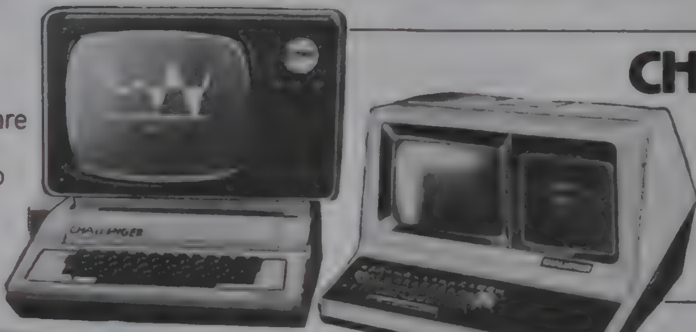
UNIVERSE 68

EXPLORER



The 8/16 bit Local Area Networking System

The office automation system where 16 workstations per network share a common database. Each workstation has its own Processor (Z80A) and local memory of 64 KB. Modular upgradibility for expansion with 5 1/4" DSDD floppy drives and winchester Disk capacities upto 80 MB. BASIC, FORTRAN, COBOL, PASCAL, 'C', word processing and other standard application packages are available.



CHALLENGER

The Professional Computer

The CHALLENGER readily accepts APPLE and CP/M software opening a new world of entertainment, educational and business applications. Dual Processors (6502/Z80) and two Floppy Drives make it the ideal desktop system for word processing, data entry and business.

VEGA 600

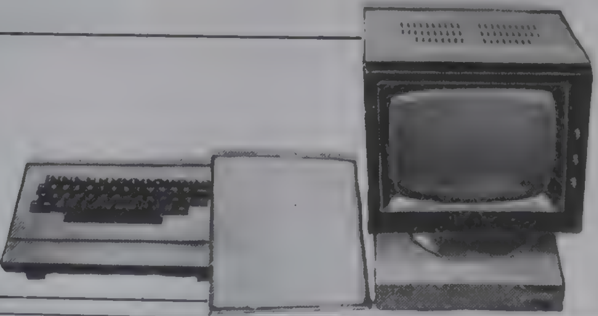
The office system printer operating in 3 modes—letter quality, graphics and data processing mode at 600 cps with user definable fonts. Fan Fold and Stacked Cut Stationary can also be used. Kannada and Hindi Fonts are currently under development.

The Dot Matrix Printer

A low cost, rugged 80 column, 112 cps dot matrix printer for low volume EDP applications. Does not require A/C. The SPOTTER 112 has serial, parallel and current loop as standard features.

SPOTTER 112

STAR



The Smart Display Terminal

The STAR comes with a full ASCII character set and terminal functions such as cursor control, edit functions and visual attributes such as underline, reverse video etc. The STAR incorporates an ergonomic design with a detachable keyboard with facility for a hard copy printer.

SPECTRUM WORKSTATION

Hardware
CPU : 8-bit, Intel 8085, 64KB main memory

Terminals : VDU 24 x 80, Standard Keyboard
Storage : Upto four Floppy Disk Drives
Upto two Magnetic Tape Drives
Printers : 165 cps Dot Matrix/43 cps Daisy Wheel/300 lpm Line Printer

Software
OS : SPECTROS - Disk-based Operating System
Utilities : Sort/Merge, PIP, Word Processing and others
Languages : FORTRAN, E BASIC, HIBASIC
Packages : Standard Commercial Applications (Inventory Control, Financial Accounting, Accounts Receivables, Sales Analysis, Material Requirements Planning)

DCM Data Products

GALAXY/9

Hardware
CPU : 16-bit, 64KB main memory, Extended Arithmetic Unit
Terminals : VDU 24x80, Standard Keyboard
Storage : Upto eight, 8" Floppy Disk Drives
Upto four Magnetic Tape Drives
Upto four Fixed Disk Drives (20/34/54MB each)
Printers : 300 to 600 lpm Line Printer

Software
OS : Disk-based Operating System, Single-User
Utilities : Job Control Language, Sort/Merge, Edit, PIP etc.
Languages : RPG, G BASIC
Packages : Standard Commercial Applications (Inventory Control, Production Planning & Control, Sales Accounting, Accounts Receivables, Sales Analysis, Financial Accounting etc)

DCM Data Products

GALAXY/21 (Models 03, 05 and 10)

Hardware
CPU : 16-bit, Intel 8086 with Intel 8087 Math coprocessor, 64KB main memory, expandable to 1MB; Extended Arithmetic Unit
Terminals : Upto sixteen Intelligent Terminals,
VDU 24x80, Standard Keyboard
Storage : Upto four SSSD Floppy Disk Drives
Upto eight Hard Disk Drives
Upto four Magnetic Tape Drives
Printers : Upto two; 300 to 900 lpm Line Printer, Dot Matrix Printer

Software
OS : MPE/21 (Multiprogramming Executive): Multiprograming, Multi-user
Utilities : Sort/Merge, Formatted Data Entry, PIP, others
Languages : BASIC, COBOL, FORTRAN, QUERY cum REPORT WRITER
Packages : Standard Commercial Applications

Remarks : Can run upto 8 batch jobs or a mixture of Batch & Interactive Operations.

DCM Data Products

SIDDHARTH (Hindi)/THIRUVALLUVAR (Tamil)

Hardware
CPU : 8-bit, Intel 8085, 64KB memory
Terminals : One,VDU 24x80, Standard Keyboard
Storage : Upto four Floppy Disk Drives
Upto two Magnetic Tape Drives
Printers : 200 cps Dot Matrix/43 CPS Daisy Wheel/300 lpm Line Printer

Software
OS : SPECTROS (CP/M Compatible)
Utilities : Word Processing and others
Languages : HIBASIC, EBASIC

Remarks : Bilingual System

DCM Data Products

TRS-80 MODEL 4

Hardware
CPU : 8-bit, Z-80A, 128 KB memory

Terminals : VDU 24x80, Standard Keyboard
Storage : Two in-built 5 1/4" DSDD Floppy Drives + two external Drives
Upto four Hard Disk Drives (5 MB)
Printers : 43 cps Letter Quality, 100 cps/200 cps Dot Matrix Printer

Software
OS : TRS DOS 6.0 with memory-disk, JCL, Print Spooler
Utilities : Word Processing (SUPERSCRIPT), Filing System (PROFILE), Visicalc
Language : BASIC
Packages : Standard Commercial Applications

Remarks : Audio alerts, Graphic Symbols, Function Keys

Data Bus

APOLLO - SE 21

Hardware
CPU : Z-80, 48K
Terminal : VDU, Standard Keyboard
Storage : Upto four Floppy Drives (163 KB each)
Printers : Dot Matrix/Letter Quality Printer

Software
Utilities : dBase, Visicalc, Wordstar etc.
Languages : BASIC, COBOL, PASCAL, PL/1, LOGO, PILOT
Packages : Standard Commercial Applications

Digital Innovations Pvt Ltd

STEP-UP

Hardware
Terminals : One, VDU 24x80, Standard Keyboard
Storage : Two Floppy Disk Drives (500KB)
Printers : One 80/132 column 80/100 cps Dot Matrix or 12/45 cps Daisy Wheel Printer

Software
Utilities : Word Processing etc.

Digital Innovations Pvt Ltd

20TH CENTURY

Hardware
Terminals : Upto eight, VDU 24x80, Standard Keyboard
Storage : Two to four SSSD Floppy Disk Drives
Winchester Disk Drive (20 MB)
Printer : Upto eight printers, 80 column 80 cps
Dot Matrix or Daisy Wheel

Software
Utilities : Word Processing (Special Features: Floppy Index, Auto (Table of Contents' Generation), others
Packages : Standard Commercial Applications

Dynalog Micro-Systems

DYNACOMP-99

Hardware
CPU : 8-bit, Z80, 64K RAM
Terminals : VDU 24x80, Standard Keyboard
Storage : Two 8" SSSD Floppy Disk Drives (250 KB each)
Printers : 80/100 column Dot Matrix Printer

Software
OS : DMOS (emulates CP/M)
Utilities : DMPAS, DMENTRY, Word Processor (DYNAWORD), DMCOB etc.
Languages : BASIC
Packages : Standard Commercial Applications

Remarks : Graphics Capabilities
Optional Interfaces HP-IB, Modem, Audio Cassette

Eiko Computers Pvt Ltd

EIKO

Hardware
CPU : Z-80B, 64B Memory

Terminals : One VDU 24x80, Standard Keyboard
Storage : Two 5 1/4" Floppy Drives (1.4 MB)
Printers : 80 col, 80 cps Dot Matrix

Remarks : 5 1/4" Winchester Disk Drive can also be supported

Software
Packages : Standard Commercial Applications and Word Processing

Electronic Research Pvt Ltd

IDB-800

Hardware
CPU : 8-bit, Z80A, 64KB Dynamic RAM
Terminals : Upto sixteen, Z-80 based, VDU 24x80, Standard Keyboard
Storage : Upto Four 8" DSDD Floppy Disk Drives (1.2MB formatted each)
Upto four Winchester Disk Drives (10/20/40MB each)
Upto four Magtape Drives (upto 45MB)
One Magnetic Cartridge Drive (20MB)
Printers : 80/132 column 100/200 cps Dot Matrix or 132 column 300 lpm Line Printer or 50 cps Letter Quality

Software
OS : EROS-8: Single-user Operating System
EROSD-8: Distributed Processor Operating System
Utilities : Sort/Merge, Data Entry, Word Processor (AUTOSCRIBE), Data Base Management System (IDBASE), Spreadsheet, Peripheral Interchange Program etc.
Languages : BASIC, PASCAL, FORTRAN, COBOL, PL/1
Packages : Standard Commercial Applications (Sales Analysis, Payroll, Inventory Management, Financial Accounting, Advertisement Management)

Electronic Research Pvt Ltd

SECRETARY

Hardware : One-Station, 12" Monitor with built-in Floppy Drives, 45 cps Letter Quality Printer

Software : Word Processing & other applications

Electronic Research Pvt Ltd

STUDENT

Hardware
CPU : 8-bit, Z-80A
Terminal : 9" Monitor, Standard Keyboard
Storage : One/Two 5 1/4" Floppy Drives (390 KB each)
Printers : 80/200 cps Dot Matrix

Software
OS : MICROS-8
Utilities : Sort/Merge, Copy, Format, Peripheral Interchange, Word Processing (AUTOSCRIBE), Spreadsheet (AUTOCALC), DBMS, etc.

Remarks : Portable

Electronic Research Pvt Ltd

EXECUTIVE

Hardware
CPU : 8-bit, Z-80A, 128 KB RAM, 48 KB of Optional RAM Disc
Terminals : Built-in 9" Monitor, Standard Keyboard
Storage : Two 5 1/4" Floppy Drives (390 KB each)
Options: Two 8" Floppy Drives (1 MB each)
Winchester Drives (10 MB)
Printers : 80/200 cps Dot Matrix, 45 cps Letter Quality

Software
OS : MICROS-8
Utilities : Sort/Merge, Copy, Format, Perpherial Interchange, Word Processing (AUTOSCRIBE), DBMS, Spreadsheet (AUTOCALC) etc.

Remarks : Portable

Electronic Research Pvt Ltd

MICROMATE JUNIOR/SENIOR

Hardware
CPU : 8-bit, Z-80A, 128KB RAM, 48 KB Optional RAM Disc
Terminals : VDU 24x80, Standard Keyboard
Storage : Upto four 5 1/4" DSDD Floppy Disk Drives (390 KB each)
Upto four 8" Floppy Disk Drives (1MB each)
Winchester Disk Drive (10 MB)
Printers : 80/200 Dot Matrix/45 cps Letter Quality Printer

Software
OS : MICROS 8
Utilities : Sort/Merge, Copy, Format, Peripheral Interchange Package, Word Processing (AUTOSCRIBE), DBMS etc.
Languages : BASIC, COBOL
Packages : Standard Commercial Applications

Electronic Systems Punjab Ltd

Super MICRO-8

Hardware
CPU : 8-bit, Z 80A, 64K RAM (expandable upto 512KB)
Terminals : Upto six VDU, 24x80, Standard Keyboard
Storage : Upto four SSSD, SSDD, DSSD or DSDD Floppy Disk Drives (Maximum 4.8 MB)
Winchester Disk Drives
Upto eight Magnetic Tape Drives
Printers : Upto six on-line 150/200 cps Dot Matrix, 300 to 600 lpm Line, 40/ 55 cps Letter Quality Printers

Software
OS : EDOS: Single-user, Single-task, Disk-based Operating System
ENIX 8: Multi-user, Multi-tasking, Operating System
Utilities : Word Processing, DBMS, File Management, Sort/Merge etc.
Languages : BASIC, COBOL 74, FORTRAN IV, PASCAL
Packages : Standard Commercial Applications

Remarks : B/W or Colour Graphics

Electronic Systems Punjab Ltd

Super MICRO-16

Hardware
CPU : 16-bit, 128 K (expandable upto 1 MB)
Terminals : Upto 18, VDU 24x80, Standard Keyboard
Storage : Upto four 8" Floppy Disk Drives
Hard Disk Drives,
Upto four Magtape Drives
Printers : Dot Matrix/300/600 lpm Line Printer

Software
OS : Single-user Multi-user, Multi-Programming/Tasking (Real-Time)
Languages : BASIC, FORTRAN 77, PASCAL

Remarks : B&W or Colour Graphics

Electronic Systems Punjab Ltd

Super MICRO-32

Hardware
CPU : 16-bit (Internal architecture 32 bit), Motorola 68000, 256K RAM (expandable to 16MB)

Terminals : Upto 18, VDU 24x80, Standard Keyboard
Storage : Upto four SSSD, SSDD, DSSD or DSSD Floppy Disk Drives
Winchester Disk Drives
Upto eight Magnetic Tape Drives
Printers : Upto sixs on-line 150/200 cps Dot Matrix, 300-600 lpm Line, 40/55 cps Letter Qualty Printers

Software
OS : EDOS and ENIX 32 Operating System (Single user/Multi user)
Utilities : File Management, Sort/Merge, Copy, Spooling, Word Processing, DBMS etc.
Languages : FORTRAN 77, BASIC, COBOL 74, 'C' SYSTEM Language, PASCAL, 68000 Assembler
Packages : Standard Commercial Applications

Remarks : B/W or Colour Graphics, Battery Back-Up

Electronics Corporation of India Ltd

BDP-100

Hardware
CPU : 8-bit, Intel 8080/8085, 48K RAM (expandable to 64KB)
Terminals : Upto two CRT Terminal/Teletypewriter as console device
Storage : Upto four Floppy Disk Drives
Cartridge Disk Drives (12MB/24MB)
Upto two Magnetic Tape Drives
Printers : 300 to 600 lpm Line Printer/ 150/200 cps Dot Matrix

Software
OS : DOS
Utilities : System Monitor, File Management System, System Retrieval Routine, Sort/Merge, 1401 H Simulator, Unit Record Simulator, 1501 and TDC 316 Simulators, TDC 316 Cross Assembler etc.
Languages : ECOBAL, BASIC, ASSEMBLER, COBOL, FORTRAN
Packages : Standard Commercial Applications

Remarks : Supports Floppy Readers (20 CM, 256KB SSSD, 2 to 4 Drives) and Card Readers (600 cpm)

Electronics Corporation of India Ltd

ELLIPSE

Hardware
CPU : 16-bit, 128KB to 256KB, Floating Point Processor
Terminals : Upto 16, VDU 24x80, Standard Keyboard
Storage : Upto two Floppy Drives
Upto five Magnetic Tape Drives
Hard Disk Drives
Printers : Upto two 250/150 cps Dot Matrix, 300/600 lpm Line Printer

Software
OS : DOS, Multi-programming, Multi-Tasking
Utilities: Sort/Merge, File Interrogation System, 1401 Simulator, CONVAL, CONVERT, Peripheral, Interchange Program, Multi Terminal Text Editor, Librarian, DBMS, Copy etc.
Packages : Standard Commercial Applications
Languages : COBOL, FORTRAN, PASCAL, ECOBAL, Assembler

Remarks : Can run all software available on TDC-316
Card Reader: 600 cpm
Floppy Reader: 20 CM, 256 KB SSSD, 2 to 8 Drives

Electronics Corporation of India Ltd

TDC-316

Hardware
CPU : 16-bit (can be expanded to 256KB)
Terminals : Upto 16, VDU 24x80, Standard Keyboard
Storage : Disk Storage Units (24MB to 200MB
Upto 5 Magnetic Tape Drives
Can support total disk base of 800 MB

Printers : 300 to 600 lpm Line Printer

Software
OS : Disc Operating System (DOS)
Utilities : Sort/Merge, File Interrogation System, Conversion & Validation, File Conversion, Update, Edit, Text Editor, Query, 1401 Simulator etc.
Languages : COBOL, ECOBAL, FORTRAN, MACRO ASSEMBLER
Packages : Standard Commercial Applications (Project Management System,Linear Programming, Financial Accounting Inter-branch Accounts Reconciliation, Production Planning & Control)

Remarks : Supports Floppy Readers, Card Readers. Option of Floating Point Processor and Decimal Hardware

Electronics Corporation of India Ltd

System-332

Hardware
CPU : 32-bit, 256KB to 4MB, Floating Point Processor
Terminals : Upto 256 Terminals, VDU 800/1600 characters, Standard Keyboard
Storage : Upto eight 200MB Disk Storage, Upto sixteen Magtape Drives Total On-line Disk Capacity upto 1600MB (Mag Disk Drive :200 MB exchangeable)
Printers : 300/600/1200 lpm Line Printer 250/150 cps Dot Matrix Printer

Software
OS : Multi-user, Multi-programming (upto 12 Programs), Multi-tasking
Utilities : Sort/Merge, Librarian, File Inventory Program, File Maintenance Program, File Converter, IBM 1401 Simulator, Input/Output Spooling, DBMS, RJE, Peripheral Interchange, Multiterminal Text Editor, Test File Creator etc.
Languages : COBOL, FORTRAN, RPG, ASSEMBLY
Packages : Standard Commercial Applications (PERT, Linear Programing, Production Planning & Control etc)
Remarks : Supports Card Reader (600/1200 cpm)
Communications Software and Automatic Volume Recognition
Floppy Reader 20 CM, 256 KB SSSD, 2 to 8 Drives

Electronics Corporation of India Ltd

micro 32

Hardware
CPU : 32-bit, Motorola 68000, 512 KB (expandable to 16 MB)
Terminals : VDU 24x80, Standard Keyboard
Storage : 8" or 5 1/4" Floppy Disk Drives
Winchester Disk Drives (10 to 160 MB each)
Streamer Magnetic Tape Drives
Printers : Dot Matrix/Daisy Wheel/Line Printers

Software
OS : Multi-Programming, Time-Sharing
Utilities : Sort/Merge and other Standard Utilities
Languages : PASCAL, COBOL, 'C', FORTRAN
Packages : LP, PERT/CPM, Statistical and Standard Commercial Applications

Electronics Corporation of India Ltd

Super 16

Hardware
CPU : 16-bit, Fast Floating Point Processor, 256 KB Memory (expandable to 1 MB)
Terminals : Upto 128 on-line Terminals, VDU 24x80, Standard Keyboard
Storage : 8" Floppy Drives
Winchester type Disks (160 MB to 600 MB)
800/1600 Dual Density Tapes/

Streamer Tapes
Printers : Line Printers

Software
OS : ROS: Multi-programming, Multi-user
Utilities : DBMS, File Interrogation System
Languages : COBOL, FORTRAN, BASIC, PASCAL, MACRO
Packages : Standard Commercial Applications

Remarks : Graphic Support

Essen Electronics

SN-23

Hardware
CPU : 16-bit, 128KB (Maximum 256KB; 4MB Optional) Floating Point Processor
Terminals : VDU 24x80 Semigraphics, Standard Keyboard
Storage : Upto four Disk Drives
Upto two Floppy Drives
Upto four Magnetic Tape Drives
Printers : Upto four Printers, 300/600 lpm Line Printer/Daisy Wheel Printer

Software
OS : Multi-user, Time-sharing Operating System or Multi-user, Multi-tasking, Real-Time Operating System
Utilities : File Management Facility with Multikey ISAM, Data Retrieval Package, 1401 Simulator, Word Processing etc.
Languages : Extended BASIC, COBOL ANSI-74, FORTRAN-IV, MACRO-11
Packages : Standard Commercial Packages: Linear Programming (MERCURY) Statistical Data Analysis (VENUS), Financial Accounting (FAR-11), Accounts Receivables (ARS-11), Materials Management (MMC-11), Production Planning & Control (PPC-11), Sales Analysis & Accounting (SAL-11) Payroll (PAY-11), Fixed Deposits (FDR-11), Share Accounting (SAC-11)

Hindustan Computers Ltd

System-2

Hardware
CPU : 8-bit, Intel 8085, 64KB RAM
Terminals : VDU 24x80, Standard Keyboard
Storage : Upto four 1MB Floppy Disk Drives
Upto one Magnetic Tape Drive
Upto four Hard Disk Drives
Printers : One 120/180 cps Dot Matrix Printer/Line Printer 300/600 or Letter Quality Printer

Software
OS : HICOS-2 Operating System
Utilities : Word Processing, Copy, Sort/Merge, ISAM etc.
Languages : BASIC, FORTRAN
Packages : Standard Commercial Applications

Hindustan Computers Ltd

System-4

Hardware
CPU : 16-bit, 128KB RAM (expandable to 512KB)
Terminals : Upto 16 on-line terminals, VDU+ CRT Display, Standard keyboard
Storage : Upto four Hard Disk Drives (20 MB each)
Upto two Tape Drives
Printers : Upto two, 300/600 lpm Line Printer

Software
OS : HICOS-4 Disk-based Operating System
Utilities : Sort/Merge, Copy, Single User Monitor, File Management System, Indexed File System, Job Control Language, Batch Command Processor, Background Peripheral Interchange Program, Data Base Management System (CIRUS)
Languages : BASIC, COBOL, FORTRAN-IV
Packages : Standard Commercial Applications

Remarks : Dual Mini-floppy Drives for Data Entry
Power Shut Off Auto Restart

Hindustan Computers Ltd

WORKHORSE Series (Level 1, 2, 3, and 4)

Hardware
CPU : Intel 8085/8080A, 64KB to 128KB main memory
Terminals : Upto four, VDU 24x80, Standard Keyboard
Storage : Two Mini Floppy Drives (800 KB to 1600 KB)
Printers : 120 cps Dot Matrix, 40 cps Daisy Wheel, 300/600 lpm Line Printer

Software
OS : HICOS Operating System
Utilities : File Management, Error Debugging, Word Processing (SECRETARY V.2.0), DBMS, File Handling etc.
Languages : FORTRAN IV, HCL BASIC, COBOL, PASCAL, ASSEMBLER

Remarks : Power Shut-off Auto Restart, Graphics

Hindustan Computers Ltd

INTEGRA

Hardware : 16-bit, HCL System 4 main memory 256/512 KB with several peripherals linked to 8 satellite computers each with CPU, 128 KB memory, and peripheral option

Software : Multi-user Operating System, Supporting Several languages, wide variety of applications

Industrial Electronics

HI-TEK/830

Hardware
CPU : 8-bit and 16-bit, 64KB to 1MB memory
Terminals : Upto 32, VDU 24x80, Standard Keyboard
Storage : Floppy Drives
2-4 Hard Disk Drives
Magnetic Tape Drives
Printers : Dot Matrix/Daisy Wheel

Software
OS : CP/M, CP/M-86, MS-DOS
Utilities : Word Processing (WORDSTAR, WORDTEK), Electronic Spreadsheet, Data Base Management System etc.
Packages : Standard Commercial Applications (PERT/CPM, Accounting, Inventory Control)

Remarks : Graphics, Data Communication Devices

Integrated Data Systems Pvt Ltd

Z/IDS-100

Hardware
CPU : 8-16 bit, 128-768 KB
Terminals : VDU 24x80, Standard Keyboard
Storage : Floppy Disk Drives
Printers : Dot Matrix/Letter Quality Printer

Software
OS : CP/M-80, CP/M-86, MS-DOS
Languages : BASIC, COBOL, FORTRAN, PASCAL

International Computers Indian Manufacture Ltd

ICIM-101

Hardware
CPU : 8-bit byte working in 32-bit mode, 80KB to 320KB
Terminals : Upto 200 Terminals, Multi-purpose VDUs 24x80, Standard keyboard
Storage : 1 to 4 Disks (35 MB)
1 to 2 Magnetic Tapes
1 to 2 Cartridges
Printers : 300 lpm Band Printer/180 cps Dot Matrix Printer

Software
OS : 20 partitions, Multi-tasking,

Spooling, Resource-sharing, Time-sharing, Dedicated partitions, On-line editing
Utilities : Sort/Merge, Job Logging, Diskette Handling, Real Time Clocking, Word Processing (WORDS), DBMS etc.
Languages : ASSEMBLER, COBOL, RPG-II
Packages : Standard Commercial Applications, Production Control (SAFES), Query Processing (INFORM), Financial Accounting (LEDGER)

International Computers Indian Manufacture Ltd

ICIM-2904

Hardware
CPU : 65KB (expandable to 2MB)
Terminals : Video Console 20x50, Standard Keyboard
Storage : Upto two Floppy Disk Drives (256KB each)
Upto eight Disk Drives (60 MB each)
Upto twelve Magnetic Tapes
Printers : 720 lpm Line Printer (upto four Printers)

Software
OS : EXEC-3S and MINIMAC
Utilities : Sort/Merge, File Management, House Keeping, Conversion/Transition, 1401 Simulator, DBMS etc.
Languages : COBOL, FORTRAN 77, BASIC, RPG-II, ALGOL, PLAN, Control & Simulation
Packages : Standard Commercial Applications, Modelling (PROSPER+), PERT, Linear Programming, CSL, Statistical Packages, Survey Analysis, Electrical and Engineering Packages, Scientific & Statistical Packages

Remarks : Floating Point Processor, Card Reader 300 cpm, Upto 8 Direct Data Entry Stations, Paper Tape Reader, Upto 4 Graphic Plotters

International Data Management Pvt Ltd

IDM S/50

Hardware
CPU : 8-bit, Z80B 64KB Dynamic RAM (expandable to 256 KB)
Terminals : Upto four, VDU 24x80, Standard Keyboard
Storage : Upto four DSDD Floppy Disk Drives (1.3MB)
Upto two Hard Disk Drives (20 MB each)
Pseudo Disk (upto 576KB)
Printers : 200/350 cps Letter Quality Dot Matrix/300 lpm Line Printer

Software
OS : CP/M Single user
MP/M Multi User, Multiprogramming
Utilities : Word Processing, Data Base Management System, Spreadsheet Planner, Copy, Sort/Merge, PIP, File Handling, Text Editor etc.
Languages : COBOL, BASIC, FORTRAN, PASCAL
Packages : Standard Commercial Applications

Jaymac Midwest Computers (P) Ltd

WIZARD

Hardware
CPU : MC 6800, RAM 16MB
Terminals : Supports Graphic Terminals
Storage : Floppy Drives, Winchester Disk Drives, Streamer Tapes
Printers : Dot Matrix/Line Printers

Software
OS : UNIX Operating System, Multi-Tasking (16 Users)
Languages : BASIC, COBOL, FORTRAN 77, PASCAL & 'C'

Josh Electronics Pvt Ltd

J-ED-82

Hardware
CPU : 8-bit, Z80A, 16KB RAM

(expandable to 48 KB)
Terminals : Upto four VDU 24x80, Standard Keyboard
Storage : Upto four SSSD, SSDD, DSSD, DSDD Floppy Disk Drives
Printers : 80/132 column 100 cps Dot Matrix or Daisy Wheel Printer or 300 lpm Line Printer

Software
OS : JDOS
Utilities : Word Processing, Copy, File Handling etc.
Packages : Standard Commercial Applications (Mailing List, General Ledger, Accounts Receivable, Inventory Control, Statistical Analysis, Payroll)
Language : BASIC

Remarks : Cassette Tape Port

Kerala State Electronics Development Corpn Ltd

VersaCOM

Hardware
CPU : 16-bit host and 80-bit Numeric Data Processor; 128 MB (expandable to 1 MB)
Terminals : Upto 32, VDU 25x80, Standard Keyboard
Storage : Upto four 8" 1.25 DSDD Floppy Drives
Upto eight 5 1/4" 20/40/80 MB Winchester Drives
Upto four 10" 800/1600 bpi Magnetic Tape Drives
Printers : Upto three Dot Matrix, Band or Daisy Wheel Printers

Software
OS : MPM Compatible Operating System, Multi-programming, Multi-tasking
Utilities : Screen Editor, Linking Editor, Debugging Editor, Sort/Merge, DBMS, Word Processing, PIP etc.
Languages : COBOL, FORTRAN, BASIC, PASCAL, PL/M, FORTH
Packages : Standard Commercial Applications

Kerala State Electronics Development Corpn Ltd

VersaIWS

Hardware
CPU : 16-bit, 128 KB (expandable to 1 MB)
Terminals : Upto 4, VDU 25x80, Standard Keyboard
Storage : Upto four 8", 1.25 MB DSDD Floppy Drives
Upto four 5 1/2" 20/40/80 MB Winchester Disk Drives
1 Tape Drive
Printers : Upto two 80/160/200/400 cps Dot Matrix, 300/600 lpm band, 45 cps Letter Quality Printer

Software
OS : VMX-86, MPM-86, RMX-86
Utilities : Standard, Word Processing etc.
Languages : COBOL, BASIC, FORTRAN, PASCAL, PL/M, FORTH
Packages : Standard Commercial Applications

Remarks : Interactive Graphics

MMC Digital Systems

MMC 101

Hardware
CPU : 8-bit, Intel 8085, 48KB RAM Main Memory (Maximum 64KB)
Terminals : One VDU 24x80, Standard Keyboard
Storage : Upto two Floppy Disk Drives (242 KB formatted each)
Printers : 80/132 column 80/150 cps Dot Matrix printer

Software
OS : MPOS-Single-User Disk-based Operating System
Utilities : Sort/Merge, Copy/Dump, Peripheral Interchange, Editor etc.
Languages : BASIC, FORTRAN, COBOL, PASCAL
Packages : Standard Commercial Applications

MMC Digital Systems

MMC 201

Hardware
CPU : 8-bit, Intel 8085, 48KB RAM (Maximum 64 each)
Terminals : One VDU 24x80, Standard Keyboard
Storage : Upto four Floppy Disk Drives (242 KB each)
Printers : 132 column 150 cps Dot Matrix/ 132 column 300 lpm Line Printer

Software
OS : MPOS-Single-User Disk-based Operating System
Utilities : Sort/Merge, Copy/Dump, Peripheral Interchange, Editor etc.
Languages : BASIC, FORTRAN, COBOL, PASCAL
Packages : Standard Commercial Applications

MMC Digital Systems

MMC 401

Hardware
CPU : 8-bit, Intel 8085, 64KB RAM
Terminals : One VDU 24x80, Standard Keyboard
Storage : Upto four Floppy Disk Drives (242 KB each)
Upto four Winchester Disk Drives (10/30/60MB)
One Magnetic Tape Drive
Printers : 132 column 150 cps Dot Matrix/ 132 column 300/600 lpm Line Printer

Software
OS : MPOS-Single-User, Disk-based Operating System
Utilities : Sort/Merge, Copy/Dump, Peripheral Interchange, Editor etc.
Languages : BASIC, FORTRAN, COBOL, PASCAL
Packages : Standard Commercial Applications: Inventory Control (INVCON), Purchase Accounting (PURLED), Sales Analysis (SOP), Financial Accounting (FACPAC), Statistical & Mathematical Packages

MMC Digital Systems

MMC 601

Hardware
CPU : 16-bit, Intel 8086, 128KB RAM (Maximum 1MB)
Terminals : Upto 16, VDU 24x80, Standard Keyboard
Storage : Upto four Floppy Disk Drives (242 KB each)
Upto four Winchester Disk Drives (10/30/60MB)
Upto four Magnetic Tape Drives
Printers : 132 column 150 cps Dot Matrix/ 132 column 300/600 lpm Line Printer

Software
OS : MPOS: Multi-User, Disk-based Operating System
Utilities : Sort/Merge, Copy/Dump, Peripheral Interchange, Editor, Indexed File Management System, Word Processing (MMC TEXT) etc.
Languages : BASIC, FORTRAN, COBOL, PASCAL
Packages : Standard Commercial Applications: Scientific & Engineering Applications (MATHS), Statistical Package (STATPACK); Inventory Control (INVCON), Purchase Accounting (PURLED), Sales Analysis (SOP), Financial Accounting (FACPAC)

MMC Digital Systems

BLUECHIP

Hardware
CPU : 16-bit, Intel 8086/8087, 256 KB to 512 KB
Terminals : 1 Console and 1 Terminal
Storage : Upto two 5 1/4"/8" Floppy Drives
Upto two Micro-Winchester Fixed Drives,
Winchester, Flexible Disk Drives
Printers : Upto two 180 cps Dot Matrix, 300/600 lpm Line/40 cps Letter Quality Printer

Software
OS : MPOS: Multi-User Operating System
Utilities : Copy, Format, Edit, Xfer, Sort, Tape Utility, FCONV, UGEN, LBLR, FORMENTRY MISAM, Word Processor, Data Base, Spreadsheet, Graphics etc.
Languages : BASIC, FORTRAN, COBOL
Packages : Statistical, Financial, Standard Commercial Applications

Microsense Computers Ltd

XL 820

Hardware
CPU : 8-bit, Z-80B, 64KB
Terminals : One 80x25, Standard Keyboard
Storage : Upto four Floppy Disk Drives (1.2 MB each formatted)
Upto four Hard Disk Drives (10 MB each)
Printers : 200 cps Dot Matrix 132 col and 232 col suppressed or 40 cps Daisy Wheel

Software
OS : MSOS Operating System
Utilities : Sort/Merge, ISAM, Word Processing Macro Assembler, Linker, File Manager, DBMS etc.
Languages : BASIC, FORTRAN, COBOL, PASCAL
Packages : Standard Commercial Applications

Microsense Computers Ltd

SCHOLAR

Hardware : Terminal; VDU 25x80, Standard Keyboard with Numeric Keypad; Daisy Wheel Printer 40 cps; Upto four Floppy Disc Drives 1.2 MB each

Software : Standard Features + Graphics Display + Electronic Spreadsheet + Records Processing

Minicomp Pvt Ltd

NEPTUNE

Hardware
CPU : 16-bit, 8088, 128KB (expandable to 768 KB)
Terminals : VDU 24x80, Standard keyboard
Storage : Upto four 5 1/4" Floppy Disk Drives (360 KB)
Second Drive/Hard Disk (80 MB each)
Magnetic Tape Drives
Printers : Dot Matrix/Letter Quality/Graphics/Line Printer

Software
OS : DOS, UCSD-P or CP/M-86
Languages : COBOL, FORTRAN, BASIC

Remarks : Colour Graphics

National Data Systems

NDS-800

Hardware
CPU : 8-bit 8085A, 64K (Expandable to 128 K)
Terminals : Multi-terminal, Upto four VDU 25x80, Standard Keyboard
Storage : Upto eight 8"SSDD, DSDD or eight 5 1/4" SSDD, DSDD Floppy Disk Drives
Upto 4 Hard Disk Drives (10/20/40MB)
Printers : 80 cps/150 cps/180cps/340 cps Dot Matrix, 300/600 lpm Line Printer, 15 cps/40 cps Letter Quality Printer

Software
OS : Single user CP/M compatible
Multi user MP/M compatible
Utilities : OSGEN, Diskcopy, Password, MD copy, Format, Disk Librarian, Data Entry, Word Processing, DBMS, Electronic Spreadsheet, Sort/Merge etc.
Languages : BASIC, PASCAL, MACRO ASSEMBLER, COBOL, FORTRAN

Packages : Standard Commercial Applications + Banking

National Radio & Electronics Co Ltd, The

NELCO 1800

Hardware
CPU : 52 KB Main Memory (expandable to 64KB)
Terminals : VDU 24x80, Standard Keyboard
Storage : Upto 4 SSSD or DSDD Floppy Disk Drives (256KB)
One Winchester Hard Disk Drive (10MB)
Printers : 80/132 column, 80/150 cps Dot Matrix Printer/300 lpm Line Printer/40 cps Daisy Wheel Printer

Software
Utilities : Editor, Loader, PIP, Submit, Format, INIT, Word Processing etc.
Languages : BASIC, FORTRAN, COBOL
Packages : Standard Commercial Applications

Remarks : Floating Point Facility

National Radio & Electronics Co Ltd, The

NELCO 4200

Hardware
CPU : 16/32 bit, Motorola 68000
Terminals : Upto 8 Intelligent Terminals, VDU 24x80, Standard Keyboard
Storage : Disk Storage-10, 25, 68MB capacities
Cartridge Tape Unit (10 MB)
5 1/4" or 8" Floppy Drives
Printers : Letter Quality/Dot Martix/ Line Printer

Software
OS : UNIX
Utilities : Text Editor, Word Processing, Spreadsheet, DBMS etc.
Languages : FORTRAN/77, RM/COBOL, BASIC, PASCAL
Packages : Standard Commercial Applications

Remarks : Electronic Mail, Networking

National Radio & Electronics Co Ltd, The

NELCO 5000/ 5000 Super

Hardware
CPU : 16-bit, 256 KB Main Memory (upto 1 MB)
Terminals : Upto 64 on-line data entry terminals, upto 16 CPU's in a network, VDU 24x80, Standard Keyboard
Storage : Two 8" SSSD Floppy Disk Drives
Upto four Magnetic Tape Drives
One Cartridge Tape Drive
Upto eight Winchester Disk Drives (150MB each)
Total on-line storage 1200 MB
Printers : 150 cps Dot Matrix/300 or 600 lpm Line Printer/Daisy Wheel Printer (40 cps)

Software
OS : 'BEST' (Business Executive System for Time-Sharing) Operating System, Multi-user, Multi-Programmable
Utilities : Word Processing, Report Generation, Print Spooling,
Languages : ASSEMBLER, BASIC, COBOL, APG
Packages : Standard Commercial Applications, QMRP, QICPLAN, HAL, TRANSPAC, PERT/CPM, LP

Remarks : Battery Back-up

National Radio & Electronics Co Ltd, THE

NELCO 6000

Hardware
CPU : 32-bit, 4 MB Memory
Terminals : VDU, 24x80, Standard Keyboard

Storage : Hard Disks (400 MB each)
Printers : Dot Matrix/Line/Daisy Wheel Printer

National Radio & Electronics Co Ltd, THE

MERLIN

Hardware

CPU : Z-80A, 64 KB Memory
Terminals : VDU 24x80, Standard Keyboard
Storage : Two 8" Floppy Disk Drives
Printers : One Dot Matrix Printer

Software
Utilities : Standard plus Word Processing (NELWORD)

OMC Computers Ltd

OMEGA 58000

Hardware
CPU : 32-bit Virtual address, Upto 2 MB
Terminals : Upto 16 Intelligent Terminals, Graphic Terminal, VDU 24x80, Standard Keyboard
Storage : Upto two Winchester Disk Drives (35.6 MB each)
OSDD Floppy Disk Drives (1 MB)
Tape Drives
Printers : Dot Matrix/Line/Daisy Wheel Printers

Software
OS : OMOS
Languages : 'C', PASCAL, FORTRAN 77, COBOL

Remarks : CAD/CAM Packages, Graphics, Local Area Network

ORG Systems

ORG 20

Hardware
CPU : 8-bit, Intel, 64KB of RAM & 16 KB of PROM
Terminals : One 24x80, Standard Keyboard
Storage : Two Floppy Drives (640 KB each)
Winchester Disk Drive of 10 MB can replace one floppy drive
Printers : 160 cps Dot Matrix or 300 lpm Line Printer/Letter Quality Printer

Software
OS : DOS Operating System
Utilities : Menu Facilities, Form Filling, Security, Audit Trail, Automatic Error Recovery, Interactive Data Entry, DBMS etc.
Languages : BASIC, COBOL, FORTRAN, MACRO ASSEMBLER
Packages : Query Language, LP, PMS, Word Processing, Standard Commercial Applications

ORG Systems

ORG 60

Hardware
CPU : 16-bit, 256 KB/512 KB, Error correcting memory
Terminal : Upto 8 Terminals, VDU 24x80 and one status line, Standard Keyboard, Hard copy option
Storage : Upto four Winchester Disk Drives (32 MB)
One Streamer Cartridge Tape Drive (20 MB)
Upto four Magnetic Tape Drives
Upto two Floppy Disk Drives (300 KB each)
Printers : Upto 2 Line Printers 300/600 lpm

Software
OS : MPOS - Multiprogramming Operating System
Utilities : Sort/Merge, Interactive Data Editor, Source Program Editor, DBMS, Standard File Handling Utilities, Job Control Processor, Operation Communication Processor, Terminal Control Processor, Output Spoolers, Job Accounting, IQL etc.

Languages : BASIC, COBOL, FORTRAN, PASCAL, MACRO ASSEMBLER, INTERACTIVE QUERY LANGUAGE
Packages : IBM 1401 Simulator, Linear Programming, Project Management System, Standard Commercial Applications

Remarks : 600 cpm Card Reader, Dedicated 80- bit fast Floating Point Numeric Data Processor

ORG Systems

ORG 330

Hardware
CPU : 8-bit, Intel 8080A 1, 48/64KB RAM
Terminals : VDU 24x80, Standard Keyboard
Storage : Upto four Floppy Disk Drives
Upto four Catridge Disk Drives
Upto two Magnetic Tape Drives
Printers : 80 cps Dot Matrix/300 lpm Line Printer

Software
OS : OS-2001 Disk Operating System (DOS) and Cartridge Operating System (COS)
Utilities : File Management, Sort/Merge, Source Program, Editor, Interactive Data Entry System, Copy, Dump etc.
Languages : COBOL, BASIC, FORTRAN, MACRO ASSEMBLER
Packages : Standard Commercial Applications, Linear Programming, Computer Aided Instruction, Payroll, Financial Accounting)

ORG Systems

ORG 2001

Hardware
CPU : 8-bit, Intel 8080A 1, 64 KB RAM
Terminals : One VDU 24x80, Standard Keyboard
Storage : Upto four Floppy Disk Drives
Upto four Magnetic Tape Drives
Upto four Cartridge Disk Drives
Printers : One 300 to 600 lpm Line Printer

Software
OS : OS-2001 Disk Operating System
Utilities : Sort/Merge, File Management, Source Program Editor, Interactive Data Entry, On-line Debugging Aid, Linkage Editor etc.
Languages : BASIC, COBOL, FORTRAN, MACRO ASSEMBLER
Packages : Standard Commercial Applications, Linear Programming Computer-Aided Instruction, Payroll, 'Financial Accounting

Remarks : Card Printer (600 cpm)

ORG Systems

ORG 80

Hardware
CPU : 16-bit, 256KB Error Correcting Main Memory (expandable to 1MB)
Terminals : Upto 48 Terminals, VDU 24x80, Standard Keyboard, Hard Copy Option
Storage : Upto four Winchester Disk Drives (80 MB/160 MB)
Upto four Magnetic Tape Units
Upto two Floppy Disk Drives
Printers : Upto two 300/600 lpm Line Printers

Software
OS : MPOS-Multiprogramming Operating System
Utilities : Sort/Merge, Interactive Data Editor, Source Program Editor, Data Base Management System, Standard File Handling Utilities.
Languages : BASIC, COBOL, FORTRAN, PASCAL, MACRO ASSEMBLER
Packages : Standard Commercial Applications (IBM 1401 Simulator, LP, Project Management System)

Remarks : Card Reader (600 cpm), Dedicated 80-bit fast floating point numeric data processor

PSI Data Systems Pvt Ltd

ACTION STATION

Hardware
CPU : 8-bit, Z80A, 64KB RAM
Terminals : VDU 24x80, Standard Detatchable Keyboard
Storage : Upto four Floppy Disk Drives (1MB each)
Upto four Winchester Disk Drives (10MB each)
Printers : Upto two, 200/340 cps Dot Matrix to 300/600 lpm Line Printers/ 35 cps Daisy Wheel (Dual Printer Operation)

Software
OS : PSIDOS
Utilities : Sort/Merge, Copy/Dump, DBMS-80-a Network Data Base Management System, PSWORD-Word Processing, File Handling etc.
Languages : BASIC, COBOL, FORTRAN, PASCAL
Packages : Standard Commercial Applications, Graphics

PSI Data Systems Pvt Ltd

DATAWEALTH

Hardware
CPU : 8-bit, Z80A, 64KB (maximum 1MB)
Terminals : Upto 8 on-line Terminals, VDU 24x80, Standard Keyboard
Storage : Upto two Floppy Disk Drives (1MB each)
Upto four Winchester Disk Drives (10MB each)
Upto four Hard Disks (80MB each)
Upto four Magnetic Tape Drives
Printers : 340 cps Dot Matrix to 900 lpm Line Printers/Daisy Wheel Printer (Dual Printer Operation)

Software
OS : PSIMOS-a Password-based Multi-Tasking Operating System with Mail Log-in/Log-out with Accounting, Spooling, Resource Sharing/Locking and File Protection Facilities
Utilities : DATAFAST - Data Entry Software, DBMS-80 - a Network Data Base Management System, PSWORD - Word Processing etc.
Languages : COBOL, FORTRAN IV, PASCAL, BASIC
Packages : Standard Commercial Applications, Graphics

PSI Data Systems Pvt Ltd

OMNI

Hardware
CPU : 16-bit, memory from 256KB to 2MB
Terminals : Upto 20 on-line Terminals, VDU 24x80, Standard Keyboard
Storage : Upto three Removable Hard Disk Drives (upto 80MB each)
Upto two Floppy Drives (512 MB each)
Upto four Winchester Disk Drives (35MB each)
Upto four Magnetic Tape Drives
Upto four Streamer Tape Drives
Printers : Upto 300/600 900 lpm Line Printer, 35/55cps Letter Quality Printer, 160/200/340 cps Dot Matrix Printer (Dual Printer Operation)

Software
OS : PSIX Real-Time, Multi-programming Multi-Tasking Operating System
Utilities : Source Program Editor, Sort/Merge Copy, Task Builder and Linker, On-line Debug, File Management System, Word Processing etc.
Languages : MACRO ASSEMBLER, FORTRAN, BASIC, COBOL
Packages : Standard Commercial Applications

Patni Computer Systems Pvt Ltd

PCS-3001

Hardware
CPU : 16-bit
Terminals : Upto 13, 24x80, Standard keyboard

Storage : Upto two Floppy Drives
Upto eight Magtapes Drives
Upto four Fixed Hard Disk Drives
Upto eight Exchangeable Hard Disk Drives
Printer : Upto two Dot Matrix 35/55/125/150 180/340 cps, Line Printer 300/600/1000/1200 lpm

Software
OS : Real-Time Disk Operating System (RDOS), Multiprogramming
Utilities : Word Processing, Graphics, Sort/Merge, Copy, Editors, Data Entry, File Handling etc.
Languages : BASIC, COBOL, FORTRAN, ALGOL, MACRO ASSEMBLER
Packages : Standard Commercial Applications

Pragati Computers

AL-2016

Hardware
CPU : Z-80B
Terminals : Upto 16, VDU, Standard Keyboard
Storage : Upto four 8" DSDD Floppy Drives (1.23 MB each)
Winchester Hard Disks (upto 1000 MB)
Printer : Dot Matrix/Letter Quality/Line Printer

Software
Languages : FORTRAN, COBOL, PL/1, BASIC

Pragati Computers

AL-2000

Hardware
CPU : 8-bit, Z-80A, 64KB (upgradable to 16 bit)
Terminals : Upto 16, VDU 24x80, Detachable, Standard Keyboard
Storage : Hard Disk (5 to 40MB)
Upto four Magnetic Tape Drives
Upto four Floppy Disk Drives
Winchester Disk Drives
Printers : Upto 16 Printers, 150/280/340 cps Dot Matrix/300/600 lpm Line Printers

Software
OS : ALDOS Operating System (CP/M Compatible), Multi programming, Multi Tasking
Utilities : Word Processor, Automail, Sort/Merge, Data Entry etc.
Languages : COBOL, FORTRAN, BASIC, PASCAL, PL/1, DBMS
Packages : Standard Commercial Packages, Mathematical Package, Software Interface with Phototypesetter, "Decision-Maker 1", Hospital Packages, Payroll, Invoicing, Ledger, Accounts Receivables, Inventory Control

Pragati Computers

AL-800

Hardware
CPU : 8-bit, Z80A, 64KB
Terminals : VDU 24x80, Detatchable, Standard Keyboard
Storage : Upto four Magnetic Tape Drives
Upto four DSDD Disk Drives (1.2MB)
Printers : 80/100 cps Dot Matrix,300/600 lpm Line Printers

Software
OS : ALDOS Operating System (CP/M Compatible)
Utilities : Word Processing, Automail, Sort/Merge etc.
Languages : COBOL, FORTRAN, BASIC, PASCAL, PL/1, DBMS,
Packages : Standard Commercial Applications: Mathematical Packages, Software Interface for Phototypesetters, "Decision-Maker 1", Hospital Packages

Prime Home Computer Pvt Ltd

PHC 99/4A

Hardware
CPU : 16-bit, 16-48 KB

Terminals : 32 or 40x24 Standard Keyboard
Storage : 1-3 Disk Drives Cassette Interface
Printer : Communications & Printer Port Interface

Software
Utilities : Word Processing, Electronic Spreadsheet etc.
Languages : BASIC, PASCAL, LOGO
Packages : Commercial Applications, Educational Uses

Remarks : Built-in Colour Graphics, Animated Graphics, Music, Solid State Speech Capability

Pythagoras Communication Systems Pvt Ltd

SINCLAIR ZX-81

Hardware
CPU : 16KB
Printer : ZX Printer 32 column 50 cps (optional upto 132 column, 250 cps)

Software
Languages : BASIC
Packages : Financial Accounting, Payroll, Invoicing, Inventory Control, Graphics, Word Processing

Remarks : Connnectors for TV and Cassette Recorders

SEAF Computer Products (P) Ltd

SEAF-03M

Hardware
CPU : 8-bit, 64KB
Terminals : One VDU 24x80, Standard Keyboard
Storage : Disc Storage (10 MB)
Upto two Diskette Drives
Printers : 120 cps Dot Matrix

Software
Languages : COBOL, BASIC
Packages : Standard Commercial Applications

SEAF Computer Products (P) Ltd

SEAF-05M

Hardware
CPU : 16-bit, 64KB to 256KB memory
Terminals : Upto 4, VDU 80x24, Standard Keyboard
Storage : Disk Storage 10MB
Upto four Diskette Drives (300KB)
One Fixed Disk Drive (10MB)
Magnetic Tape Drive
Printers : 300 lpm Line Printer, 150 cps Dot Matrix Printer

Software
OS : Multi-user Diskette Operating System (MDOS)
Languages : ANSI COBOL 74, BASIC, PASCAL, APL, FORTRAN-80
Packages : Standard Commercial Applications

Remarks : One Card Reader 800 cpm

SEAF Computer Products (P) Ltd

SEAF-10 M

Hardware
CPU : 16-bit, 64KB
Terminals : Upto 16 Interactive Terminals, VDU 80x24, Standard ASCII Keyboard
Storage : Disc Data Base between 10 MB and 80 MB
Upto four Magnetic Tape Drives
Upto two Diskette Drives
Printers : Upto two Line Printers (max speed 600 lpm)

Software
OS : Real Time Multi-Tasking, Multi-User Disc Operating System (RDOS)
Virtual Memory Single-User Operating System (SUOS)
Interactive Real Time Information System (IRIS)
Virtual Memory Operating System (VMOS)

Utilities : Line Printer Spooling Software, Multi Terminal, Data Preparation System etc.
Languages : Extended BASIC, FORTRAN-IV, ANSI COBOL 74
Packages : Standard Commercial Applications

Remarks : Card Reader 800 Cpm

SEAF Computer Products (P) Ltd

SEAF 20 M

Hardware
CPU : 16-bit, 64KB (maximum 512KB)
Terminals : Upto 24 Terminals, VDU 24x80, Standard Keyboard
Storage : Disc Data Base between 20MB and 200MB with memory expansion upto 256KB
Upto eight Magnetic Tape Drives
Upto two Diskette Drives
Printers : Upto two Line Printers (max speed 900 lpm)

Software
OS : Real Time Disk Operating System (RDOS)
Virtual Memory Operating System (VMOS)
Interactive Real Time Information System (IRIS)
Utilities : Line Printer Spooling Software, Transaction Processing, Multi-terminal Data Preparation System
Languages : FORTRAN-IV, ANSI COBOL 74, Extended BASIC
Packages : Standard Commercial Application

Remarks : Card Reader 800 cpm

SEAF Computer Products (P) Ltd

SEAF-30 M

Hardware
CPU : 16-bit, 64KB (max 512KB)
Terminals : Upto 32 Interactive Terminals, VDU 24x80, Standard Keyboard
Storage : Disc Data Base between 50MB and 2000KB, with memory expansion capabilities upto 2048KB
Upto 16 Magtape Drives
Printers : Upto two Line Printers (max speed 900 lpm)

Software
OS : Real-Time, Multi-tasking Disk Operating System (RDOS)
Virtual Memory Operating System (VMOS)
Interactive Real Time Information System (IRIS)
Utilities : Line Printer Spooling Software, Transaction Processing, Multi-terminal Data Preparation System
Languages : BASIC, FORTRAN-IV, ANSI COBOL-74
Packages : Standard Commercial Applications

Remarks : Upto 2 Card Readers 800 cpm

Sterling Electronics Pvt Ltd

OSBORNE-1

Hardware
CPU : 8-bit, Z80A, 64KB RAM
Terminals : Built-in 5" CRT display for portable use, 12" Video Monitor, Standard Keyboard
Storage : Dual Single/Double Density Floppy Disk Drives (200KB each)
Hard Disk Drive (20MB)
Printers : 55 cps Daisy Wheel Printer/100 cps Dot Matrix Printer

Software
OS : CP/M 2.2 Operating System
Utilities : WORDSTAR & MAIL MERGE Word Processing Software, HELP, FMT, COPY Set Up, PIP SYSGEN, MOVCPM, ASM, DDT, DUMP, LOAD, SUBMIT, XSUB, SUPERCALC etc.
Languages : CBASIC, MBASIC
Packages : Standard Commercial Applications

Remarks : Battery Back up

Sum Electronics

ATLAZ-7

Hardware
CPU : 16-bit, 64KB Main Memory (expandable upto 128 KB)
Terminals : Interactive, VDU 16x64, Standard Keyboard
Storage : 500 KB to 30 MB on Floppy Disk Drives and Micro Winchester, Fixed Hard Disk Drives
Printers : 80/132 col 250 to 350 cps Dot Matrix/300,600,1000 lpm Line Printers

Software
OS : BOSS (Business Oriented Systems Software) Operating System
Utilities : Sort/Merge, Purge, PIP, Word Processing, DBMS, Graphics, Copy, File Handling etc.
Languages : COBOL, BASIC, PASCAL, FORTRAN, AUTOCODER
Packages : Standard Commercial Applications

Sum Electronics

ATLAZ-8

Hardware
CPU : 256KB
Terminals : One/Multiple Interactive, VDU 16x64, Standard Keyboard
Storage : Two Hard Disk Drives
Floppy Disk Drives
Magtape Drives
Printers : 80/132 col 250 to 350 cps Dot Matrix/300,600,1000 lpm Line Printer

Software
OS : BOSS (Business Oriented Systems Software) Operating System, Multi-tasking, Multi-user
Utilities : Sort/Merge, Purge, PIP, Word Processing, File Management etc.
Languages : COBOL, AUTOCODER, BASIC, PASCAL, FORTRAN
Packages : Standard Commercial Applications

Remarks : Card Reader

Sum Electronics

ATLAZ-10

Hardware
CPU : Upto 1MB
Terminals : One/Multi Terminals, upto 64 ATLAZ systems, VDU 16x64,Standard Keyboard
Storage : Over 120MB of Hard Disk Storage in 4 Drives (fixed-removable)
Floppy Disc Drives
Tape Drives
Printers : 80/132 column 250 to 350 cps Dot Matrix, 30/600/1000 lpm Line Printer

Software
OS : BOSS (Business Oriented Systems Software) Operating System, Multi tasking, Multi-user
Utilities : Sort/Merge, Purge, PIP, File Management, Word Processing etc.
Languages : COBOL AUTOCODER, BASIC, PASCAL, FORTRAN
Packages : Standard Commercial Applications

Remarks : Card Reader

Sum Electronics

ATLAZ-11

Hardware
CPU : 128 KB (expandable to 8 MB)
Terminals : VDU 24x80/16x64, Standard Keyboard
Storage : Floppy Disk Drives
(256 KB to 1 MB)
Hard Disk Drives
(10 MB to 160 MB)
Tape Drives
Winchester Disk Drives
Printers : Dot Matrix/Line Printer

Software
OS : BOSS-11 Operating System, Multi-user
Utilities : Sort, Editor, Pip etc, Word Processing, Plan, DBMS etc.

Languages : COBOL, BASIC, PASCAL, FORTRAN, AUTOCODER
Packages : Standard Commercial Applications

Remarks : Networking, Graphics

Sunray Computers Pvt Ltd

EXPLORER

Hardware
CPU : 8-bit, Intel 8085A, 64KB Dynamic Memory
Terminal : Upto four, VDU, Standard Keyboard
Storage : Upto four SSSD/SSDD/DSDD Floppy Disk Drives
Upto four 5/10 MB Winchester Disk Drives
Printer : 80 col Printer 112 cps/Letter Quality Printer/Line Printer

Software
OS : CP/M Compatible, Multiprograming
Utilities : Word Processing, Electronic Spreadsheet, File Handling, DBMS
Languages : BASIC, FORTRAN
Packages : Standard Commercial Applications (Accounts, Inventory Control, Materials Management, Financial and Business Modelling Data Bases)

Sunray Computers Pvt Ltd

UNIVERSE 68

Hardware
CPU : 32-bit, 16MB Direct Addressing, 256KB RAM expandable to 12MB
Terminals : Upto 64 serial ports
Storage : Floppy Disk Drives 1.2MB
Magnetic Tape Drives
Winchester Disk Drives
Hard Disk Drives
Printers : 112 cps Dot Matrix/Line Printers 300 lpm

Software
OS : UNOS Operating System, Real-Time Oriented Facilities, Extended Exception Processing, Process Synchronization, Message Queing, Resource Allocation, Multi Programming, Multi tasking
Utilities : Facilities for Electronic Mail, Terminal Independent Screen Oriented Text Editor, Extended Debugging and Software Management, Word Processing, DBMS, Copy, Sort/Merge etc.
Languages : Programming Language 'C', FORTRAN PASCAL, BASIC, COBOL
Packages : Standard Commercial Applications

Remarks : Colour Graphics

Tamilnadu Electronic Components Pvt Ltd

COLOUR GENIE

Hardware
CPU : 8-bit, Z-80, 32 KB (expandable to 64 KB)
Terminal : One, 40x24
Storage : Cassettes
Upto four 5 1/4" or 8" Floppy Drives
Printers : 120/160 cps Dot Matrix or Letter Quality Printer

Software
OS : Disk Operating System
System
Utilities : Word Processing, Spreadsheet, JCL
Languages : BASIC, COBOL, PASCAL
Packages : Standard Commercial Application

Remarks : Sound Generator
Graphics
RS-23C Interface Hooked to any Television

Technolab Innovex Ltd

GENIUS-I

Hardware
CPU : 8-bit, 8085, 64 KB

Terminals : VDU, 80x25, 74-Key Keyboard
Storage : Upto four 8" DSDD Floppy Drives
Printers : Dot Matrix/Letter Quality

Televista Electronics (P) Ltd

COSMOS

Hardware
CPU : 8-bit, 64KB
Terminals : VDU, 80x24, Standard Keyboard
Storage : Two DSDD Floppy Disk drives (1MB each) (20MB/40MB Hard Disk optional)
Printer : 120 cps Dot Matrix/Daisy Wheel

Software
Utilities : DBMS, Word Processing, Sort, Networking Software
Languages : BASIC, COBOL, FORTRAN
Packages : Standard Commercial Applications

Televista Electronics (P) Ltd

COSMOS-100

Hardware
CPU : 16-bit, 256KB core memory (expandable upto 1MB)
Terminals : Intelligent, upto 16 Terminals, VDU 80x24, Standard Keyboard
Storage : Upto four 8" Floppy Disk Drives (1.6MB Unformatted)
Winchester Disk Drives (20/40/80MB)
1/2" Streamer Tape Drives
Printers : 120/150 cps Dot Matrix, 300/600 lpm Line Printer

Software
OS : Multi-user, Multi programming, Multi-tasking Operating System
Utilities : DBMS, Word Processor, Sort/Merge etc.
Languages : BASIC, FORTRAN, COBOL, PASCAL
Packages : Standard Commercial Applications

Ultra Business Machines Pvt Ltd

AJAX Series: SECRETARIAT, EXECUTIVE SECRETARIAT

Hardware
Terminals : VDU 25x80, Standard Keyboard
Storage : Floppy Drive
Printers : Dot Matrix/Daisy Wheel/Line Printer

Software
OS : Single-user/Multi-user
Utilities : Word Processing (SECRETARIAT), DBMS, Spreadsheet, Graphics etc.

Ultra Business Machines Pvt Ltd

OCTOPUS

Hardware
CPU : 8-bit (enhanceable to 16-bit) 145KB of main memory (expandable to over 1MB)
Terminals : Upto 8 Terminals, VDU 80x24, Standard Keyboard
Storage : Four Floppy Drives (6.4MB) (optional Winchester Disk Drives each with 40MB backed up by Cartridge Tapes each with 20MB or Magtape Drive)
Printer : Upto two 600 lpm Line Printers

Software
OS : Multi-programming Operating System
Utilities : Standard, Word Processing, Spreadsheet, DBMS etc.
Packages : Standard Commercial Applications

Ultra Business Machines Pvt Ltd

ULYSSES (STD & SBC)

Hardware
CPU : 8-bit
Terminals : One Terminal, VDU 80x24, Standard Keyboard

Storage : Two DS Floppy Drives (STD)
Two SS Floppy Drives (SBC)
Winchester Drives
Printers : Dot Matrix, Daisy Wheel, Line Printer

Software
OS : Disk Operating System
Utilities : Standard, Word Processing, DBMS, Spreadsheet etc.
Languages : COBOL, PASCAL, FORTRAN, BASIC
Packages : Standard Commercial Applications

Uptron Digital Systems Ltd

S-850

Hardware

CPU : 8-bit, 8085A 128KB memory
Terminals : VDU, 25x80, Standard, Detatchable Keyboard
Storage : Upto four DSDD DC Floppy Disk Drives (1MB each)
Upto two Winchester Disk Drives (40MB each)
One Magnetic Tape Drive
Printers : Upto two Printers 150/200 cps to 600 lpm (Dual Printer Support)

Software
OS : 'SPEED' Operating System
Utilities : Text Editor, Library Manager, Overlay Linker, HELP, SOFT, Dataform (File Query & Maintenance) Inform (for adhoc enquiry and report generation) Wordform (for word processing) Help Plot (for interactive graphics), Print Spooling/Despooling etc.
Languages : ANSI FORTRAN, ANSI COBOL, Business BASIC, ASSEMBLER
Packages : Standard Commercial Applications

Remarks : 128KB of bit mapped Graphics Memory Data Communication Facility

Uptron Digital Systems Ltd

BUSINESSMATE

Hardware
CPU : 8-bit, 64 KB main memory
Terminals : VDU 24x80, Standard Keyboard
Storage : Two Floppy Drives (1 MB each)
Printers : Dot Matrix/Letter Quality Printer

Uptron Digital Systems Ltd

S-1650

Hardware
CPU : 16 bit, Intel 8086 with Intel 8087 coprocessor; 512 KB RAM, upgradable to 1 MB
Terminals : Upto 16 terminals
Storage : Upto four tape units,
One 8" DSDD Floppy Drive
One 5 1/4" 40 MB Winchester
Printers : Dot Matrix/Line/Daisy Wheel Printers

Usha Microprocess Controls Ltd

EAGLE-II

Hardware
CPU : 8-bit, Z-80A, 64KB
Terminals : VDU 80x24, Standard Keyboard
Storage : Two SSDD 5 1/4" Floppy Disk Drives (780KB)
Printers : 80/132 column Dot Matrix/300 lpm Line Printer

Software
OS : CP/M Operating System
Utilities : Sort/Merge, Copy, ISAM, Spooler, Despooler, Word Processing, Ultracalc, Data Entry, File and Batch Utility etc.
Languages : CBASIC, COBOL, FORTRAN
Packages : Standard Commercial Applications

Usha Microprocess Controls Ltd

EAGLE-III

Hardware
CPU : 8-bit, Z80A, 64KB

Terminals : VDU 24x80, Standard Keyboard
Storage : Two SSDD 5 1/4" Floppy Disk Drives (1.6MB)
Printer : 80/132 column Dot Matrix, 300 lpm Line Printer

Software
OS : CP/M Operating System
Utilities : Sort/Merge, Copy, ISAM, Spooler, Despooler, Data Entry, File and Batch Utilities, Ultracalc, Word Processing, DBMS etc.
Languages : CBASIC, COBOL, FORTRAN
Packages : Standard Commercial Applications

Usha Microprocess Controls Ltd

EAGLE-IV

Hardware
CPU : 8-bit Z80A, 64KB
Terminals : VDU 24x80, Standard Keyboard
Storage : One 5 1/4" Winchester Hard Disk Drive (10MB)
One 5 1/4" Floppy Disk Drive (780KB)
Printer : 132 col Dot Matrix, 300 lpm Line Printer

Software
OS : CP/M Operating System
Utilities : Sort/Merge, Copy, ISAM, Spooler, Despooler, Data Entry, File and Batch Utility, Ultracalc, Word Processing, DBMS etc.
Languages : CBASIC, COBOL, FORTRAN
Packages : Standard Commercial Applications

Usha Microprocess Controls Ltd

EAGLE WORDPRO

Hardware
CPU : 8-bit, Z80A, 64KB
Terminals : One VDU 24x80, Standard Keyboard
Storage : Two 5 1/4" Floppy Drives (390KB each)
Printers : One Daisy Wheel Printer

Software
Utilities : Word Processing

USHA MICROPROCESS CONTROLS LTD

ALPHA AM-1000

Hardware
CPU : 16-bit, 32-bit, MC 68000, 128KB (expandable to 4MB)
Terminals : Upto 64 terminals, VDU 24x80, Standard Keyboard
Storage : 5 1/4" Winchester Drive (10MB, 40MB, 60MB, 400MB)
5 1/4" DSDD Floppy Drive (800KB)
Magnetic Tape Drives
Printers : 300/600/900 lpm Line Printer or 132 col Dot Matrix (more than one) or Daisy Wheel Printer

Software
OS : AMOS/L- Multi-user, Multi-tasking, Time-sharing, Disk-based Operating System, CP/M compatible
Utilities : File Management, Word Processing (Alpha VUE and TXT FMT), Remote Job entry etc.
Languages : Alpha BASIC, COBOL, FORTRAN, DGMS
Packages : Standard Commercial Applications

Remarks : Video Cassette Recorder Interface

Usha Microprocess Controls Ltd

EAGLE JUNIOR

Hardware
CPU : Rockwell 6502/Z80, 64KB RAM
Terminals : Monitor, Standard Keyboard
Storage : Upto two Single-sided Floppy Drive (140 KB)
Printers : Upto two Dot Matrix/Letter Quality Printer

Software
OS : APPLE DOS & CP/M

Remarks : Can be hooked to TV and Cassette Recorder

Wipro Information Technology Ltd

WIPRO Series 86

Hardware
CPU : 16-bit, Intel 8086, 128KB (max upto 1MB)

Terminal : Upto 17 Terminals, Intelligent, VDU 80x24, Detachable Standard Keyboard
Storage : Upto four 8" SSSD,SSD,DSSD,DSDD Floppy Disk Drives
Upto four Winchester Disk Drives (14.5/29MB)
Upto four Removable Disk Drives (80MB)
Upto four Magnetic Tape Drives
Printers : Upto 17, 180 cps Dot Matrix Printer, 300/600 lpm Line Printers /40 cps Letter Quality Printer

Software
OS : DBOS-Data Base Operating System Multi-user, Multi-tasking, Menu-driven
Utilities : Printer Spooling, System Message Logging, File Handling, Sort/Merge, Resource Accounting, Word Processing etc.
Languages : ANSI 74 COBOL, BASIC, DATA BASE QUERY/REPORT WRITER, FORTRAN,DBC
Packages : Standard Commercial Applications Financial Accounting, Payroll, Fixed Deposits, Invoicing, Sales Analysis etc

Remarks : Battery Back up, Graphics

Wipro Information Technology Ltd

B-250

Hardware
CPU : 16-bit, memory expandable to 512KB
Terminals : 5 Intelligent Terminals, VDU 24x80, Standard Detachable Keyboard
Storage : Floppy Drive
Micro Winchester Disk upto 20MB
Printers : Dot Matrix/Letter Quality Printer

Software
Utilities : Distributed Data Processing, Word Processing, Networking etc.
Languages : COBOL, QUERY
Packages : Standard Commercial Applications

Remarks : Battery Back up

Wipro Information Technology Ltd.

Z-650

Hardware
CPU : 16-bit, Intel 8086, 256 KB
Terminals : UPto 17 Intelligent Terminals, VDU 24x80, Standard, Detachable Keyboard
Storage : Winchester Disk
Upto four Floppy Drives
Upto four Magtape Drives
Printers : Upto 17 Printer with graphic option/Letter Quality Printer, Dot Matrix 150 cps 300/600 lpm Line Printer

Software
OS : Scientific Operating System
: Multi user, Multi Programming, Multi Tasking
Utilities : Word Processing, Graphic, Sort/Merge File Handling etc.
Languages : FORTRAN, PASCAL, Scientific BASIC
Packages : Standard Commercial Applications
: Scientific & Statistical Packages, Graphics

Remarks : Dedicated 80-bit Numeric Data Processor for FPA

Wipro Information Technology Ltd

V-750

Hardware
CPU : 16-bit, multi processor, Intel 8086, 256KB
Terminal : Upto 64 Intelligent Terminals, VDJ 24x80, Standard Detatchable Keyboard
Storage : Four Tape Drives
Upto four Floppy Drives
Printers : Upto 64 Dot Matrix 150 cps/Line Printer 300/600 lpm

Software
OS : DBOS Operating System, Multi-User, Multi tasking, Multi Programming

Utilities : Sort/Merge, File Management System, Networking, Word Processing etc.
Languages : COBOL, BASIC, FORTRAN, QUERY, PASCAL, DBL
Packages : Standard Commercial Applications, Business Graphics

Zenith Computers Ltd

ORION-8000

Hardware
CPU : 8-bit, Z80B, 64KB
Terminals : Upto 16 Intelligent Terminals, VDU 24x80, Standard Detatchable Keyboard
Storage : Upto four DSDD Floppy Disk Drives (1.1 MB each) (optional: 2 more 2 DSDD Drives)
One Mag Tape Drives
Upto four Hard Disk Drives (20MB/40MB)
Printer : 150 cps Dot Matrix /40 cps Letter Quality/300 or 600 lpm Line Printer (upto 16 printers local or 2 printers global)

Software
OS System : CP/M: Single-User Operating System
ZDOS: Multi-User Operating System
Utilities : Sort/Merge, ISAM, Text Editor, Despooling, ZID, Word Processing, Data Base Management, Electronic Spreadsheet etc.
Languages : BASIC, COBOL, FORTRAN, PASCAL, PL/1,'C'
Packages : Standard Commercial Applications

Zenith Computers Ltd

SUPERBRAIN

Hardware
CPU : 8-bit, Z80A, 64KB RAM
Terminals : VDU 24x80, Standard Keyboard
Storage : Upto four Floppy Drives (1.1MB)
Upto four Hard Disk Drives (20MB/40MB)
Printers : 150 cps Dot Matrix, 300/600 lpm Line Printer, 40 cps Daisy Wheel Printer

Software
OS : CP/M Operating System
Utilities : Sort/Merge, Text Editing, ISAM, Despooling, Symbolic Debugging, DBMS, Word Processing etc.
Languages : COBOL, BASIC, FORTRAN, PASCAL, PL/1
Packages : Standard Commercial Applications

Zenith Computers Ltd

SUPERSCRIBE

Hardware
CPU : 8-bit, Z80A, 64KB high speed static RAM
Terminals : VDU 24x80, Standard Keyboard
Storage : Two Floppy Disk Drives (243KB each) (optional 2 DSDD Drives with 1200KB each)
Printer : 35/45 cps Daisy Wheel Printer

Software
Utilities : Word Processing etc.

Zenith Computers Ltd

ZENITH-SC

Hardware
CPU : MC-68000, 16/32 bit, upto 16 MB
Terminals : Multiple, VDU 24x80, Standard Keyboard
Storage : Floppy Disk/Winchester/Tape Drive
Printer : Dot Matrix, Line, Daisy Wheel Printer

Software
OS : ZEUNIX, Multi-user, Multi-tasking

Utilities : Electronic Spreadsheet, Word Processing, Text Editor, Copy/Dump/Backup/Restore/Move, File System Management, Message Utility, Mail Box, Spooling, Mode, Find etc.
Languages : COBOL, BASIC, FORTRAN-77, PASCAL
Packages : Standard Commercial Applications, Scientific, Statistical

Remarks : Colour/Monochrome, High Resolution Graphics, Local Area Networking

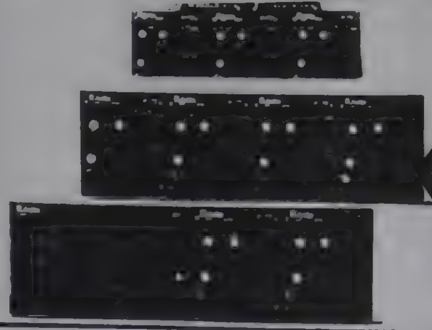
Seeing is believing . . .
DATA ACQUISITION INVOLVES MORE THAN CAPTURING & STORING NUMBERS



- more no. of channels : upto 4096
- more speed : upto 100 MHz/channel
- more computational power : wide choice of standard software
- more flexibility : parallel channels without scanning
- more output capability : wide choice of output peripherals like plotters, printers.

For any dedicated application of data logging or data acquisition from 1 to 4096 channels, with speeds of upto 100 MHz per channel & data storage memory of upto 32 K bytes, application support is there for the asking. And of course a wide library of software routines for your custom requirements.

MATCHES THE BEST IN THE WORLD

Data Preparation Equipment

Aurelec Data Processing Systems

KTF-80

Key-to-Floppy Data Entry Station

DCM Data Products

DATEN/9

Data Preparation Machine
- 40 Character display
- Data Entry into Floppy Disk
- Option of Dual Operator Stations
- 4 modes: Enter/Verify/Search/Update
- 26 function keys
- 36 data keys
- IBM 029 Key-disposition
- Flexible Record Length

Features : Programmed Entry, Auto Skip, Auto Dupe, Auto left Zero, Audio Alarm, Power Fail Auto Restart

DCM Data Products

DATACON/85

Converts data from Floppy Disk to Magnetic Tapes
- Option of several recording modes (7 track 556 bpi NRZI; 9 track 800 bpi NRZI; 9 track 1600 bpi PE)
- Hardware: CPU, one Floppy Disk Drive, one Console Keyboard, one Magnetic Tape Drive, one 132 column 165 cps Dot Matrix 300 lpm Line printer

Full Daten/9 Keystation Capability

Electronics Corporation of India Ltd

SYSTEM 1200

Multiterminal Data Entry System
- Can enter, verify, validate, consolidate, and process data from 32 terminals simultaneously
- Data entered on a large on-line disk storage unit
- Full screen VDU at each terminal
- Data processing with the aid of BASIC language

Upto 12 key stations
Supports 2 nos 7 track/9 track 800/1600 bpi Magtape Drives

Electronics Corporation of India Ltd

DE-5802

Off-line key-to-Floppy Data Preparation System
- Intel 8080/8085 based

- Can do :data preparation, validation, hashtotalling and sorting
- Can be used with a printer

Hindustan Computers Ltd

DATA 7500

Off-line Key to Minidiskette data entry unit
Compatible with HCL System 2 and HCL System 4

- Processor:Dual Processor based on INTEL 8080A and FAIRCHILD F-8
- Display :20 Character, green fluorescent 5x4 dot matrix display with 3 digit cursor
- Keyboard :Standard + numeric, edit and command keys
- Mini Diskette :5.25". 80.64 KB capacity, transfer rate 15.65 KB/Sec access time 620 m sec, rotational speed 300 rpm
- Tape Drive :No of tracks 7/9; Reel diameter 7"; reel capacity 600 ft, Tape width 0.5"; Coding scheme BCD/EBCDIC/ASCII Recording Density 556/800/1600 bpi; Tape speed 18.75/25 ips
- Printer :(a) Unidirectional Dot Matrix 60 cps
  (b) Bidirectional Dot Matrix 180 cps
  (c) Line Printer 300/600 lpm
- Features :Leading/Trailing Zero Fill, Keyboard Buffer, Auto mode, Frormatting, Multiple Formats, Multiple Buffers, Save, Repeat, Corrector, Record Transfer, Character & Record Manipulation, Multiple Data Files. Also Data Validation and Data Search Features.

International Computers Indian Manufacture Ltd

OFF LINE

Off-line Data Entry Terminal

Kerala State Electronics Development Corporation Ltd

VERSADES

Key-to-Floppy Data Entry System
- Microprocessor-based

MMC Digital Systems

MMC-021

Off-line Data Entry System
Data entry into a diskette, transferred to the computer using serial communication link.
  -Single line 20 Character display

Data Entry Features
  -format chaining upto a maximum of 4 formats
  -Creation of multiple data files
  -Unformatted entry of data
  -Display of record number, cursor position and error number
  -Location of error condition by radio alarm and key board locking

Provision avaliable for printer and tape interface.

O/E/N Micro Systems Ltd

DT : 1000

Off-line Data Entry Terminal
Microprocessor based
- Display : 32 coloumn
- Keyboards : Detachable Standard, with Numeric, Command and Control keys
- Data entry: into 8" SSSD Floppy Disks
- Features : Multiple format definition, format chaining, character editing, file editing, disk initialization
- Optional CRT display

O/E/N

Off-line data entry system for DEC/PDP/VAX Systems

CRT Terminal with a floppy attachment enables entering, storing, listing, editing and subsequent transmitting or restoring of programs in BASIC, FORTRAN and PASCAL

Terminal has a keyboard, 80x24 formatted VDU, 8" floppy with the IBM 3740 format.

ORG Systems

ORG-10

Input Preparation System
16 KB memory, One Terminal 12x80 with keyboard, One Floppy Disk Drive
Supports Source Program Editor, Interactive Data Entry System etc.

ORG Systems

ORG-310

Offline Data Entry Unit
1/6 KB Memory

Terminal: one 24x80 with keyboard,
One floppy disk drive
Can do Data Entry, Verification, Search and Updation of Records. Several auto feature like auto duplication, auto sequence etc. Checks like hash totals, check digits

Ultra Business Machines Pvt Ltd

KRONOS Series : KRONOS-SA, KRONOS-MTD

Data Preparation System for
- -Data entry
- -Storage
- -Editing

Options
- -Stand-alone key-to-disk preparation system, with an optional printer

Uptron Digital Systems Ltd

D-10A

Off-line Data Entry System
* Keyboard : ASCII, 36 data keys, 6 mode keys, 11 cursor control keys, 14 additional control & editing keys
* Display Size : 16 character rolling display
* Diskette : 8", 256 KB formatted capacity, record size 128 bytes, Transfer Rate 31.25 KB/Sec, Rotational speed: 360rpm, Average access time 260 ms
* Features : Audiovisual Error Indication, Automatic Keyboard Locking, Examine Facility, Updating Facility, Auto Recording Advance, N Key Roll Over, Power Fail Auto Restart, Repeat Key

* Remarks : IBM 029 compatible

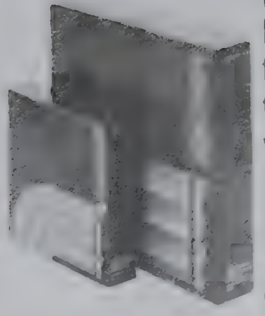
Uptron Digital Systems Ltd

D-20A

Supervisory Data Preparation System
Keyboard : ASCII, 36 data keys, 6 mode keys, 11 cursor control keys, 14 additional control and editing keys
Display Size : Full 20x80 character VDU
Diskette : 8"
Features : Auto-duplicate, Auto-skip, Auto-advance, Auto-Increment, Unconditional By-pass, Verify By-Pass, Check Digit-Generation, System Generated Fields, Down & Cross Fooling, Hash Totalling, Auto-balancing, Editing & Search, Power-Fail Auto-Start.

Remarks : IBM 029 compatable

Trust Memorex to keep your words.



Depend on Memorex® flexible discs for all your word processing jobs. They last longer.

Their stiff, glue-sealed jackets are totally bonded for extra strength and durability – and they load easier the first time, every time.

In addition, our ultra-smooth disc surface protects both the disc and the disc drive heads from wear to give more dependable performance.

The Memorex emphasis on strength and endurance helps save you time and money. You can depend on Memorex flexible discs to make your job easier.

Our discs fit all applications. Whether you use 5¼" or 8" one side or two, single or double density, we test them all and send them to you certified 100% error-free.

For importing Memorex Flexible Discs write to Perlink India, E-1/16, Darya Ganj, New Delhi-110 002.

CHIPS

Microprocessor and other Memory chips. Also, TTL, CMOS, LINEAR & other IC's.

For most competitive rates, contact BR Enterprises.

World-class quality! Widest range of all!

Kores Computer Ribbons for the sharpest, clearest printouts. Now in Cassettes too!

Backed by 50 years' tradition of innovative technology, Kores Computer /Line Printer Ribbons suit all types and makes of Line, Dot-Matrix, Daisywheel and Latter Quality Computer Printers.

Tough, heavy-duty film and nylon/silk ribbons withstand extra stress of high-speed machines. Winding precision ensures optimum ribbon tension.

Special inks enable ribbons to regenerate quickly and give sharp impressions over a much longer service life.

Highly reliable moulded cassettes of high-impact plastic.

Yes, sharp results, smooth feed, trouble - free performance. Consistently assured by the well-known Kores quality control.

So switch over to Kores Cassette Ribbons right away. No matter what your specific requirement, you'll always find Kores Ribbons readily available.

Remember. Kores Computer Ribbons are compatible with OEM Standards!

Constellate Consultants (P) Ltd
505 Vishal Bhavan, 95 Nehru Place,
New Delhi-110019
Phone:6417015 Cable: DECISIVE

To win you over, we've eliminated the headache of the old central air conditioning system...

3-tonne Triomatic.
With the US-made
Tecumseh compressor.

So no more water, plant rooms, cooling towers, high maintenance and electricity bills etc. etc.

What you are looking at is the Fedders Lloyd Triomatic-India's only mini central air conditioning system.

It's a 3-tonne system. And it cools larger spaces much more effectively (and economically) than conventional package units can.

And at the same time it cuts out the usual problems of a central air conditioning system as well. For instance, it doesn't use even a single drop of water. And it doesn't need a plant room or a cooling tower. (So it automatically saves you the trouble of getting permission from the landlord and the municipal authorities).

And since it doesn't need a special plant room (it is simply suspended from the ceiling), it saves you so much valuable floor space.

What's more, it doesn't need a special maintenance man or plant operator either. (Have you noticed how their salary rates are soaring these days?)

By installing multiple units of Triomatic, you actually save on power. Because it gives operational flexibility and you can be sure that there will never be a complete breakdown of air conditioning at any given time.

A US-made Tecumseh compressor. For near 100% reliability. And 30% power savings.

The Triomatic is fitted with a single 3-phase Tecumseh compressor-acknowledged to be the world's finest. So you get virtually 100% reliability. Year after year. And 30% power savings (because it's a 3-phase compressor).

No one else can offer you anything like the Triomatic. It's yet another example of how we go to great lengths to meet your needs. Because we know, after all, that is the only way to win you over.

Also available on concessional excise duty terms for select institutions.

graphisads/5295

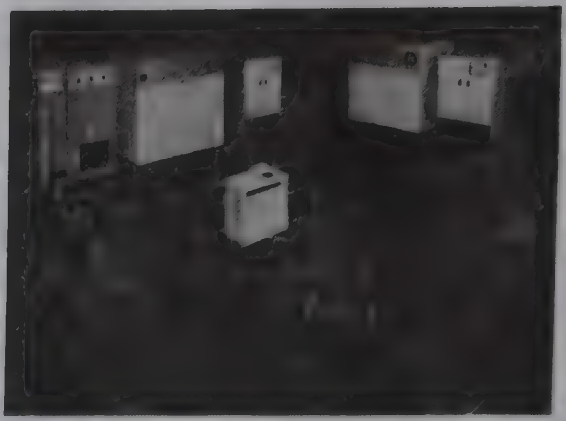
COMPUTER SUPPORT SYSTEMS

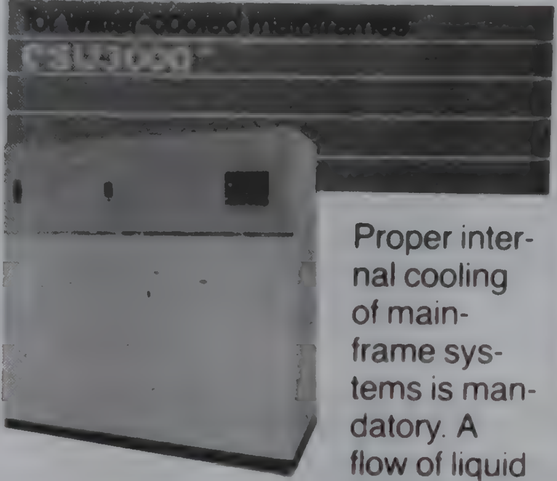
For maximum performance and availability, today's advanced data processing systems require support systems that offer precision, reliability, cost-effectiveness and flexibility. ■ Liebert computer support systems create that essential support envelope to protect and enhance your data processing investment. The Liebert approach is unique in offering a single source for a completely integrated computer support network of environmental control and electrical power protection systems along with centralized monitoring and control.



Ultramatix can provide you consultancy for Data Centre Design and also support you in selection, installation, commissioning and maintenance of computer support systems.

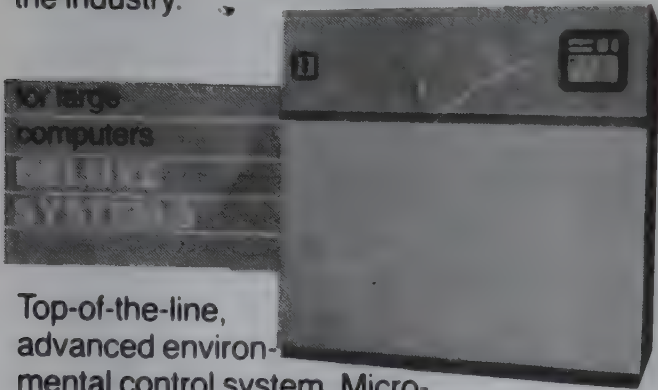
Environmental Control

The computer environment is special. It requires precise control of temperature, humidity and air filtration–all maintained within extremely tight tolerances. Liebert environmental control systems provide twice the sensitivity of competitive equipment—plus the highest reliability and lowest operating costs in the industry.



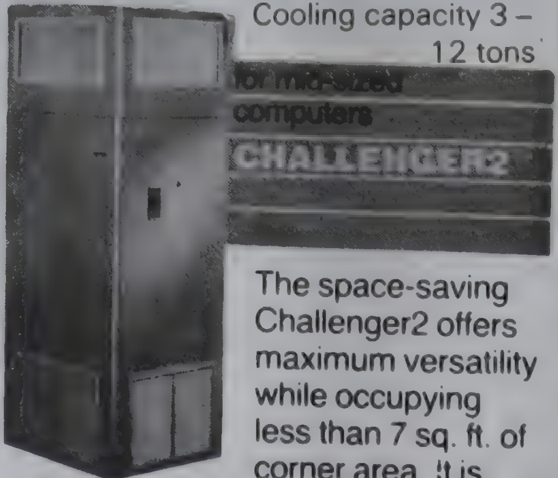
Proper internal cooling of mainframe systems is mandatory. A flow of liquid coolant at critical temperatures must be maintained constantly because the slightest interruption will result in very costly downtime. The CSU3000 chiller has been developed to meet these liquid cooling needs. It is a dual module system that offers 100% redundancy and automatic switchover combined with the precision and reliability of solid state components—a fail-safe system with minimal operating costs.

Cooling capacity 3 – 12 tons



Top-of-the-line, advanced environmental control system. Microprocessor-based, software-driven capabilities offer excellent operating efficiency and adaptability for programming an environment to meet specific needs. Highly reliable and efficient components include semi-hermetic compressors, interwoven coil circuitry and infrared humidifier. Patented Glycool™ option delivers cooling without compressor operation. Communication with the Liebert Sitemaster provides complete monitoring as well as remote control of key setpoints and sensitivity ranges.

Cooling capacity 6 – 35 tons

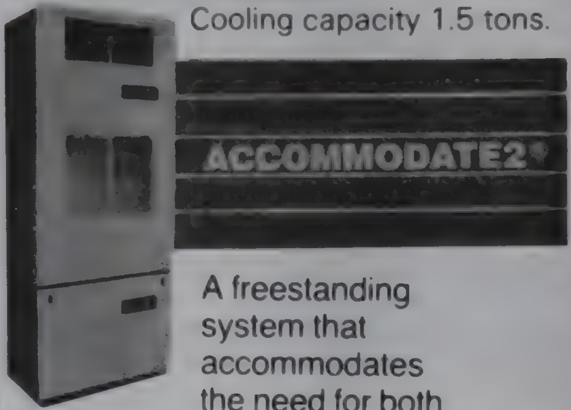


The space-saving Challenger2 offers maximum versatility while occupying less than 7 sq. ft. of corner area. It is available in 3 and 5 ton capacity in an upflow or downflow configuration.

Cooling capacity 3 – 5 tons.

A spotcooler allowing growth in environmental control to match growth in the minicomputer system. Recessed overhead mounting fits within the 2′ x 4 opening of a standard ceiling tile. Each unit is completely self-contained for ductless installation.

Cooling capacity 1.5 tons.

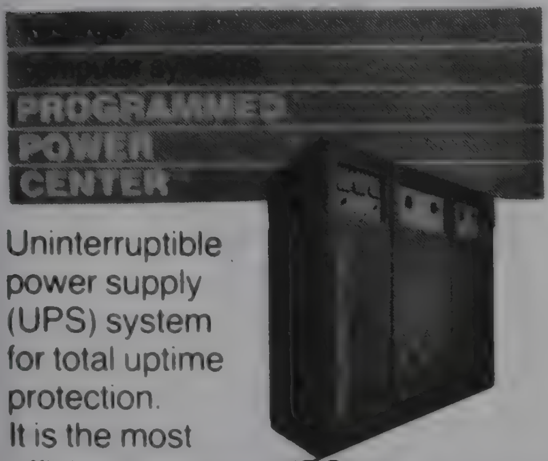


A freestanding system that accommodates the need for both precision environmental control and power conditioning. The vertical configuration occupies only 4½ sq. ft. of floor space. This is the only system on the market today that provides precise control of environment *and* power conditioning . . . in a single package.

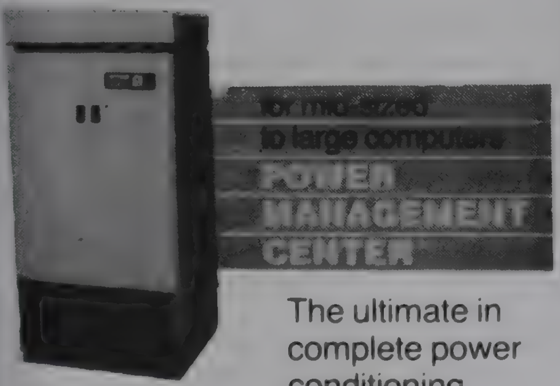
Cooling capacity 2 tons
Power capacity 7.5 and 10 KVA.

Power Protection

Dependable, clean electrical power is the lifeblood of the computing process. Liebert power protection systems offer a complete range of capabilities that includes power back-up, conditioning, distribution, control and monitoring.



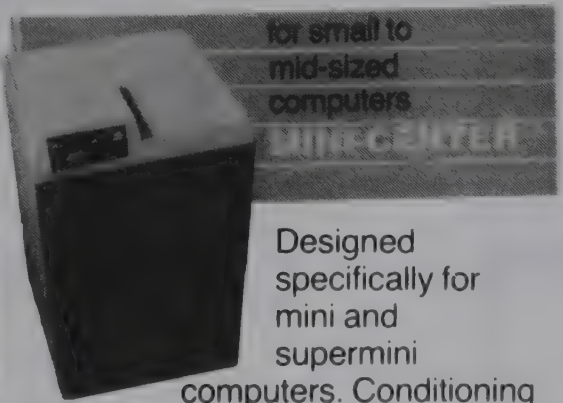
Uninterruptible power supply (UPS) system for total uptime protection. It is the most efficient, compact UPS system available. Outstanding reliability is backed by the industry's shortest Mean-Time-To-Repair and longest Mean-Time-Between-Failure ratings. Frequency converter system is also available for 415 Hz mainframe applications and 50-60 60-50 Hz conversions.
Power capacity : 50 – 1000 KVA.



The ultimate in complete power conditioning, distribution, control and monitoring. Exclusive Datawave® power regeneration offers exceptionally efficient, reliable and cost-effective conditioning. Flexible, quick-connect cables with up to 126-pole circuit capacity provide total power distribution capabilities. Control features include full circuit breaker protection, emergency power-off switch, ground fault interrupt and phase rotation/loss protection. Monitoring with the Liebert Sitemaster system guarantees constant surveillance of all critical computer support functions.
Power capacity : 10 KVA to 125 KVA.

for mid-sized to
large computers
PRECISION
POWER
CENTER

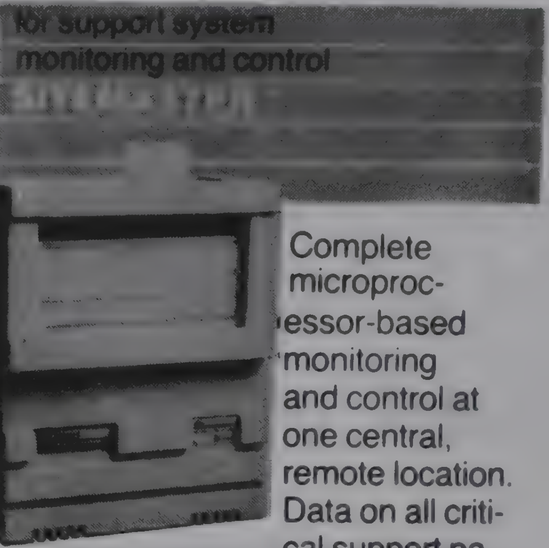
Increased capabilities to support larger installations. Isolation transformer technology with lightning arrestor and transient suppression provide clean, dependable power. Powerboost option gives additional protection during brownouts. Quick-connect cables with up to 126-pole circuit capacity offer total distribution flexibility. Monitoring features include digital display of volts, amps and kVA. Emergency power-off switch and complete circuit breaker protection are key control features.
Power capacity : 15 – 225 KVA.



Designed specifically for mini and supermini computers. Conditioning is accomplished through isolation transformer technology plus lightning arrestor, transient suppression module and single-point grounding. Quick-connect cables (or flush-mounted receptacles) with up to 60-pole circuit capacity offer maximum distribution flexibility. Digital voltage display, transformer overtemp alarm, emergency power-off switch and full circuit breaker protection provide complete monitoring and control.
Power capacity : 15 – 50 KVA.

Monitoring / Control

Centralized, standalone monitoring and control capabilities are the focal point of the total computer support network. Complete data on all support parameters as well as remote control functions create an automated, intelligent computer support system.



Complete microprocessor-based monitoring and control at one central, remote location. Data on all critical support parameters are constantly scanned, analyzed and reported for environmental control and power conditioning systems. Audible and visual alarms instantly alert data center personnel to potential problems. Temperature/humidity setpoints and sensitivity ranges can be remotely controlled. Line Disturbance Analyzer and hardcopy printer options round out a total approach to support system monitoring and control.

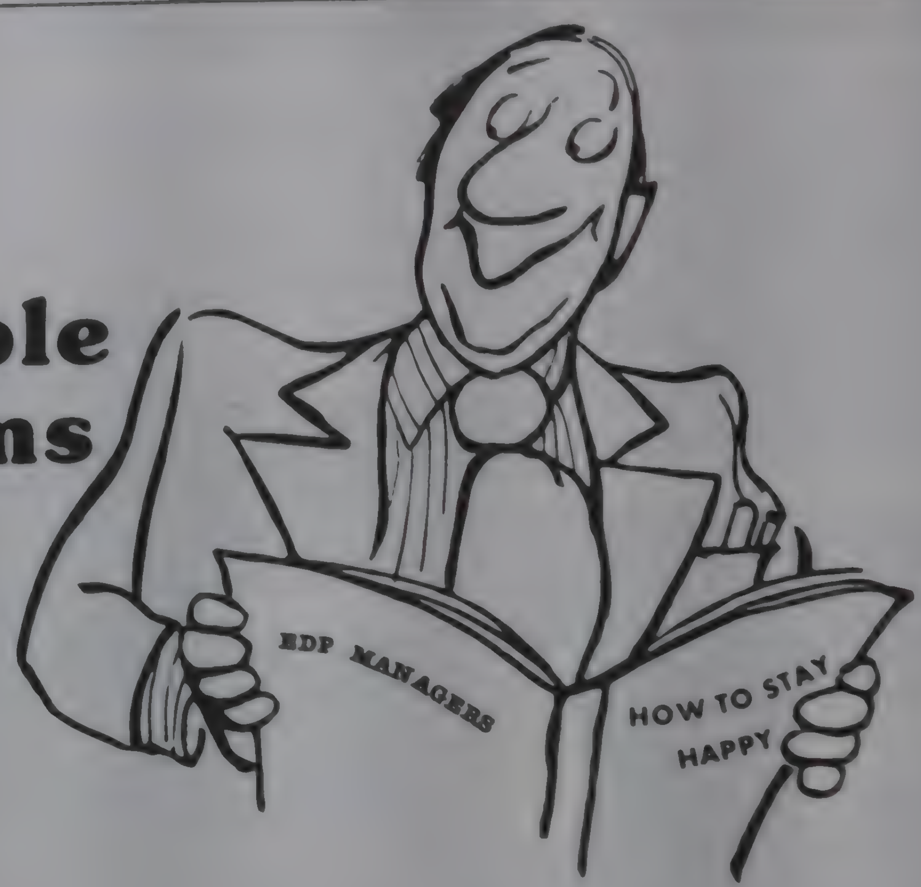
GOULD
Electronics

Uninterruptible Power Systems (UPS) Keeps your computer in power .... And you ....



GOULD
UNINTERRUPTIBLE

GUIDE FOR A SMART EDP MANAGER

When your power fails, you need an UPS, that won't. Because blackouts do more than leave you in dark They leave your computer without a memory. Gould technology brings you an UPS that keeps your computer running, smoothly throughout blackouts brownouts, spikes & surges. In short, any disturbance on your power line.

Gould UPS will always keep you in power because their designs are simple – designs that use minimum number of conservatively rated parts. That means fewer parts to break down and fewer to keep up The result of this simple logic is an MTBF exceeding 100,000 hours. And Gould uninterruptible power systems are available in ratings from 500 VA to 45 KVA.

Gould also offers a wide selection of batteries including Lead Calcium, Nickel Cadmium, Gel-Cell & Packaged batteries. Other features include Remote Status Display Panel, Microprocessor – based Digital Information System, Intelligent Static-Transfer Switch & Mechanical bypass switch

Gould UPS's have already been installed in India and are working to utmost satisfaction at many places

Gould also offers other power line protection equipment such as AC Line Conditioners, Static Invertors, Super Isolation Transformers & Constant Voltage Transformers to suit your exact needs

So, if you need an UPS you can count on under any conditions, put Gould to work. And discover the power of simplicity

The client list includes

- **NTPC KORBA SUPER THERMAL POWER STATION**
- **D.C.M. NEW DELHI**
- **HOTEL TAJ PALACE NEW DELHI**
- **BHABA ATOMIC RESEARCH CENTRE**
- **AMERICAN CONSULATE NEW DELHI**

Usha Telehoist gives new dimensions to casting technology

Barotiwala Industrial Complex, Himachal Pradesh. The site of a modern, mechanised foundry. Installed capacity: 3600 TPA, for the production of Grey Iron and S.G. Iron castings.

The name behind it: Usha Telehoist with technology from the world renowned foundry of Hamworthy Engineering, U.K.

Usha Telehoist, already a leading name in precision industrial hydraulics with products such as special Hydraulic cylinders for earthmoving industry, steelplants and irrigation, Tipping gears, Hydraulic Pumps and Valves for earthmovers and agricultural tractors, Mine roof supports, High pressure water jetting pumps for industrial cleaning purposes, etc.

Highlights of the foundry include a 3.2 T induction furnace with a spare crucible, mechanised sand plant and moulding line, shell core shooter, modern core making facilities, advanced automatic shot blasting machine, a well equipped laboratory for chemical (instantaneous carbon and silicon analyser), metallographic, physical and sand testing.

For your castings, it means precise dimensions, exact composition and micro structure for the desired physical properties and low rejection rate.

Castings poured to your specifications, with the Usha Telehoist stamp of excellence, and schedules you can count on - There Are No Power Cuts In H.P.

From Usha Telehoist.

CSPL

THE PROMISE IS IN OUR NAME THE PROOF IN OUR PERFORMANCE

OUR SERVICES

We can identify and computerise any of your application and functional areas to meet your information needs

- Finance • Accounts • Sales
- Order Processing • Inventory Control • Payroll • Fixed Deposits
- Share Issues & Transfers
- Branch Accounts Reconciliation
- Costing • Optimisation by Linear Programming

OVERSEAS AND IN INDIA

We render services that solve some of the most pressing DP problems

- Software development for new applications
- Moving over to on – line applications
- Coping with escalating software maintenance
- Software conversions to smoothly tide over hardware changes
- Software package customization

OUR RESOURCES

We own a large fourth Generation computer system backed by a team of dedicated, experienced computer professionals with diverse academic backgrounds from leading universities in India and abroad

Our customer base extends to various fields in business and industry

- Banking • Fertilizers & Chemicals • Rubber & Tyre Mfg.
- Petroleum & Oil Distribution • Chain Stores
- Engineering Design & Fabrication • Airlines.

A trusted name for proven computer services

DIRECTORIES OF COMPUTER SOFTWARE APPLICATIONS

Cut your programming costs with high-quality, economical software programs and documentation. The DIRECTORIES OF COMPUTER SOFTWARE APPLICATIONS provide you can access to a wealth of U.S. Government generated software.

The Directories are available in the following 28 subject fields
* Energy * Civil and Structural Engineering * Minicomputers and Microcomputers * Environmental * Economics and Business * Library & Information Sciences * Transportation * Chemistry * Physics * Behavior, Training & Education * Oceanography * Administration & Management * Urban & Regional Technology & Development * Electrical & Electronics Engineering * Atmospheric Sciences * Aeronautics, Aerodynamics & Aircraft Systems Design * Medicine & Biology * Natural Resources & Earth Sciences * Navigation & Guidance * Communications * Health Planning * Agriculture & Food * Biomedical Technology & Human Factors * Mathematics * Marine Engineering * Astronomy & Astrophysics * Space Technology * Detection & Countermeasures

Price: Rs. 905.20 (Price subject to change)

Here's how to get the programs and documentation you need:

- Choose and order the directories from the above list.
- Review the abstracts in the directories and order the reports containing the actual programs and/or documentation you need.
- Modify and apply the actual program (s) contained in the reports you receive, or use the documentation provided to substantially reduce your programming and testing time.

Send your order/enquiries to

DIAMOND CEMENT
is extra strong and has a quicker setting time ....

are the comments of MR. SAHIAR, Resident Engineer of Bharucha & Motivala, a firm of leading Contractors. He adds: "Diamond Cement is so favourably accepted by my clients because of its reliability and super strength to hold its own under any conditions, that I always prefer Diamond Cement for all our construction work.",

For your information
Here's a computer magazine whose outputs you count can on!

The order of the day

Today, in the eighties, with computer applications making a greater and greater influx into your day today activity there is a need for you to take on the responsibility of learning and keeping yourself informed about computers.

The Answer:

A magazine needs to orient itself around a visible objective and for PLUS that objective is very visibly, computer education. We are not talking about classroom education or matter-oriented education. There is plenty of that already.

What we mean is a level of understanding and appreciation of computers and the related areas of information technology (a wide-ranging term that encompasses the collection, generation, communication, recording, manipulation and exploitation of all forms of information) that would be the equivalent of an ongoing education in the broadest sense.

Each issue of PLUS will be a memorable educational experience. Worth reflecting over and worth returning to over the years.

As an ongoing computer education medium PLUS the total computer magazine is in a class by itself. A class that you would surely love to attend, no matter what your age is, and no matter what your occupation.

WORKING WITH WORDS ?

Accurate, technical translation may be closer and cheaper than you think ....

Try THE Translation Services

In any industry, accurate translation of technical documents can be vital to successful exporting. National legislation, regulations or standards need to be studied, and even a small misunderstanding can be very expensive.

For many exporters, these technical documents are used to ensure that the products comply with the necessary specifications and they therefore need to be clear, precise and unambiguous for interpretation by technical staff.

Technical Help to Exporters, a service of the British Standards Institution, provides a fast, accurate technical translation service into English of any nationally significant technical document. Translations can be done from any language at reasonable cost, and THE can also check its current validity.

- Translators are chosen for their technical discipline as well as their linguistic ability
- Translations are supplied as photocopies of typescript and include all diagrams, charts, graphs etc.
- Quotations, delivery and timescale supplied in advance
- BSI members are entitled to discount prices on translation services as a benefit of membership

Before commissioning a translation, check that THE does not already hold the document in English. More than 6,000 foreign regulations, standards and codes of practice are readily available in English and this aspect of the service could save you both time and money.

If you are interested in THE s translation services, contact

Asia's number one computer directory

Asian Computer Yearbook 1984

Eighth year of publication
23cm x 28cm x 5cm
882 pages

Order your copy of Asian Computer Yearbook 1984 today

Size, growth rate of the computer industry in Asia, 8,267 listings, all in one volume.

Asian Computer Yearbook 1984 provides you with the most comprehensive, up-to-date source of information on the computer industry in Asia.

The Yearbook gives you — in one volume — a complete picture of the size and growth rate of the computer industry in 13 countries in Asia

Revised and expanded, the eighth edition is designed to meet the information needs of management by providing

* Profiles of 3,122 companies supplying services and products to the computer industry
* Profiles of 5,145 companies with computer installations
* A total of more than 8,267 listings covering 13 countries
* The growth rate of the industry in 13 countries during the last 12 months

New in this issue: more countries, more listings

* Pakistan — a new country added to the directory section
* 2,467 new entries added since the previous issue

And more

A review of the computer industry in Asia by the editor, Euan Barty

An editorial section including articles by DP experts who are leaders in their field

Here's why you'll find yourself referring to the Yearbook again and again

Asian Computer Yearbook delivers essential data you need to know about the computer industry in Asia

No other publication provides such a comprehensive survey of the computer industry in Asia

You'll find yourself referring to the Yearbook frequently

Asian Computer Yearbook saves you time and money

It is an investment that will pay for itself again and again

MASSMAIL—A Cost-Effective Promotion Option

20TH CENTURY

When you think of Computers
think Leasing

*Why buy a Computer? Lease it.
You need to retain the options in expanding the
system, upgrading the system and ultimately changing.
the system. Leasing provides you all these options and more
at an acceptable cost.*

*Providing these options are what
we are good at; and we do it fast.*

*We lease not only Computers but also
plant and equipment and office equipment.*

*If you would like to know more about
the possibilities of leasing write
to us about your needs.*

Leasing is our Business.

DEPARTMENT OF ELECTRONICS

Lok Nayak Bhavan, Khan Market,
New Delhi-110003

The Department of Electronics, set up in 1970, is the executive arm of the Electronics Commission constituted in February 1971. It is charged with the responsibility of implementing the policies and decisions of the Commission by interacting with other government ministries/departments and organisations which are the major users in the area of electronics.

The responsibilities of the Electronics Commission/Department of Electronics include a wide range of activities like:

- collection of information, analysis and planning
- technology development
- direct execution of project programmes
- promotional activities like coordinating the users, R & D and production agencies
- supporting appropriate manpower development programmes
- giving entrepreneurial guidance
- using regulatory measures such as import clearances and industrial licensing to orient user needs towards domestic suppliers and to ensure a vital broad based and self-reliant production structure for the industry.

For providing information and analytical support necessary for policy formulation, the Electronics Commission has constituted the Information Planning and Analysis Group (IPAG) which plays a vital role in the perspective planning and retrospective appraisal for various activities of the Department of Electronics.

The Department has been instrumental in promoting appropriate computerisation through Regional Computer Centres at Calcutta, Pune, Roorkee and Chandigarh and through National Informatics Centre at New Delhi and National Centre for Software Development and Computing Techniques at Bombay. To cater to the increasing requirement of trained manpower, the Department of Electronics has also launched special programmes and B. Tech/M. Tech level training programme in computer science in Universities and Colleges.

NATIONAL INFORMATICS CENTRE

Electronics Commission, Pushp Bhavan,
Madangir Road, New Delhi-110062
Phone: 660104 Cable: IPAGELCOM
Telex: 031-4741

This centre has the responsibility to assist the user Government departments/ministries and autonomous organisations in the development of computerised information systems. To achieve this, NIC has established an intracity computer network in Delhi, by connecting several minicomputer terminals to the host Cyber computer system using leased telephone lines and radio

(VHF) frequencies. With a view to build up an intercity network, NIC has also successfully conducted the Delhi-Ahmedabad satellite data communication experiment, using APPLE satellite. The total number of organisations availing NIC's services are over 50.

NIC's activities are divided in the following fifteen areas:

1. Systems Management Group: This Group is responsible for terminal installation, planning, resource accounting and computing resources mobilisation for NIC users. SMG maintains continued computing services to NIC users through Cyber and the terminals installed in various ministries/departments of the Government in Delhi.

2. Network and Communication Group: The Group is involved with computer interconnections to the host Cyber through telephone lines, wireless (VHF), and satellites.

3. Software Management and Training Group: The major activities of the Group are centered around providing systems software support for host Cyber computer system and conducting training programmes for government departments.

4. Governmental Archival Information Management Group: The Archival Information System contains macro information about Industries, Agriculture, Minerals, and Industrial Licensing. The information is available for interactive usage with respect to various parameters.

5. Finance Information System Division: This Division assists the Ministry of Finance in developing a comprehensive budget account information system. It also assists the Perspective Planning Division of the Planning Commission for preparation of the Annual Plans. Activities have also been initiated with the Department of Economic Affairs and the Ministry of External Affairs for developing Accounts Information base.

6. Financial Resources Information System Division: Import-Export data bank has been designed and developed as a unified management information system to service the needs of the Ministries of Commerce, Finance, Shipping and Transport and several export promotion councils. The data bank includes information on estate duty, wealth tax, customs, import policy, and trade statistics.

7. Social and Economic Information System Division: This Division undertakes social and economic systems development. Projects include impact of water projects, development of a social science directory, rural block level planning project, studying impact of various subsidies to rural sector, development of National Register in the field of economic information and projects related to organisations like Bureau of Industrial Costs and Prices, Central Statistical Organisation and National Sample Survey Organisation. Other activities of the Division include socio-economic index data bank, development of price information system; conversion of input /output global model on Indian cases to host Cyber system, uses of forecasting models based on Box-Jerkin ARIMA approach, and assistance in surveys and monitoring of Rajasthan Canal Project.

8. Trade and Media Information System Division: This undertakes activities like the computerisation of Vendor Performance Rating Systems, Vendor Registration Systems, Tender Processing Systems, Imported Oil Distribution and Accounting System, Newsprint Allocation System, Tabulation of the results of Time budget survey, and time allotment and billing operation of All India Radio. It has also created a data base for the retrieval of the statements made by dignitaries at various national/international events.

9. Agriculture and Water Information System Division: The activities of this Division include Fertilizer Information System, Drought Prone Area Programme (DPAP) Information System, Registration Information System for International Soil Science Congress, and Conversion of Floods Forecasting Models supplied by UN experts to Central Water Commission and Conversions of Ground Water Models.

10. National Resources Information System Division: The activities of this Division include Wild Life Management Eco-system Model, Natural Resources System, Oceanographic Information System and Environmental Information System.

11. Industry Information System Division: This Division has developed the Patents Information System (based on the bibliographic data on world patents available from INPADOC) and provides Patents Specifications Dissemination service. It has also designed the Indian Standards Certification Marks' data base. It is also developing a Standards Information System. The Division also generates monthly reports of overseas standards on an ongoing basis. The division also prepares balance sheets and profit and loss analysis of corporate data. It is also operating the Small Scale Industries Production Index.

12. Construction and Transport Information System Division: This Division offers services to the Directorate of Estates, Central Public Works Department, National Building Organisation, Town and Country Planning Organisation, Central Road Research Institute and Transport and Shipping Wings of the Ministry of Shipping & Trnasport. The Division undertakes activities like preparation of priority lists for allotment of Government accommodation, a personnel data base for CPWD, a structural analysis package, tabulation work of rural building activity survey, computerisation of housing and building statistics, road user, cost survey, information system for Cement Controller's Office, and data base for National Highways.

13. Energy Information System Division: The Division undertakes activities like design and implementation of information systems for monitoring the daily generation of power-stations hydro reservoir status, coal stocks in thermal stations, interchange of energy between systems and outage of generating units, and interactive data-base for the Power Survey Directorate. It has created data banks on installed capacity, generation of electricity, consumption, consumers and connected load.

14. Demography Information System Division: The Division assits the Ministry of Health and Family Welfare and the Registrar General. It has designed the Integrated Health Information System for Director General of Health Services.

15. Education and Manpower Information System Division: The Division assists the Ministry of Education in various types of analysis like Indian students going abroad, validation of eductional statistics, analysis and result preparation of the residential school scholarship scheme, books imported into India, serial control system for Central Secretariat Library, quarterly attendance reporting, and attendance list and admission cards generation, etc. The Division also assists the UPSC in the evaluation of answer sheets for the four major national competitive examinations.

ELECTRONICS TRADE & TECHNOLOGY DEVELOPMENT CORPORATION LTD

15/48 Malcha Marg, Chanakyapuri,
New Delhi-110021
Phone: 374023 Cable: TRADETECH
Telex: 031-3809

The Electronics Trade & Technology Development Corporation Ltd was incorporated as a Government company in 1979 with the objective to accelerate the growth of the electronics industry in the country through the development of technology and foreign trade in electronics.

The principal objectives of ETTDC are

-To have techno-commercial negotiations with organisations abroad on a continuing basis, so as to identify/locate/modify/standardise etc., components, materials and equipments for use in India on satisfactory commercial terms;

-To bulk the present and future requirements of such electronic items, project houses requirements to the counterpart agencies abroad, arrange to produce the items and stock the items on warehousing basis, wherever necessary to satisfy the production and technology needs of the electronics industry and other users in the country;

-To identify items exportable from India and arrange production of such items in India, and wherever necessary promote joint production ventures either for increasing internal production or for exports;

-To locate appropriate know-how from favourable sources and obtain the same for use in the country; and

- To monitor the progress of inter-governmental cooperation/trade agreements in the field of electronics, excluding those relating to purely scientific pursuits.

DEVELOPMENT COMMISSIONER OF SMALL SCALE INDUSTRIES

Electronics Directorate, Nariman Bhavan, 7th Floor, New Delhi-110011

The main objective of DCSSI is to promote the small scale sector. Its promotional activities are channelled through the network of Small Industry Service Institutes located in every State. Assistance to enterpreneurs is provided on both technical and commercial aspects.

Assistance with the processing of applications for import of raw materials, components and capital goods is also provided.

DIRECTORATE GENERAL OF TECHNICAL DEVELOPMENT

Udyog Bhavan, Maulana Azad Road,
New Delhi-110011

DGTD advises and assists in the planning and development of industries with a view to securing a well balanced and properly co-ordinated pattern of industrialisation in the country.

Some of the main functions of DGTD are:

- To assist in formulating detailed industrial production targets and keeping them under constant review.
- To examine applications received for the issue of Industrial Licences for technical feasibility.
- To advise on the suitability of terms where foreign collaboration is involved.
- To examine applications for import of capital goods, raw materials etc. with reference to indigenous availability.
- To advise in the formulation of import and export policies, tariff protection and the training of technical personnel overseas.
- To collect and compile industrial data relating to installed capacity, actual production, employment position, stocks, prices etc., and appraise the Ministries concerned of trends.

ENGINEERING EXPORT PROMOTION COUNCIL

World Trade Centre, 14/1B Ezra Street,
Calcutta-700001

EEPC is a Government of India sponsored organisation devoted to export promotion of Indian engineering goods.

It helps Indian firms in locating prospective overseas markets, encourages product development and diversification and assists the industry in drawing up a total marketing strategy both at the micro and macro level. It organises various promotional overseas activities such as participation in various specialised trade fairs and exhibitions, brand publicity through advertisements, sending delegations and study teams, and publishing product directories and overseas journal.

EEPC is also responsible for promoting export of computer software.

EXPORT CREDIT AND GAURANTEE CORPORATION LTD

Express Towers, Nariman Point, Bombay-400021
Phone: 233046

ECGC is a specialised institution established to encourage, facilitate and develop India's export trade.

The main function of ECGC are:

- To issue insurance policies to exporters to protect them against losses that they may suffer in the event of certain commercial and political risks resulting in delay of payments for goods/services exported.
- To furnish guarantees to banks in India enabling the exporters to obtain, on a liberal basis, the pre-shipment and post-shipment credit facilities needed by them to maintain and expand their export trade.

INDIA INVESTMENT CENTRE

Jeevan Vihar Building, Sansad Marg
New Delhi-110001
Phone: 312118

The main objectives of this Centre are-

- To promote among the capital exporting countries a wider knowledge and understainding of laws, policies, procedures and conditions pertaining to investment in India and opportunities offered by the country.
- To advise and assist Indian entrepreneurs, including those engaged in medium and small industries, in their efforts to attract foreign private capital and/or advanced technical know-how.
- To advise and assist foreign businessmen on matters relating to the setting up of joint ventures in India.
- To conduct surveys of investment possibilities open to prospective investors in India; and
- To promote a wider knowledge and understanding of conditions, laws, policies and procedures pertaining to investment by Indian entrepreneurs in foreign countries.

NATIONAL RESEARCH DEVELOPMENT CORPORATION OF INDIA

20 Zamrudpur Community Centre
New Delhi-110048
Phone: 648615

The NRDC promotes the development and exploitation of indigenous inventions, processes and know-how. In the field of Electronics and instrumentation, the Corporation has been assisting the industry by making available to it a technology developed by CSIR, Defence and other national laboratories and institutions.

SANTA CRUZ ELECTRONICS EXPORT PROCESSING ZONE

Andheri (East), Bombay-400096
Phone: 579576

SEEPZ is a Government managed industrial estate dedicated to the production of electronic goods and services for 100% export.

The main objectives of SEEPZ are:

- To achieve higher export earnings
- To aid transfer of technological knowhow
- To help utilization of technically trained manpower

TRADE DEVELOPMENT AUTHORITY OF INDIA

Bank of Baroda Building, Sansad Marg,
New Delhi-110001
Phone: 310214

TDA operates on a non-profit basis to introduce overseas buyers to reputable Indian manufacturers and exporters. It offers a complete range of information services on product availability, price structure, reliable sources of supply, delivery schedules, quality control status etc. All these services are provided free to the overseas buyers as well as to the Indian exporters.

ELECTRONICS STANDARDS, TEST & DEVELOPMENT CENTRES

INDIAN STANDARDS INSTITUTION

Manak Bhavan, Bahadur Shah Zafar Marg,
New Delhi-110002
Phone: 266021

ISI's activitites include Standardisation, Certification and Quality Control. It has an Electronics Section.

ISI has four Regional Offices at Bombay, Calcutta, Chandigarh and Madras. Each of these regional offices has a testing laboratory associated with it. One Central laboratory is located at Ghaziabad. ISI's nine branch Offices are situated at Ahmedabad, Bangalore, Bhopal, Bhubaneswar, Hyderabad, Jaipur, Kanpur, Patna and Trivandrum.

ELECTRONICS COMPONENT STANDARDISATION ORGANISATION

Post Box 5108, High Grounds, Bangalore-560001

The Electronics Components Standardisation Organisation (LCSO) undertakes standardisation of electronic component used in Defence.

ELECTRONICS TEST & DEVELOPMENT CENTRES

The main functions of the ETDCs are:

- to provide testing facilities for various products
- to provide calibration facilities
- to provide development assistance to enterepreneurs by renting sophisticated equipment
- to provide library facilities and serve as a data bank of ISI, JSS and International Sepcifications, reference books and journals.

The following 16 ETDCs are currently in operation:

: 30 Race Course Road, Bangalore-560001

: C1/B-64B GIDC Industrial Estate
Makarpura, Vadodara-390010

: D-2/2 Industrial Estate, Rasulgarh P.O.
Bhubaneswar-751010

SECTION XVII

Relevant Government Policies

The Government of India have had under consideration, the question of reviewing the existing policy for manufacture, import and export of computers and computer-based systems. As a first step in that direction, the following revisions are made to the existing policy and procedures for manufacture, import and export of computers and computer-based systems.

The revision is broadly aimed at accomplishing the following basic objectives:

i) Enable manufacture in the country, of computers based on the latest technology, at prices comparable with international levels and progressively increase indigenisation consistent with economic viability.

ii) Simplify existing procedures to enable users to obtain computers of their requirements either from indigenous sources or from overseas sources mainly regulated through fiscal measures.

iii) Promote appropriate applications of computers which are of development catalysing nature with due regard for long term benefit of computerisation to the country as a whole.

The revised policy and procedures given below pertain to computers and their associated subsystems like peripherals and software and computer-based systems in which the computer is a major subsystem.

A. Manufacture:

1. All regulatory measures concerning manufacture like scrutiny of applications for Letters of Intent, Industrial Licences, Foreign Collaboration, Phased Manufacturing Programmes (PMP) and CG & Raw-material imports, will be exercised by the existing Inter-Ministerial Standing Committee (IMSC) under the Department of Electronics (DOE) which has ben designated for this extended

purpose. The Computer, Computer-Communication and Instrumentation (CCI) Wing of the Department of Electronics will continue to be the Secretariat for this Committee. All applications should also be made directly to the CCI-Wing of DOE.

2. Manufacture of micro/mini computers including personal computers, micro computers and VLSI-based minicomputers including those based on 32-bit chips or equivalent (excluding 32 and higher bit super mini/mainframe architecture) will be permitted to any Indian company, i.e., wholly owned Indian companies and companies having foreign equity not exceeding forty percent, in the private or public sector.

3. The manufacture of CPU of mainframes and super mini-computers will be reserved for a period of two years for manufacture by the public sector. The precise definition of mainframe range of computers and super minicomputers will be laid down from time to time by DOE.

4. A new classification "Computer and Computer-based Systems" will be introduced for the items covered under this policy. This new classification will be entitled for investment allowance and other incentives available for new industries. Software development and manufacture is classified as "Industry". The industry will be exempted from the purview of the locational policy etc., in view of its specialised high technology nature.

5. The existing capacity restrictions on the organised sector relating to total production value of Rs. 2 crores per year and of five systems per year below Rs. 3 lakhs will be deleted. Manufacture of micro and minicomputer systems will be permitted without any restriction on capacity except a minimum requirement of a viable capacity and a phased manufacturing programme (PMP), which will result in manufacture with as high indigenisation as is economically viable. The PMP for progressive realisation of economically viable indigenisation as well as progressive updating of technology would be ensured by the Department of Electronics through the IMSC.

6. For companies supplying CPUs, peripherals and other subsystems on original equipment manufacture (OEM) basis, liberal import of knowhow shall be permitted and the excise duty will be kept at relatively low level with appropriate set-off.

7. A price purchase preference to Public Sector enterprises for Government and public sector purchase of computers would be available as per prevailing Government policies applicable to this sector.

8. For Research and Development units recognised by DOE, import of designs and drawings will be allowed on OGL.

9. Adequately liberal import of designs and drawings, systems software and utility software will be initially permited for manufacture and later regulated by PMP and raw material clearance.

All applications for such imports should be sent to the CCI-Wing of Department of Electronics and will be examined by the IMSC.

10. The Department of Electronics through IMSC will take appropriate measures for the promotion of standardisation around certain LSI/VLSI chips and peripherals with due regard to indigenously made products.

11. Import of software, where allowed, shall be preferably in the form of source code. Special encouragement will be given to central purchase of source code of software and distribution within the country.

12. To be able to manufacture the final product at internationally competitive prices, it is necessary that components should be made available to manufacturers at as near international prices as possible. Suitable revision of the duty structure on components will be recommended by the Department of Electronics from time to time based on the following principles: Components which are not being manufactured in the country and which are not expected to be manufactured in the near future, will be identified and permitted to be imported at very low levels of import duty. For other components which are manufactured in the country or can be manufactured within a short period, liberal manufacturing facilities will be allowed to be set up taking advantage of economies of scale. Such components will be protected from imports with sufficiently high protective duty. Such duty structures will be recommended from time to time by the Department of Electronics to the Ministry of Finance.

13. The procedure for import of raw materials and components for actual use of the manufacturer would be simplified and expedited. Upto a specified time limit after the registration of import application with the Department of Electronics, the clearance of raw materials will be governed by the IMSC which shall give a decision within two months of the registration of the application.

14. Computers manufactured in the country will be protected from imports through fiscal measures like high protective import duty levels recommended by DOE through the IMSC from time to time. Recommendations will be made to the Ministry of Finance to progressively reduce the import duties in order to encourage reductions in the cost of indigenous manufacture.

15. Procedures will be evolved by DOE through IMSC for making indigenous manufacturers competitive with respect to imports by educational institutions, R&D organizations, Defence establishments and other categories of organizations for which direct import of computers do not attract import duty.

16. A letter of approval will be cancelled if the party does not take effective steps within a period stipulated by the DOE through IMSC.

17. All local manufacturers would be encouraged to provide capability for bilingual (Hindi and English) input-output facility in the computers manufactured by them from 1986 onwards to meet the demand from those who are required to use Hindi under the Official Languages Act.

18. Promotion of applications of computers in any social or economic sector will be carried out by encouraging setting up of system engineering companies in the public and private sector without undue constraint as long as the computers and computer subsystems are bought from indigenous sources as available.

19. Within the ambit of the above mentioned policy framework all details of procedures will be laid down by the DOE through the IMSC from time to time. The DOE through the IMSC is also empowered to steer the implementation and interpret the policies and procedures from time to time.

B. Import :

1. The same Interministerial Standing Committee (IMSC) under the DOE referred to in A(1) will examine the applications for import of computers including import for facilitating software exports. For this latter purpose, IMSC will also have a representative of Commerce Ministry as a member. All applications should be directly sent to the CCI-Wing of the DOE.

2. Import of computers, computer-based systems and computer subsystems like peripherals for integrating with an imported CPU will be permitted only to actual end users.

3. With liberalisation of domestic manufacture, domestic computers will be enabled progressively to compete with imported computers on which a sufficiently high protective import duty will be levied.

   Actual users will be permitted to import standardised EDP systems as complete systems costing less than Rs. 10 lakhs c.i.f on the basis of liberal procedures by paying a sufficiently high protective duty. This will become effective on 1st April 1985 when the duty rate will also be announced.

   The Department of Electronics will recommend progessively lower levels of duty on such imports from time to time in order to make local manufacture progressively more competitive with respect to equivalent imported systems.

4. For import of computers and predominantly computer-based systems costing more than Rs. 10 lakhs c.i.f., the actual user would be required to apply to the Department of Electronics who would examine the application from the point of desirability of applications, essentiality and indigenous availability.

If the use of the computer is desirable and is not available indigenously, the user will be permitted to import at a low level of duty from a standardised list which would be announced periodically by the Department of Electronics. This list would contain between 12 and 18 models and will be periodically updated. The standardised list will be maintained to enable the advantage of bulk purchase and facilitate maintenance and exchange of software. To take advantage of the substantial reduction of foreign exchange for bulk purchase, the Department of Electronics would negotiate with the vendors of the models in the standardised list and execute a rate contract where possible, for a fixed duration of time.

5. Where import of computers or computer subsystems are needed as part of a justified proprietory purchase, or as any special purpose computer not available from indigenous sources, clearance of the Department of Electronics is necessary. A low level of duty would apply.

6. After the clearance has been given by the Department of Electronics for purchase under (4) or (5) above, the user would be free to negotiate directly and take all further procurement action.

7. If for some justifiable special reason, the user wishes to avail of DOE's assistance in the actual procurement of the computer, they may approach DOE for the purpose and come to a proper understanding with DOE on how the computer is to be procured.

8. Import of application software not available commercially in the country would be permitted to actual users with low duty levels on a case to case clearance by DOE. The actual user may avail of OGL facility with a sufficiently high protective import duty for any software after informing, in writing, the Department of Electronics. In addition, where possible, DOE would arrange for centralised import of software for distribution to manufacturers and users on a no-profit no-loss basis.

9. Maintenance of imported computers and predominantly computer-based systems imported will be done either inhouse by the actual user or by the CMC Limited or by any other agency designated by DOE. The DOE designated agency or CMC or the user responsible for the maintenance of imported computer systems will be permitted to import spares, tools, test equipment and software support for warranty maintenance on the basis of CCP licence if so required.

10. All import applications will be processed by the DOE through IMSC within two months of the registration of application in the CCI-Wing of DOE in complete form as per proforma notified from time to time.

11. All actual users who have imported computers or purchased indigenous ones who are required to use Hindi under the Official Languages Act, will be encouraged to augment their computing facilities for input-output processing of data in Devanagari in addition to English within two years of installation of the system

or within two years from the date of this Notification, whichever is earlier.

12. Within the ambit of the above mentioned policy framework, all details of procedures will be laid down by the DOE through the IMSC from time to time. The DOE through the IMSC is also empowered to steer the implementation and interpret the policies and procedures from time to time.

C. Software Development & Export:

1. The Department of Electronics will set up an extensive research, design and development facility. This organisation will be given special encouragement to not only develop knowhow through indigenous efforts, but also import knowhow on a centralised basis where found advantageous and absorb as well as improve on this knowhow on a continuous basis. This organization would cumulate a standardised menu of knowhow for making them available to interested users and entrepreneurs.

2. DOE will set up a Software Development Promotion Agency to give an impetus to the growth of manpower intensive software development efforts for both exports and local requirements including import substitution as an integrated effort.

3. Effective software export promotion on a sustained basis can be effective in the long run only if it is planned as a part of an overall software promotion scheme covering both export and internal requirements including import substitution. Also, planning for software development is integrally connected with the plan for hardware development and system engineering. The Software Export Promotion Policy of January 1982 will continue to apply but will include the following modifications:

   i) The general structure of 100% export schemes applied as hitherto, will continue to be applicable for computer items.

   ii) Category 'A' and 'B' scheme will be modified as outlined in the Import-Export Policy, April 1984 - March 1985, Volume I, Chapter 5, Para 22.

   iii) Category 'C' in the existing Software Export Scheme will continue in its present form except for the following additional provisions:

      a) The following two options will be available to the exporter:

         i) either complete duty exemption with custom bonding,

         ii) or, duty payment without custom bonding.

b) 50 percent of export earning will be available to the exporter on the same basis as for categories 'A' and 'B'

c) All facilities and incentives available under the 100 percent software export scheme will be available to Category 'C' scheme also.

iv) Software exports shall also be promoted through satellite based data links with overseas computers. This will be carried out by DOE in co-ordination with the Ministry of Communication/P&T Department.

v) The National Computer Network, INDONET, will be made available predominantly to promote software export from public and private sector enterprises with special consideration for software houses in the small scale sector.

vi) For import of computers under any of the software export schemes, a special low duty window will be provided.

D. Implementation:

1. All the revised policies and procedures outlined above come into effect immediately on the date of issue of this Press Note.

2. Import of computers on the basis outlined in B(3) above will come into force with the announcement of the Import and Export Policy for the period April 1985 - March 1986.

3. Notifications concerning specific duty levels applicable until further notice from Ministry of Finance will be issued by them separately.

4. All cases governed by policies and procedures outlined above which are still awaiting notifications in various Government Departments on specific issues, will be processed by DOE in the interim as per present policies and procedures.

RELATED CUSTOMS NOTIFICATIONS

CUSTOMS NOTIFICATION No. 279/84
19th November 1984

GSR. In exercise of the powers conferred by sub-section (1) of the Section 25 of the Customs Act, 1962 (52 of 1962), and in suporsession of the notification of the Government of India in the Ministry of Finance (Department of Revenue) No. 283/83-Customs, dated the 3rd October, 1983, the Central Government, being satisfied that it is necessary in the public interest so to do, hereby exempts goods specified in column (3) of the Table hereto annexed and falling within the

Chapter of the First Schedule to the Customs Tariff Act, 1975 (51 of 1975) specified in the corresponding entry in column (2) of the said Table, when imported into India for the manufacture of the goods specified in the corresponding entry in column (4) of the said Table, from -

(a) so much of that portion of the duty of customs leviable thereon which is specified in the said First Schedule as is in excess of the amount calculated at the rate of 5 per cent ad valorem; and

(b) the whole of the additional duty leviable thereon under section 3 of the second-mentioned Act,

Subject to the following conditions, namely:-

(i) an officer not lower in rank than a Joint Director in the Department of Electronics of the Government of India is satisfied that the goods in question are required for the purpose specified above and certifies to this effect and recommends grant of the above exemption;

(ii) the importer shall, by the execution of a bond in such form and for such sum as may be specified by the Assistant Collector of Customs bind himself, to pay, on demand, in respect of such goods as are not proved to the satisfaction of the Assistant Collector of Customs to have been used for the aforesaid purpose, an amount equal to the difference between the duty leviable on such goods but for the exemption contained herein and that already paid at the time of importation.

RELEVANT EXTRACTS FROM IMPORT & EXPORT POLICY APRIL 1984-MARCH 1985

Definition

(9) **"Computer system"** means all types of electronic data processing computers, their peripheral equipment, data collection and data preparation equipment, remote terminals, modems, process and plant control systems, computer magnetic tapes and discpacks, tools, test equipment and spares relevant thereto; it includes also all systems and application software to work an existing hardware or that proposed to be imported.

Policy

21(1) All computer systems, irrespective of value require the prior import clearance of the Department of Electronics before issue of import licence. This applies also to computer systems proposed for import by all R & D organisations, whether these be R & D units of enterprises or otherwise. For clearance of imports of computer systems of c.i.f. value of Rs. 5 lakhs or more by any user, a special policy and procedure is followed by the Department of Electronics. This includes determination of the essentiality of the computer proposed for import, assessing whether the computer system needed can be supplied by indigenous suppliers, and where this is not the case, drawing up of specifications for the optimal system, floating of tenders, evaluation of bids and final approval for import. All Actual Users have, therefore, to apply to the Department of Electronics (Computer Group), Lok Nayak Bhavan, Khan Market, New Delhi, for clearance of the import of a computer system.

(2) Prior clearance of the Department of Electronics will not be necessary for import of computers by Non-Resident Indians, under the provisions made in para 89(1)(x) of this policy.

(3) The Computer Maintenance Corporation (CMC) will be the designated procurement agency for spares, tools and test equipment in respect of all computer systems maintained or planned to be maintained by them. They will procure spares, tools and test equipment in bulk upto a maximum value of 3 per cent per annum of the c.i.f. value of imported computer systems maintained under their own responsibility or in respect of similar systems maintained by users who may register themselves with C.M.C. for procurement of spares (C.M.C. may set up bonded warehouses on the basis of understanding with manufacturers for such systems).

(4) All Actual Users other than those covered in (2) and (3) above may obtain spares on the basis of Open General Licence (subject to the Actual User condition) upto a maximum of 3 per cent per annum of the c.i.f. value of the imported computer systems in use by them without obtaining prior clearance from Department of Electronics.

(5) In respect of all indigenously manufactured computer systems, maintained by the Computer Maintenance Corporation (CMC) or in-house by the users or by the indigenous manufacturers as a part of their services to the users, spares upto a maximum of 1 per cent per annum of the sale price of the computer system, may be imported under Open General Licence (subject to the Actual User conditions), without obtaining prior clearance from Department of Electronics. Computer Maintenance Corporation or indigenous manufacturers with whom the users are registered for maintenance services and/or for supply of spares (for carrying out in-house maintenance) can also import spares under OGL, on their behalf, under this provision, upto a maximum of one per cent per annum of the sale price of computer system.

(6) For the purposes of sub-paras (3) and (4) above, the c.i.f. value of an used system purchased by the Actual User shall be reckoned at 48 times the monthly rent paid thereon immediately prior to the date of purchase or the purchase price of an equivalent new machine, whichever is lower.

(7) Import applications to cover requirements of spares in excess of the limits laid down in sub-paras (3) to (5) above, may be considered by the licensing authorities concerned on the recommendation of the Department of Electronics, New Delhi.

(8) Spares, tools and test equipments imported under the provisions made in this Chapter can be transferred by the concerned Actual Users to Computer Maintenance Corporation for the purpose of pooling of resources.

(9) Import of electronic spares for dedicated computers attached to capital equipment will be allowed as per the policy for import of machinery spares.

(10) Spares for computers which are an integral part of photo composing systems will be allowed upto 5 per cent of the cost of photo composing machine without clearance of the Department of Electronics.

(11) Clearance of Department of Electronics will not e required where computer is a built-in integral part of he equipment.

22(1) Import of Computer System is allowed subject to export obligation as provided in Chapter V of the Hand Book of Import-Export Procedures, 1984-85. For purposes of augmenting their export capability, Computer software exporters, after discharging the export obligation referred to above, may be granted import licence equal to 50 percent of the foreign exchange earned from export of computer software and related services over and above the specified export obligation. In case of exporters not subject to an export obligation also, import licence may be given equal to 50 per cent of foreign exchange earned from the export of computer software and related services.

(2) Only such export earnings will be taken into account for determining the value of licence as have accrued on export of software and related services made on or after 1-4-1984.

(3) Import licences may be issued for the import of :-

(i) Hardware [excluding replacement or augmentation of the Central Processing Unit (C.P.U.) but including augmentation of the memory of the C.P.U.] software and peripherals for purposes of augmenting existing computer/ computer related systems.

(ii) Testing equipment related to the export capability.

(iii) Software tools such as cross assemblers, deassemblers, decompliers, complier programme generators, flow-chart generators, debugging and diagnostic tools, performance evaluation and monitoring tools.

(iv) Consumables and supplies related to the export capability.

(4) Prior approval of Department of Electronics will not be required by the licensing authority for allowing import of the above items.

(5) Application may be made to the licensing authority concerned.

(6) Import licence and the goods and the system imported against such licences will be subject to 'Actual User' Condition. The items imported will be used for the development of computer software and will not be allowed to be transferred by way of loan, sale, pledge or otherwise for a period of 5 years from the date of import.

(7) Concerned exporter will be allowed to accummulate part value or the full value of the valid import licences issued under this provision upto a period of three years for availing of the facility mentioned below.

(i) Import of the items mentioned above will be subject to export obligation of 100% of the c.i.f. value of such items to be imported.

(ii) Before the clearance of first consignment, the applicant will be required to execute a bond with the licensing authority in the prescribed form backed by a bank guarantee undertaking to export equal to 100 per cent of the c.i.f. value of items imported.

(iii) The export obligation will be discharged over a period of maximum five years commencing from the date of clearance of the first consignment. It will further be a condition that the export to be made in discharge of the obligation shall be achieved in the following manner :-

(a) 20% of the total export obligation at the end of 2nd year.

(b) 40% of the total export obligation at the end of 3rd year.

(c) 60% of the total export obligation at the end of 4th year.

(d) 100% of the total export obligation at the end of 5th year.

(8) Such import licences may also be utilised for import of data preparation systems and new computer systems, related hardware, software and peripherals. The request for import of such items may be made to the

licensing authority concerned. The licensing authority will obtain the recommendation of the Department of Electronics. The Department of Electronics will convey their recommendation to the licensing authority concerned within six weeks of the receipt of such reference.

(9) In cases where the importer of a computer system fails to comply with the conditions subject to which the import is allowed, he will be liable to action under the Imports & Exports (Control) Act, 1947, as ammended, Imports & Exports (Control) Orders and other provisions connected therewith.

Facilities for Indians Returning From/Residing Abroad

89(1)import of computer system may also be allowed in cases where the applicant has been using it abroad for at least one year before returning to India provided its c.i.f. value is not more than Rs.5 lakhs, whether new or old or where computer is an integral built-in part of the equipment being allowed for import.

Handbook of Import-Export Procedures

108 (1) Chapter 5 of the Import-Export Policy, 1984-85 provides that all computer systems, irrespective of value, (including those to be imported against REP licences) require prior import clearance of the Department of Electronics. All Actual Users have to apply through the Department of Electronics (Computer Directorate), Lok Nayak Bhavan, Khan Market, New Delhi, which is the sponsoring authority for the import of computer systems. Based on the clearance given by that Department such cases will be dealt with as under:-

(a) Applications from Actual Users will be dealt with in accordance with the procedure laid down in para 97.

(b) Actual Users (Non-Industrial) namely R&D units etc. covered by para 48 of the Import-Export policy, 1984-85 will be allowed to import computer systems with initial spares under Open General Licence, if otherwise admissible, only on the basis of the prior import clearance obtained by them from the Department of Electronics.

(2) Import of computer system may be allowed to export-oriented units subject to export obligation in the following manner:-

(a) Where the applicant undertakes to export software of fob value equal to twice the cif value of import allowed;

(b) where an applicant imports computer system out of his own foreign exchange earnings abroad and undertakes to export software of fob value equal to the cif value allowed;

(c) in both (a) & (b) above, the applicant will be required to produce evidence to show, at the time of applying for import licince, that he has firm export orders covering at least 20% of the export obligation to be stipulated;

(d) the export obligation will be discharged over a period of maximum five years commencing from the date on which imported computer system is installed.

It will further be a condition that the export to be made in discharge of the obligation shall be achieved in the following manner:-

(i) By the end of the 2nd year, the minimum level of export to be achieved shall be 20% of the total obligation;

(ii) by the end of the 3rd year, the minimum level of export to be achieved will be 40% of total obligation;

(iii) by the end of the 4th year, the minimum level of exports to be achieved will be 60% of the total obligation; and

(iv) by the end of the 5th year, the minimum level of export to be achieved shall be equal to the total value of the obligation.

(e) at the time of import of the first consignment against the licence, the applicant will be required to execute an export bond in the prescribed form; and

(f) the applicant will send half-yearly returns of the export made to the Department of Electronics (Computer Directorate), Lok Nayak Bhavan, New Delhi.

(3) Applications may also be entertained for import of computer system for the purpose of enhancing/modifying system hardware and/or software against a specific export order, with the condition that the imported

computer systems shall be re-exported after the order has been executed. In such cases imported computer systems shall not be used for any domestic work.

(4) In cases where the importer of a computer system fails to comply with the conditions subject to which the import is allowed, he will be liable to action under the Import & Export control regulations.

(5) Actual Users (Industrial) should apply for import licence in the Capital Goods form prescribed in Appendix 11. Other Actual Users may apply in the form given in this Book.

Special Provision

158. Attention is invited to Chapter 5 of the Import-Export Policy, 1984-85 read with para "7" of Chapter 3 thereof. In this regard, the three-tier system of licensing of Capital Goods stands amended. Import of every computer system has to be got cleared by the Deptt. of Electronics before the application can be considered for the purposes of granting a 'Capital Goods' licence, (If the c.i.f. value of the computer system is Rs. 5 lakhs or more, there is a special procedure under that Department for clearing such imports). The applicant should send one copy of his import application to the Department of Electronics for obtaining clearance. Import licences in such cases can be issued by the licensing authorities concerned after necessary clearance has been given.

Note

For definition of Actual User, Non-Resident Indians and other terms, refer to the Import-Export Policy.

43; Sr. Manager, Electric Vehicle Engg. &
Mfg. Division, Bharat Heavy Electricals Ltd.,
Bhopal-462022; 75371

B.E.(Hons), P.G. Diploma (ET)

Computer Aided Design with FORTRAN

AGARWAL, Vinay

Director, Prime Consultants Pvt. Ltd,
Mull Building, 4 Ashok Marg,
Lucknow-226001; 42217

AGGARWAL, S S

Managing Director, Electronic Systems Punjab
Ltd, B-81, Phase - VII, Industiral Area,
SAS Nagar, Chandigarh-160055; 87862

AGARWAL, SUNIL

Editor, DATAQUEST, Cyber Media (India) Ltd.,
810 Meghdoot, 94 Nehru Place,
New Delhi-110019; 6416315

AGGARWAL, V B

36; Professor & Head, Department of Computer Science, Room No. 314 Second Floor, Arts Faculty Extension Building, University of Delhi, Delhi-110007; 2511266

M.Sc, Ph.D

Software Development, Business Applications, Data Base Management System, Information Systems

AGRAWAL, S L

Programmer-Cum-System Analyst, E.D.P. Section., Durgapur Steel Plant., Durgapur-713203; 2603

B.Sc., Mech Engg.

Data Processing

AGRAWALA, S K

44; Joint Director, Management Service Group, Oil & Natural Gas Commission, 41 Chowringhee Road, Calcutta -700071; 245645

M.Sc. (Maths), M.A.(Eco Stat), Courses in Computers

Application Software, Programming Languages (Fortran, Cobol, Basic, Pascal)

AIYAR, N S

Senior Area Sales Manager, Hindustan Computers Ltd, 45, Jhowtolla Road, Calcutta-700053

ARORA, Rajeev

37; Chief Executive, Datapro Consultancy Services, 201, Embassy Centre, Nariman Point, Bombay-400021; 232520

MBA, Univ. of Wisconsin (USA), M.Sc., Univ of Wisconsin (USA), B.Sc. Bombay

Management Consultancy, Software, Maintenance, Hospital Management Operations Research Simulation

ARYA, Naresh

Director, Arya Projects Ltd, 118, Mittal Chambers, 228, Nariman Point, Bombay-400021

ASTHAVANS, Suresh

Regional Manager, Tata Consultancy Services, Gulab Bhavan, Bahadur Shah Zafar Marg, New Delhi - 110002; 272559, 273991

ATRI, Amul

26; Engineer (LSI Design), Semiconductor Complex Ltd, Chandigarh

M.Sc. (Physics) Delhi University; M.Tech.(Computer Science) Indian Institute of Technology, Bombay; One year advance training at American Microprocess Inc., USA.

Chips Designing

BAGCHI, B K

Sr. Software Engineer, Hinditron Computers Pvt Ltd, 504, Raheja Chambers, Nariman Point Bombay-400021

B.E. (Electrical Engineering) Jabalpur Engineering College; One Year course in Computer Science and Nuclear Engineering - Bhabha Atomic Research Centre

Real Time Applications, System Software Communication

BAGCHI, Subroto

Manager, Marketing Services, MMC Digital Systems, 3 Woodburn Road, Calcutta-700020; 434350,446855

BAJAJ, Balbir Singh

Managing Director, Eiko Computers Pvt Ltd,

301, 3rd Floor Devatha Plaza, 131,
Residency Road, Bangalore - 560025; 54119

BAKSHI, Kirit

Managing Director, Minicomp Pvt Ltd, D-11
Everest Building, Tardeo Circle,
Bombay-400034; 398107

BALAKRISHANAN, Ajit

Managing Director, PSI Data Systems Pvt Ltd,
2 Victoria Road, Bangalore-560047;
578090, 567607

BALAKRISHNAN, P S

50; EDP Manager, ACC Ltd., 6th Floor, Cement House, 121, M. Karve Road, Bombay - 400020

B.Sc. B.E.

BALASUBRAMANIAM, T A

Editor, PLUS, Dataworld Corporation, B-2,
Annapurna Industrial Estate, Tilak Road,
Ghatkopar (E), Bombay - 400077; 5122863

BALASUBRAMANIAN, R

35; EDP Co-Ordinator, Southern Petrochemical Industries Corporation Ltd., 97 Mount Road, Madras-600032; 427663

B.E.(Mech), M.B.A., Diploma (OR)

Systems Analysis & Design Management Information System O R & Industrial Engineering Applications

BALI, K P

35; Export Manager, Khandelwal Hermann
Electronics Ltd, 2, Rehem Mansion,
44, S. Bhagat Singh Road, Bombay-400039;
2020072

B.E. (Electrical)

Electronics & Computers

BALRAM, Shyamala

29; Systems Analyst, Southern Petrochemical Industries Corporation Limited, 97 Mount Road, Madras-600032; 433241

P.G.(Maths), Several Courses in Computers

Commercial Application Systems Study/Design/Development/Implementation on Mainframe Computers

BANERJEE, Asesh Kanta Dr.

42; System Analyst (Head of EDP Dept), Garden Reach Shipbuilders & Engineers Ltd., 43/36, Garden Reach Road, Calcutta-700024; 45-1721

M.Com., Ph.D. (Operations Research), AICWA, Several Courses in Computers

Financial, Cost & Management Accounting, Operational Research MIS, Systems and Computerisation both Commercial and Scientific.

BANERJEE, Chandan

Senior Marketing Executive, Computer Aided
Learning Systems, A-102/1, Okhla Industrial
Estate Phase - II, New Delhi-110020

BANSAL, Alok

30; Manager (E.D.P.), Mahavir Spinning Mills Ltd,
Post Box 18, Phagwara Road, Hoshiarpur;
2056

B.Sc, B.E. (Mech Engg), Univ. of Roorkee

Data Base Management Systems, Application Software Development, On-line System Design, Integrated Material Management

BANSAL, V K

29; Systems Analyst, Jindal Aluminium Ltd,
16th K.M. Tumkur Road, Bangalore; 384255

M.Sc. (Physics), Post Graduate Diploma in Computer Science

Software, Operations Research

BAPAT, Vidula V

27; Partner, Inlog Systems, Advait, Plot
No.17, Chintamani Nagar, Sahakar Nagar, No.2,
Pune-411009; 447935

B.E. (E & T/c)

Microprocessor-based Systems

BARUA, D N

58; Director, Company Consultants Private
Limited., 98, G.N.B. Road, Gauhati-781003;
26054

M.I.E (Chemical)

Consultancy

BARVE, Rohini S

34; Data Systems Services, 4/1 Sadhu Vaswani Kunj,
Sadhu Vaswani Road, Pune-411001; 61566

B.Sc. (Statistics), Course in AUTOCODER, PLAN, FORTRAN, COBOL

Payroll, Accounting, Invoicing, Standard Costing, Human Resources Analysis

BASANDRA, Suresh K

27; Executive Officer (EDP), Indian Ports
Association, 19 Lodi Road, Institutional
Area, New Delhi-110003; 626201

M.Tech. Computer Technology, IIT Delhi; B.Sc. Electrical (Electronics) Engg.

Computer Software & Data Base Management Systems

BHADTI, Shripad Shivaram

27; Junior Programmer, The Premier
Automobiles Ltd., Kurla (North),
Bombay-400070; 5125190

M.Sc.(Physics), PASCAL (CSI)

Application Software

BHALLA, Subhas Dr.

Sr. Systems Analyst, SCL Computer Services,
11 Babar Road, New Delhi-110001

M.Tech, Ph.D

Basic, Cobol, Fortran, Pascal

BHALLA, Jasbir Singh

49; Senior Systems Analyst, EDP Centre, Bokaro
Steel Plant, Bokaro Steel City-827001;
707

M.A.(Math), Diploma in Administration in Computers (France)

Management Information Systems

BHARAT RAM, Vinay

Managing Director, DCM Data Products,
4th Floor Vikrant Towers, 4 Rajendra Place,
New Delhi - 110018

BHARGAVA, B B D

54; Director(Telecom), India Meteorological
Dept, Mausam Bhavan, Lodhi Road,
New Delhi-110003; 624486

M.Sc.(Physics); D.IISc.(Elect. Commn); Computer Courses

Automatic Message Switching Systems

BHARKATIYA, Ajit Singh

43; Managing Director, Ajit Engineers,
70 SSI Area, Rajaji Nagar, Bangalore-560010;
355303

M.E.

Relays and Switches

BHASKAR, Babu Y

Sr. Software Specialist, Hinditron Computers Pvt Ltd, 504, Raheja Chambers, Nariman Point Bombay-400021

B.Tech. (Mech Engg) IIT Madras; MBA Indian Institute of Management, Ahmedabad

System Software (VAX/VMS, RSTS/E, RT-11 Operating System), Compiler Development, Customer Training

BHASKAR, M

Area Market Development Manager, Hindustan Computers Ltd, 402, Manish Commercial Centre, 216A, Dr A B Road, Worli, Bombay-400025; 463125

BHATKAR, Vijay P. Dr.

37; Director Electronics Research & Development Centre, Kerala State Electronics Development Corporation Ltd., Keltron House, Vellayambalam, Trivandrum-695001; 60621

BHATNAGAR, M B L

Chairman, Eastern Interiors Pvt Ltd., Sambava Chambers, 2nd Floor, Sir P.M. Road, Fort, Bombay - 400001; 257710

BHATT, Pramodchandra P

44; Professor, Dept. of Computer Science & Engg., Indian Institute of Technology, New Delhi-110016

Ph.D.

Computer Architecture, Computer Aided Design

BHAVNANI, Rajkumar R

24; Assistant Engineer, Computer Centre(New), Larsen & Toubro Ltd., Saki Vihar Road, Powai, Bombay-400072; 581401

B.E. (Electrical & Electronics), Several Courses in Computer Science

BHOJWANI, Ashok

42; Managing Director, TSG Consultants Private Limited, 202 Ashok Bhawan, 93 Nehru Place, New Delhi- 110019; 683161

M.S. E.E. Polytechnic Insitute of Brooklyn, New York, B.Tech (Hons), IIT, Kharagpur

Senior Management Education on Computers, Educational and Medical Software, Computer Industry and Market Analysis

BHOLE, Madhav G

29; Programmer/Analyst, Blue Star Limited, Unit 74, SDF III, SEEPZ, Andheri East, Bombay-400096; 6328669

B.Sc.; Computer Courses

System Design, Programming and Development on HP3000, ICL 2904, PDP 11 and EC1030 Computers using COBOL, BASIC and FORTRAN Languages

BHUSHAN, V

Managing Director, Uptron Digital Systems, 10 Ashok Marg, Lucknow - 226001

BHUTANI, Kewal K

46; General Manager, Computronics India, 10 Ashok Marg, Lucknow; 33551, 34295

M.Sc.Tech. (Electronics Engg), Ph.D.

Computer Hardware, Microcomputers and Computer Applications

BISWAS, K K Dr.

37; Asstt. Professor, Dept. of Computer

Science & Engg., Indian Institute Technology, New Delhi-110016

B.E. Bangalore Univ., Systems Software, Systems Hardware

IBRAMSHA, M Dr.

39; Assistant Professor, Dept of Computer Science & Engg, Indian Institute of Technology New Delhi-110016

B.E.(Hons), Ph.D.

All aspects of Computer Science and Engg, Biomedical Engg. and Solar Energy

JAIN, Bijendra N Dr.

35; Assistant Professor, Department of Computer Science & Engg., Indian Institute of Technology, New Delhi-110016

Ph.D.

Computer Networks, Communication Protocols, Microcomputer Systems

JAIN, K C

Senior Systems Manager, Hindustan Aeronautics Ltd, Nasik

JAIN, Kapil

Product Manager (Business Systems), DCM Data Products, 4th Floor, Vikrant Towers, 4 Rajendra Place, New Delhi-110008; 5719967, 571568

JAIN, Kumar Ajai

28; Lecturer, Dept. of Computer Science & Engineering, Indian Institute of Technology, New Delhi-110016

M.Tech.(Computer Technology)

Software Engineering, Data Structure

JAIN, Mahesh Kumar

Director, Integra Micro Systems (P) Ltd., B-82, Defence Colony, New Delhi-110024; 699472

JAIN, Manmohan

37; Managing Director, Supreme Computer Systems, 301 Skipper Corner, Nehru Place, New Delhi-110019; 525347

M.Tech, I.I.T. Delhi

JAIN, Nirmal K

25; Director, Microbase Software Systems Pvt. Ltd., B-220, Saraswati Vihar, Delhi-110034; 7121241

B.Tech., Ph.D. (Comp. Sc.)

Distributed Operating System, Distributed Control

JAIN, Nirmal

38, Deputy General Manager, Tata Consultancy Services, Air India Building, Nariman Point, Bombay-400021; 2023052

Ph.D. (Univ of Hawaii)

JAIN, P D

Managing Director, Computer Maintenance Corporation Ltd, The Arcade, World Trade Centre, Cuffe Parade, Bombay-400005

JAIN, S C

35; Proprietor, Electronic Industries, 7249/4, Hospital Road, Ambala City-134002; 58191

B.Sc. Engg (Mech)

JAYASEELAN, T

40; Manager (EDP & Systems), Bharat Heavy Eelectricals Limited, Control Equipment Division, Mysore Road, PB No. 2606, Bangalore; 602034

B.E. (Mech)

EDP (Including CAD & Reprographics) and Organisation Methods (Systems)

JAYKRISHNA, Rajesh

Director, Ultra Business Machines Pvt Ltd, 2nd Floor, St Patricks Shopping Arcade, 157, Brigade Road, Banyalorc-560025; 579193

JINDAL, Neeraj

31; Managing Director, Jindal Electronics (P) Ltd., 15-16 Industrial Estate, Roorkee; 2962

B.E.(Electrical), M.E.(Electronics)

Microcomputer Based Process Control Instrumentation, Power Electronics, and High Voltage Engineering

JOSHI, Satish Prakash

Partner, Trimurti Consultants, 4, Sardar Chawl, S V P Road, Kandivali, Bombay-400067

B.E. (Electronics), Several Computer Courses

Data Communications, Computer Networks, Engineering Packages, Real-Time Software

JUMDE, Shripad

Engineer Systems, Eiko Computers (P) Ltd, 1207-9 Pragati Towers, 26 Rajendra Place, New Delhi-110008; 5713481

KAILAS, Bhaskar

Sales Executive, Digital Innovations Pvt Ltd, 714 Hemkunt Towers, 98 Nehru Place, New Delhi-110019; 681558

KAKODKAR, S R

Managing Director, Meltron Computer Division, 214 Backbay Reclamation, Raheja Centre, 13th Floor, Nariman Point, Bombay-400021; 240538

KAMBOJ, Sunil

26; Executive Dirctor, Computer World Corporation, 245-247, Defence Colony Flyover Complex, New Delhi-110024; 611737

Programming & System Designing, Application Software Development

KANADE, C G

Regional Manager, Hindustan Computers Ltd, 402, Manish Commercial Centre, 216A, Dr A B Road, Worli, Bombay-400025; 463125

KAPOOR, S L

41; Director, TSG Consultants Private Limited, 202, Ashok Bhawan, 93 Nehru Place, New Delhi-110019; 683161

B.Tech.(Hons), IIT, Bombay

Software for the Manufacturing Industry, Materials and Financial Systems, Medical Software, Senior Management Education on Computers

KARNIK, P

Regional Manager, DCM Data Products, 112-115, West Wing, 1st Floor, Tulsiani Chambers, Backbay Reclamation, Nariman Point, Bombay-400021; 224239

KAUSHIK, Saroj

30; Lecturer, Dept. of Computer Science & Engg., Indian Institute of Technology, New Delhi-110016; 666979

Ph.D., PG Diploma in Computer Science

Computer Arithmetic, Operating Systems

KELKAR, A D

44; Director, TSG Consultant Private Limited, 202 Ashok Bhawan, 93 Nehru Place, New Delhi-110019; 683161

B.E. (Electrical Engg)

Systems Software, Systems Integration, Data Communications and Networking

KHAKHOLIA, Gori Shanker

64; Partner, Jaipur Computers & Electronics, Mirza Ismail Road, Jaipur-302001; 73193

Marketing

KHER, Kiran D

Software Support, Hinditron Computers Pvt Ltd,
504, Raheja Chambers, Nariman Point,
Bombay-400021

B.Sc., M.Sc. Univ. of Pune, Several courses in Computer Science

Scientific Applications, Systems Support

KOCHHAR, Gautam

29; Director, EDP Computer House, 4/18, Asaf Ali
Road, New Delhi-110002; 272805

Chartered Accountant

Commercial Application Software

KOHLI, F C

Managing Director, Tata Consultancy Services,
Air India Building, Nariman Point,
Bombay-400021; 2023052

KRISHNAKUMAR, V

29; Systems Analyst, Southern Petrochemical
Industries Corporation Ltd., 97 Mount Road,
Madras-600032; 434011

B.Tech., M.B.A.

Design, Development and Implementation of Systems, Design development of Software Packages

KRISHNAN, R

27; Systems Analyst, Southern Petrochemical
Industries Corporation Limited, 97 Mount
Road, Madras-600032; 433241

B.E.(Mechanical)

Design & Implementation of Data Base Systems on Mainframes and Mini Computers, Application Software on Mini Micro Computers

KRISHNAMURTHY, Sandhya

27; Manager Production & Development, Ultra
Business Machines Private Ltd, 2nd Floor, St.
Patricks Shopping Arcade No: 157 Brigade Road,
Bangalore-560025; 579193

B.E. (Electronics)

Systems Software; Systems Hardware

KRISHNAN, C H

Managing Director, C H Krishnan & Associates
Pvt Ltd, Krishna House Plot 223, Indira
Nagar, Adyar, Madras - 600010

KRISHNAYYA, J G

49; Executive Director, Systems Research
Institute, 17-A Gultekdi, Pune-411037; 470323

Computers and Communication Policy, Information Systems for Government Agencies and Multipurpose Organisations, Computer Applications including Graphics and Cartography, Socio-Economic Simulation Models

KULKARNI, Gopal Vithal

37; Programmer-cum-Operator, Associated Film
Industries P.Ltd., 68, Tardeo Road,
Bombay-400034; 392821

B.Com.; BASIC Programming

Application Software Development for Commercial & Production Application

KULKARNI, Kunda

28; Data Systems Services, 4/1 Sadhu Vaswani Kunj,
Sadhu Vaswani Road, Pune-411001; 61566

M.Sc.(Maths), Course in COBOL

Software Development

KULKARNI, Pravin Pralhad

32; Data Systems Services, 4/1 Sadhu Vaswani Kunj, Sadhu Vaswani Road, Pune-411001; 61566

Courses in FORTRAN IV, COBOL, AUTOCODER

Computer Operations

KUMAR, Anshul Dr.

31; Asst. Professor, Dept. of Computer Science & Engg., Indian Institute Technology, New Delhi-110016

B.Tech.(Elec.Engg), Ph.D. (Computer Aided Design of Digital Systems)

CAD of Digital Systems, VLSI Design, Microprocessors

KUNDU, Champak

28; Proprietor, Epoch Elecronics, 29, Tripura Roy Lane, Salkia, Howrah-711106; 66-2481

B.E.

Power Eelectronics

KURIAN, Veejon

24; Systems Engineer, Blue Star Limited, Sahas, 414/2, Veer Savarkar Marg, Prabhadevi, Bombay-400025; 4226155

B.Tech. (Electronics), IIT, Madras

System Support and Development on HP3000, HP1000, HP9845, DG M600 and TRS-80 computers using COBOL, BASIC & FORTRAN, IMAGE Database

LALL, Dushyant S

38; Manager, Management Services, The Indian Tube Co. Ltd., P.O.Box 81, Jamshedpur-831001; 25071

B.E. (Electronics) Pilani, M.S. (Eelectrical) U.S.A.

Computer Application in Business & Industry

LALVANI, Suresh J

35; Managing Partner, Seaton Engineers, 78, BDA Commercial Complex, Indiranagar, Bangalore; 578039

B.Tech, M.S. (Iowa, USA)

Development of Information System and Software for Business use and Operations Research Applications

LALWANI, Taru

49; Executive Director, Bureau of Data Processing Systems, 103, Hind Rajasthan Building, D.S. Phalke Road, Dadar (E), Bombay-400014; 448422

B.Sc.

Software Consultancy & Training

LAMBA, Ishwar Singh

40; Sr. Systems Analyst, Empress Mills, Nagpur-440018; 45111

M.Sc.(Maths);P.G Dipl (Computer Sc); Advanced Software Course

EDP Centre Management, Design & Implementation of Software Projects, Documentation Standards, Training

LELE, G S

64; Administrative officer, Indian School of Political Economy, 820/2, Shivajinagar, Pune-411004; 54287

B.A.(Hons)

Programming

LUTHRA, V P

Managing Director, Televista Electronics
(P) Ltd, 239 Okhla Industrial Estate,
New Delhi-110020; 634567

MAHABALA, H N

Professor, Indian Institute of Technology,
Madras

B.Sc. Hons(Maths), M.Sc., Ph.D. (Elec) Canada

MAHALINGAM

Resident Manager, Tata Consultancy Services,
29, Rajaji Salai, Madras-600001; 510345

MAHESH, A

Instructor, SCL Computer Services, 11 Babar Road,
New Delhi-110001

B.Com.

Basic, Cobol

MAHESHWARI, V K

43; Sr. EDP Officer, Zenith Steel Pipes &
Industries Limited, (PO) Khopoli-410203;
321322

M.Sc. (Maths)

Financial Accounting, Payroll Share
Accounting, Sales Accounting, Inventory
Control

MAHTANI, Gobind N

42; Partner, The Computer Consultancy, 1,
Jeypore Nagar, Madras-600086; 82246

BASIC Programming

Teaching Children passed out from School

MALHOTRA, Anil

Senior Consultant, Informatics Computer
Systems, C-19, Commercial Centre, Safdarjung
Dev. Area, Opp IIT Gate, New Delhi-110016;
662734

AMBIM (LOND); AIDPM(LOND)

Systems Consultancy, Software Development and
Computer Education

MALHOTRA, Chander M

38; Managing Director, Advanced Computer
Center, A-28, Prahlad Market (1st Floor)
Karol Bagh, New Delhi-110005; 582728

M.B.A. (U.S.A), M.S.(Mechanical Engineering)
(U.S.A), M.Sc. (Physics) Delhi Univ.

Systems Software, Computer Education,
Management Consultancy, Computer Consultancy

MALI, K L

23; Programmer, Softbanc, 73, Sector-1,
Gandhidham-370201; 3175

Basic

Payroll, Financial Accounting Systems and Share
Accounting

MANGLA, Satish Chand

27; Programmer, International Data Processing Co.
Ltd., 77, Sanchi, Nehru Place,
New Delhi-110019; 6414636

B.Sc. (Mathematical Statistics), Univ. of
Delhi; One-year Course in Data Collection &
Processing Methods, ISI, Calcutta Programming

MARGAN, S

26; Director, Madras Academic Institute, Dept of
Computer Science, 14, Arcot Road,
Kodambakkam, Madras-600024

M.Sc., B.Ed.

Computer programming in BASIC, COBOL and FORTRAN (Fundamental and Advanced)

MARWAH, S C

Regional Manager, DCM Data Products, Shantiniketan, 3rd Floor, 8 Camac Street, Calcutta-700017; 443538, 433947

MASTER, Cawas Jehangir

29; E.D.P Manger, Steelage Industries Limited, Opp. Post Office, Mazagaon, Bombay-400010; 8722961

B.Com, A.E.P (Bombay), D.P.T (Canada)

Financial/Personal Mangement Systems, Integrated M.I.S

MATHEW, K A

Managing Director, O/E/N India Ltd, Vyttila, P B No 2, Cochin-682019; 33132, 33709

MEHRA, Om Prakash

52; Managing Director, International Data Management Pvt. Ltd., Express Towers, 16th Floor, Nariman Point, Bombay-400021; 2026020

Ph.D. (Univ. of Wisconsin, U.S.A.)

General Management

MEHRA, Pradeep

43; Dy Director (Programme), Office of Registrar General of India, Ministry of Home Affairs, N-121 Sewa Bhawan, North Wing, 1st Floor, R K Puram, New Delhi-110066; 601258

MA (Maths), Courses in Computers

System Design & Programming for Large Scale Data Processiog Jobs, Teaching Data Processing

MEHRA, Rohit

Regional Product Executive, The National Radio & Electronics Co. Ltd., Mahakali Road, Chakala, Andheri (E) Bombay-400093; 6327511, 6327528

MEHTA, Bharat

Managing Director, Sum Electronics, 45 Atlanta, 209 Nariman Point, Bombay-400021; 241797, 235397

MEHTA, Davendra K

Dy. General Manager (Computer Systems), Instrumentation Limited, Computer Systems Department, Commercial Unit, Kota-324005; 4591

Ph.D. Computer and Cybernetic Systems area Univ. of Pittsburgh; MS (Computer Engg.), Univ. of Michigan,

Systems Engineering, Software for Real-Time Systems

MEHTA, Madhu

Director, Digital Innovations Pvt Ltd, 46-B Gautamnagar, Race Course Road, Vadodara - 397007; 66544, 67344

MEHTA, N K Dr.

34; Manager (Management Systems), National Thermal Power Corporation Ltd., NTPC Square, (Skipper House), New Delhi-110019; 6418794

Ph.D. Lehigh Univ., U.S.A., PGDIE (NITIE)

Computer-based Information System Design, Application Software Development Management Science

MEHTA, S I

33; Mechanical Engg. Dept. Indian Institute of Technology, Powai, Bombay-400076

B.Tech.(Mech.), M.S.(Controls& Optimization), Ph.D. (Model Order Production, Simulation & Optical Control)

MENDIRATTA, Ranita

Course Coordinator, SCL Computer Services, 11, Babar Road, New Delhi-110001

B.A

Computer Operations

MILLWALA, Hasanali Anis

32; Surveyor, Indian Register of Shipping, 72, Maker Towers F, 7th Floor, Cuffe Parade, Bombay-400005; 214588

B.Tech.(Hons.), Courses in FORTRAN, COBOL & APPLICATIONS (CSI, NCSDCT)

Science/Engineering Applications, Information Systems with large volume data (batch & interactive), DBMS, Supervising Data Centre Activities and Teaching BASIC and FORTRAN Programming Languages

MITRA, Chinmoy

27; Controller, C.MARC (India) Private Limited, P-22, Bondel Road, Calcutta-700019; 43-3470

B.Sc. Diploma in Business Management, Diploma in Computer Programming

MITRA, Girish

Director, Digital Innovations Pvt Ltd, 46-B Gautamnagar, Race Course Road, Vadodara - 397007; 66544, 67344

MITRA, P K

Chairman & Managing Director, Webel Computers Ltd, Webel Industrial Complex, P-1 Taratola Road, Calcutta-700088

MITTAL, Amit

26; Director, Infinity Management Services (I) Pvt Ltd, 113, Park Street, Calcutta-700016; 24-3243

B.Com (Hons) St. Xaviers College, MBA (USA) South West Texas State Univ. (Austin) Computer Science

Turnkey Implementation of Computer Data Centres

MODANI, R D

35; Computer Operator Cum Programmer, Zenith Steel Pipes & Ind. Ltd., Khopoli-410203; 321

Financial Accounting, Share Accounting, Sales Accounting, Payroll, Stores Inventory Control

MOHAN KUMAR, M S Dr.

29; Software Consultant, Ultra Business Machines Private Limited, 2nd Floor, St. Patricks Shopping Arcade, No: 157 Brigade Road, Bangalore-560025; 579193

M.Sc., Ph.D (Computer Modelling)

Hydraulics and Hydrologic Applications, Application Software

MOHAN RAO, A

Regional Sales Manager, Hindustan Computers Ltd, 50B, 3rd Floor, Murugesa Naiker Office Complex, Greames Road, Madras-600006

MOHAN, R

30; Head of Planning & Production, Ultra Business Machines (P) Ltd. 2nd Floor, St. Patricks Shopping Arcade, No: 157 Brigade Road, Bangalore-560025; 579193

B.E. (Electronics)

Hardware, Software, Bio-medical Instrumentation, Signal Processing

MOHANTY, Hrushikesha

- 27; Technical Officer, Electronics Corporation of India Ltd., MSG (Software), CMG-III Bldg, Hyderabad-500762; 852231

M.Sc. (Mathematics), DIIT (CMCP)

System Programming, Design and Analysis of Algorithms, Distributed Database Management, Realtime Applications

MOKASHI, Arun

Resident Manager, Tata Consultancy Services,
NICCO House, 2nd Floor, Hare Street,
Calcutta-700001

MUKHERJEE, Asok K

27; Sr. Programmer, The Small Tools
Manufacturing Co. of India Ltd., 33-1a,
Upendra Chandra Banerjee Road,
Calcutta-700054; 35-7396

PG Diploma in Statistical Quality Control

Inventory Control, Programming with Basic

MUKHERJEE, Tarak Nath

25; Programmer(Trainee), M.A.M.C. Ltd,
Durgapur-713210; 5261-35

B.Sc, AMIE, Computer Courses

MULCHANDANI, T R

Managing Director, Bush India Ltd, Sukh Sagar
N.S. Patkar Marg, P.O. Box 4127,
Bombay - 400007

MURDESHWAR, Ramesh

38;Consultant, Customer Engineering Services,
C-24 Green Park Extension, New Delhi-110016;
662492

B.E.(Elec)

Computer Maintenance

MURTY, A S

38; Senior Manager & Head, Management
Services Division, Bharat Dynamics Ltd.,
Kanchanbagh, (P.O), Hyderabad-500258

B.Sc., B.E.(Mech), M.B.A., M.Tech.(Ind.Engg.)

Industrial Engineering; O & M; Systems Design; Management Information Systems; Eelectronic Data Processing; Application of Modern Management Techniques

MURTY, C K

42; Executive Officer, Tata Engineering &
Locomotive Co Ltd, 701/703 Raheja Centre, Nariman
Point, Bombay-400021; 223001

B.E. (Mech. Engg)

Managing large computer centres

MUTHUSAMY, A

40; Senior Manager (EDP), Steel Authority of India
Ltd, Salem Steel Plant, Salem-636013;
7621

L.E.E., A.M.I.E., PG Diploma, ICWAI (Inter)

Computer Programming, Systems Analysis, Design & Development and EDP Management

NADAR, Shiv S

Managing Director, Hindustan Computers Ltd,
8th Floor, Bajaj House, 97 Nehru place,
New Delhi - 110019

NAIK, N Prabhakar

32; Asst. Manager, Indian Register of
Shipping, 72-F Maker Tower, 7th Floor, Cuffe
Parade, Bombay-400005; 214588

B.Com., Programming Course, Software Technology Course (NCSDST)

Commercial Applications like Pay-Roll, Inventory, Order Processing, Bank Reconciliation, Personnel Inventory, Information Systems with large volume data storage, DBMS and supervising Data Centre Activities

NAIR, Purushothaman M

39; Statistician, Regional Filaria Training & Research Centre, Calicut-673010; 73928

M.Sc.(Statistics), Several Courses in Autocoder, Cobol, Fortran

Data Processing

NAMBIAR, K P R

Executive Chairman, Kerala State Electronics Development Corporation Ltd, Keltron House, Vellayambalam, Trivandrum-695001; 60621

NAMBIAR, T P G Col

Managing Director, BPL India Ltd, BPL Centre, 32, Church Street, Bangalore-560001; 52321, 55217

NANDA, Paul

44; Chief Marketing Manager, The Projects & Equipment Corporation Of India Ltd, 15, Barakhamba Road, Hansalaya, New Delhi-110001; 44757

Grad IERE, UK, Grad IEE, UK, Courses-Basic Machines Course at IBM, Management Information Systems by Management Development Institute, New Delhi.

Management & Marketing

NANDAKUMAR, Govindan

29; Analyst, Blue Star Limited, Unit 74, SDF III, SEEPZ, Andheri East, Bombay-400096; 6328669

B.E., M.Tech.(Computer Science) III, Kanpur

Systems Analysis, Design and Development on HP3000, IBM 3033, Burroughs B6700 and IBM370 Computers & ADABAS & IMAGE DBMS, Banking and Insurance Systems

NARAIN, Prem Prof.

50; Director, Indian Agricultural Statistics Research Institute, Library Avenue, New Delhi-110012; 581479

B.Sc, B.Sc.(Hons.), M.Sc., Ph.D., Edinburg University (U.K.)

Statistical Genetics, Agricultural Statistics

NARASIMHAN, A

Director, Wipro Information Technology Ltd, SB Towers, 88 MG Road, Bangalore-560001

1973

ADPS came into existence. Days when card punching was the only method of Data Preparation and ADPS installed 4 IBM Punches and 3 IBM 056 Verifiers in stages.

1980

ADPS was an established Agency for Data Preparation and achieved a monthly turnover of 25 million characters with 99% accuracy. A tribute to the personalised service and technical competence.

1983

ADPS expanded its activities and modernisation of Data Preparation with the installation of Direct Data Entry Terminals. Existing capacity is 40 million characters per month on Direct Data Entry besides card punching. We work round the clock to meet the tight time schedule of our customers. We are providing services to leading Computer installations of India who have reposed confidence on us. We have every reason to be proud of having been associated with such large clientele.

Presently we are equipped with 7 UPTRON offline Data Entry Terminals and one D20 Supervisory Terminal. We have facilities for conversion from Floppies to 7 track 556/800 bpi and 9 track 800/1600 bpi and vice versa.

We are fully equipped to handle all the Data Preparation needs of our existing customers, not to mention customers new to Data Preparation. We undertake large volume data on an ongoing basis.

If earlier, you were impressed with our performance, watch us now, we are growing and going places.

GO DP WITH ADPS.

CONCON offers ... FEDERAL INFORMATION PROCESSING STANDARDS from U.S. GOVERNMENT

The Federal Information Processing Standards issued by the National Bureau of Standards USA, are adopted by the U.S. Government. These help in improving the utilization and management of computers.

Over 100 Standards have been issued by NBS. Given below is a partial listing.

GENERAL

1. Federal Information Processing Standards Register: General Description of the Federal Information Processing Standards Register
2. Dictionary for Information Processing
3. Glossary for Computer Systems Security
4. Guidelines on Computer Performance Management: An Introduction
5. Standard Industrial Classification Codes
6. Codes for the Identification of Federal and Federally Assisted Organisations.
7. Guideline for Standard Occupational Classification (SOC) Codes.

HARDWARE

8. Code for Information Interchange
9. Computer Output Microform (COM) Formats and Reduction Ratios 16mm and 105mm
10. I/O Channel Interface
11. Operational Specifications for Magnetic Tape Subsystems

(Advertisement)

12. Operational Specifications for Rotating Mass Storage Subsystems

13. Advanced Data Communication Control Procedures

14. Guidelines for Benchmarking ADP Systems in the Competitive Procurement Environment

15. Guideline for Selection of Data Entry Equipment

16. Magnetic Tape Cassettes for Information Interchange

17. Interface Between Data Terminal Equipment (DTE) and Data Circuit-Terminating Equipment (DCE) for Operation with Packet-Switched Data Communications Network.

18. Operational Specifications for Fixed Block Rotating Mass Storage.

19. Operational Specifications for Variable Block Rotating Mass Storage.

20. Guideline for Optical Character Recognition (OCR) Print Quality

21. Parallel Recorded Magnetic Tape Cartridge for Information Interchange.

SOFTWARE

22. Software Summary for Describing Computer Programs & Automated Data Systems

23. Guidelines for Documentation of Computer Programs & Automated Data Systems

24. Guidelines for Planning & Using a Data Dictionary System

25. Standardization of Data Elements & Representations

26. Guidelines for Planning and Management of Data Base Applications

27. Guideline for Lifecycle Validation, Verfication and Testing of Computer Software

28. Guideline: American National Dictionary for Information Processing System

29. Message Format for Computer Based Message System

30. Guideline: A Framework for the Evaluation and Comparision of Software Development Tools.

(Advertisement)

PROGRAMMING LANGUAGES

31. COBOL
32. COBOL Pocket Guide
33. Minimal BASIC
34. FORTRAN

ADP OPERATIONS

35. Guidelines for Automatic Data Processing Physical Security & Risk Management
36. Data Encryption Standard
37. Guidelines for the Measurement of Remote Batch Computer Service
38. DES Modes of Operation
39. Guideline for Computer Security Certification and Accreditation
40. Guideline on Electrical Power for ADP Installations
41. Guideline for Developing and Implementing a Charging System for Data Processing Services.

Attention Readers

DIRECTORY ENTRIES
for
THE COMPUTER DIRECTORY OF INDIA
1985 Edition

Our Directory researchers have already commenced work on the 1985 edition, which will be published towards the end of 1985.

We shall appreciate your assistance in telling us about companies which may have been omitted in this edition. Also, if your Company is listed in this edition, but the information needs to be updated, we would like to hear from you.

Please photocopy/type the questionnaire below and indicate the entry forms you would like to receive. We will then send you the appropriate forms, which you should return to us for our necessary action.

Directory entries are free of charge.
